Easy Admin Page Guide

Not confident with computers? That's fine — just follow along

Easy Admin Page Guide

Who is this guide for?

It is fine if you are not confident with computers. This guide picks only the things you will use most often and walks you through them **one step at a time**, with the screen in front of you. You do not need to memorise any of it. **Stuck? Use the search box.** Still stuck? **Ask the A.i assistant.** Those two things are enough.

Getting in

Type the address, enter your ID — that's it.

Screen layout

Only three parts: top, left, middle.

Search box

Don't hunt menus — search one word.

Sending a notice

Do it once and it takes a minute after that.

Parent report

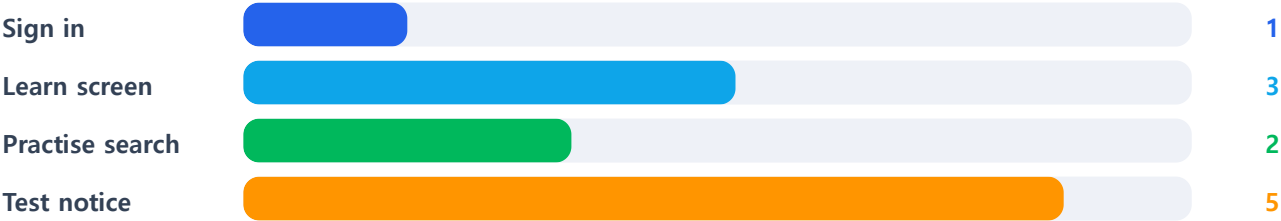

Weekly proof of growth, sent for you.

Finishing safely

Always sign out when you're done.

Your first day (minutes)

01

🔒 ① Getting in (signing in)

Admin

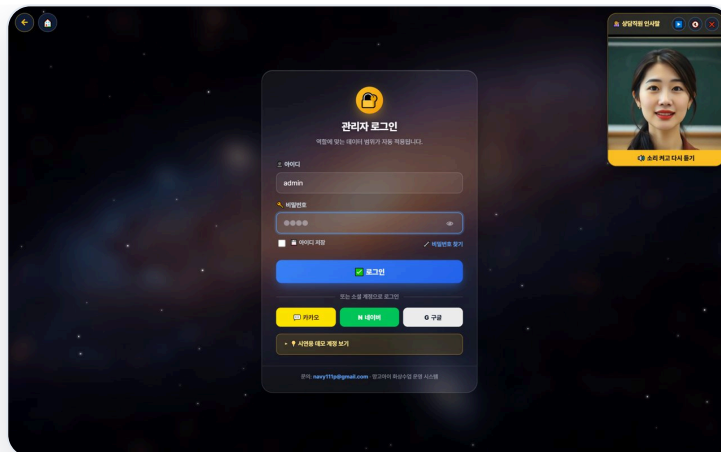

Type the address · enter your ID · go

The very first thing is **getting into the admin page**. Open your internet browser (Chrome) and type the address. It is not difficult — do it three times and it becomes automatic.

Do this

1 Chrome > 2 admin.mangoi.... > 3 ID > 4 Sign in > 5 Forgot passwo...

- 1 Open your internet browser (**Chrome**).
- 2 Type **admin.mangoi.co.kr** in the address bar at the top and press Enter.
- 3 Enter your **ID** and **password**.
- 4 Press the **Sign in** button.
- 5 If you forgot your password, press **Forgot password**.

✅ Just remember this

- ✓ It works best in **Chrome**. Do not use Internet Explorer.
- ✓ Once you are in, the same computer **will not ask again**.
- ✓ You only see the screens for **your role** (director, HQ, branch, agency) — nothing to break.

⚠️ **Be careful** If the computer is shared, always **sign out** when you finish.

💡 **Easier way** Tired of typing the address? Once you are in, press the star (bookmark). Next time it is one click.

02

② What the screen looks like

Admin

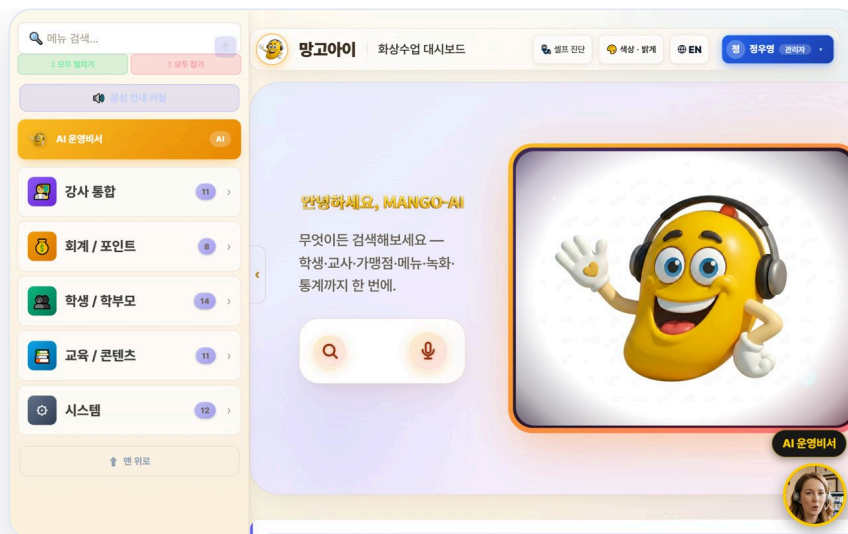

Top · left · middle — three parts

The screen has **exactly three parts**. Know these and you will never get lost. The **top bar** is your profile and settings, the **left column** is the menu, and the **middle** is whatever you are looking at.

Do this

- 1 Top bar > 2 Left column (...) > 3 Middle > 4 search box > 5 logo at the t...

- 1 **Top bar** — your name, language (EN) and the admin button are on the right.
- 2 **Left column (sidebar)** — the menu, organised into 9 groups.
- 3 **Middle** — the content you are currently viewing.
- 4 Type a word into the **search box** above the middle to jump straight to a feature.
- 5 Lost? Press the **logo at the top left** to return to the start.

✓ Just remember this

- ✓ The **number** beside a menu name is how many features it contains.
- ✓ The **search box** is the fastest route — do not hunt through menus.
- ✓ On a small screen the left menu collapses into the **≡ button**.

💡 **Easier way** Not sure what to press? Just type **what you want to do** into the search box — e.g. "attendance", "payroll", "notice".

03

③ Finding what you need, fast

One search box is all it takes

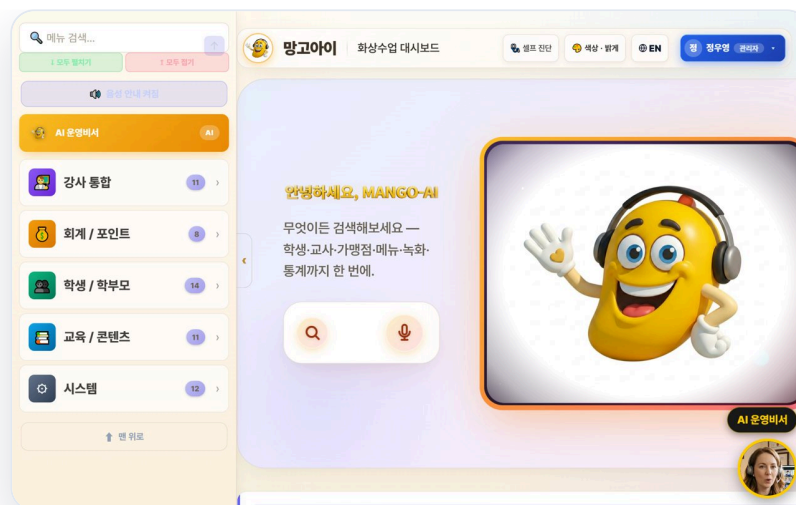

Admin

It may look like a lot of features, but do not worry. **One word in the search box** takes you straight there. You never have to click through menus one by one.

Do this

- 1 search box >
- 2 a single word >
- 3 Click the ite... >
- 4 academy list...
- 5 microphone bu...

- 1 Click the **search box** at the top middle.
- 2 Type **a single word** — e.g. "attendance", "refund", "teacher".
- 3 Click the item you want from the list.
- 4 To find an academy, type part of its name into the **academy list search box**.
- 5 Prefer to speak? Press the **microphone button** and say it.

✓ Just remember this

- ✓ **One word is enough** — no need for full sentences.
- ✓ **Part of a name** is enough to find it.
- ✓ Speaking and typing do **exactly the same thing**.

💡 **Easier way** For screens you check often, memorise two or three letters. That alone opens them instantly.

04

④ Viewing evaluations

Admin

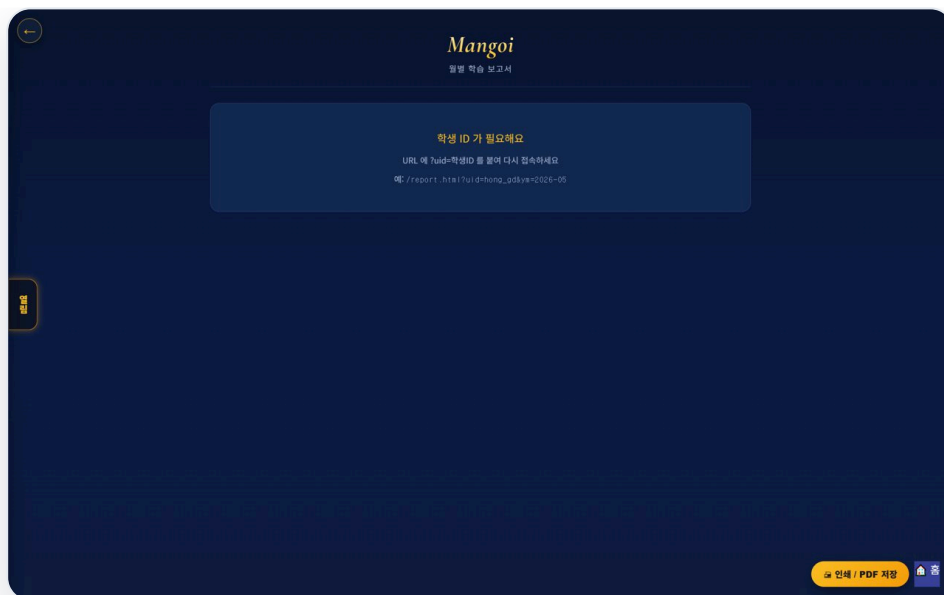

How the children are doing

An **evaluation** is what the teacher writes after a lesson — what the child did well and what comes next. When a parent calls, start here.

Do this

1 Evaluations > 2 Search > 3 read it > 4 send it to th...

- 1 Click **Evaluations** in the left menu.
- 2 **Search** by student name or date.
- 3 Click an evaluation to **read it**.
- 4 If needed, **send it to the parent as a link**.

✓ Just remember this

- ✓ An empty evaluation means **the teacher has not written it yet**.
- ✓ What accumulates here becomes the **monthly report card**.
- ✓ Most parent questions are answered from this one screen.

💡 **Easier way** Open this screen while you are on the phone with a parent. The conversation goes far more smoothly.

05

⑤ Sending a notice

Admin

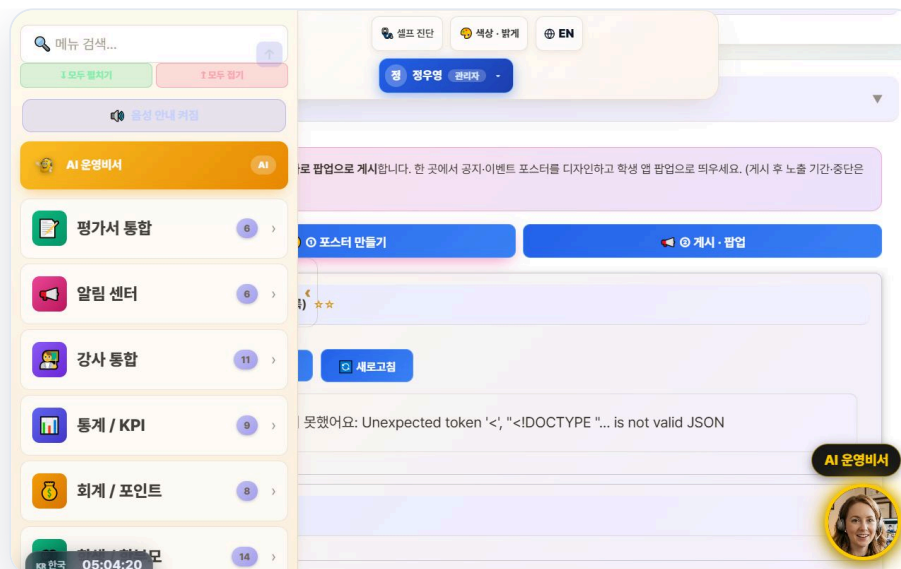

Do it once and it's easy

Sending notifications to parents or teachers is one of the most common admin tasks. Walk through it once and it takes a minute after that.

Do this

- 1 Notification... > 2 New notice > 3 recipients > 4 subject and m... > 5 Preview

- 1 Click **Notification Center** in the left menu.
- 2 Press **New notice**.
- 3 Choose the **recipients** (everyone, a year group, a specific academy).
- 4 Write the **subject and message**.
- 5 Check it with **Preview**, then press **Send**.

✔ Just remember this

- ✔ Always look at the **Preview** before sending.
- ✔ The narrower the recipient group, the **safer**.
- ✔ Sent notices are **kept on record** so you can check them later.

⚠ **Be careful** 'Send to everyone' really does go to everyone. The first time, **send a test to yourself**.

💡 **Easier way** Save the wording you use often — after that it is just picking from a list.

06

⑥ Finding students and parents

Admin

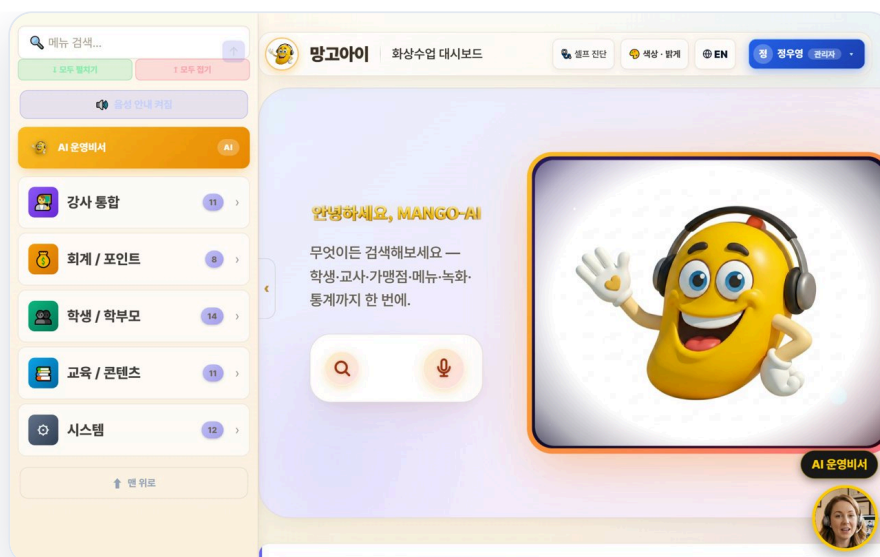

Contacts and lesson status

The **Students / Parents** menu lets you find your students and see their contact details and lesson status. Open this first when a consultation call comes in.

Do this

- 1 Students / Pa... > 2 Search > 3 lessons, atte... > 4 add it

- 1 Click **Students / Parents** in the left menu.
- 2 **Search** by name or ID.
- 3 Click a student to see their **lessons, attendance and payments**.
- 4 If the parent's contact number is empty, **add it**.

✔ Just remember this

- ✔ **Reports and text messages only go out** if a contact number is registered.
- ✔ With a number on file, parents can **reset their own password**.

- ✔ If attendance suddenly drops, it is worth **reaching out first**.

⚠ **Be careful** Student records are **personal data**. Do not screenshot them and send them outside the company.

💡 **Easier way** Check the contact number on every consultation call and fill it in on the spot. It pays off later.

07

⑦ Sending the parent report

Weekly proof of growth

Admin

This is the **report sent to parents** summarising the child's week — attendance, AI chats, words conquered and pronunciation. It is the strongest tool you have for re-enrolment.

Do this

- 1 Parent Weekly... >
- 2 Preview >
- 3 Send to this... >
- 4 Count recipie... >
- 5 Recent send I...

- 1 Click **Parent Weekly Report** in the left menu.
- 2 Enter a student ID and check it with **Preview**.
- 3 Use **Send to this parent** to test with a single recipient.
- 4 Use **Count recipients** to see how many can receive it.
- 5 Check **Recent send log** for what actually went out.

✓ Just remember this

- ✓ Only students with a registered phone number can receive it.
- ✓ The report contains **only real activity** — no invented numbers.
- ✓ A **Friday-evening automatic send** is ready and waiting.

⚠ **Be careful** ⚠ **The full automatic send is OFF by default.** It is a safeguard against accidentally messaging 29,000 people. Turn it on only after management decides.

💡 **Easier way** Send one to yourself or a colleague's number first. Once you are happy with the wording, turning it on is stress-free.

08

⑧ Viewing teachers

Roster · schedule · payroll

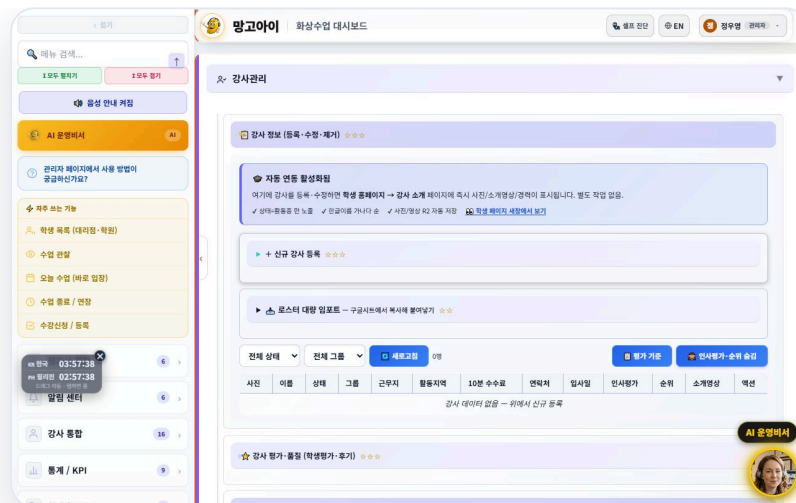

Admin

The **Teachers** menu shows the roster, working schedules and payroll. It has been reorganised to be much easier to search.

Do this

- 1 Teachers > 2 status and gr... > 3 Profile · Pay... > 4 Work / Break... > 5 teacher's nam...

- 1 Click **Teachers** in the left menu.
- 2 Use the **status and group dropdowns** at the top to filter.
- 3 Click a teacher to open the **Profile · Payroll · Evaluation** tabs.
- 4 Use the **Work / Break / Leave shortcut** to manage schedules.
- 5 Scroll the table sideways — the **teacher's name stays pinned**.

 Just remember this

- ✓ The more teachers you have, the more the **filters** help.
- ✓ **Managers** are marked with a badge, with employment status alongside.
- ✓ If a name is blank, the **ID is shown instead**.

💡 **Easier way** When a teacher says “this feature doesn't exist”, it usually does — they just **could not find the route**. Look for it together first.

09

⑨ Payments and refunds

Anything involving money

Admin

Tuition payments and refunds live under **Accounting / Points**. The new payment screen now asks **who the lessons are for first**, which makes it far easier for parents to choose.

Do this

- 1 Accounting /...
- 2 Payment histo...
- 3 check the ref...
- 4 choose-the-au...
- 5 See Full Pric...

- 1 Click **Accounting / Points** in the left menu.
- 2 Find the record by date or student under **Payment history**.
- 3 For a refund, **check the refund policy first**.
- 4 Guide parents through the **choose-the-audience-first** flow.
- 5 If they want to compare everything, press **See Full Price List**.

Just remember this

- ✓ A refund always starts with **checking the policy**.
- ✓ Prices and products are **unchanged** — only the way you choose got easier.

- ✓ If a number looks wrong, do not fix it yourself — **ask HQ**.

⚠ **Be careful** Payments and refunds move real money. If you are not certain, **ask before you click**.

💡 **Easier way** Note down two or three common refund cases and your consultation time halves.

10

⑩ Getting manuals from the Library

Admin

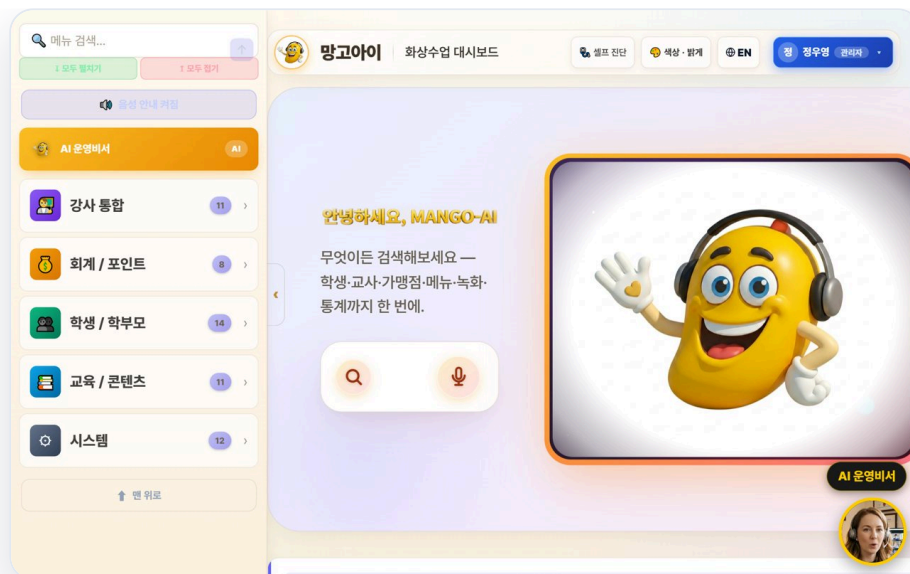

Every document in one place

The **Library** holds all the manuals and videos for admins, teachers, branches, agencies, students and parents. Just send the right person the right link.

Do this

1 Library > 2 Choose the ro... > 3 PDF · PPT · E... > 4 ▶ Play > 5 the link, not...

- 1 Click **Library** in the left menu.
- 2 Choose the room (admin, teacher, branch, agency, student).
- 3 Pick **PDF · PPT · Excel** — it downloads immediately.
- 4 For videos use ▶ **Play**, or 🗨 **Copy Link** to share.
- 5 On KakaoTalk, send **the link, not the file**.

✓ Just remember this

- ✓ Attaching a video **file** to KakaoTalk ruins the quality — **send the link**.
- ✓ Each room has a password, but **your own role's rooms open automatically**.
- ✓ Manuals are **updated** whenever new features ship.

💡 **Easier way** When a new staff member starts, send them the 'Easy Guide' link. It saves a lot of explaining.

11

⑪ How our home page looks to visitors

Admin

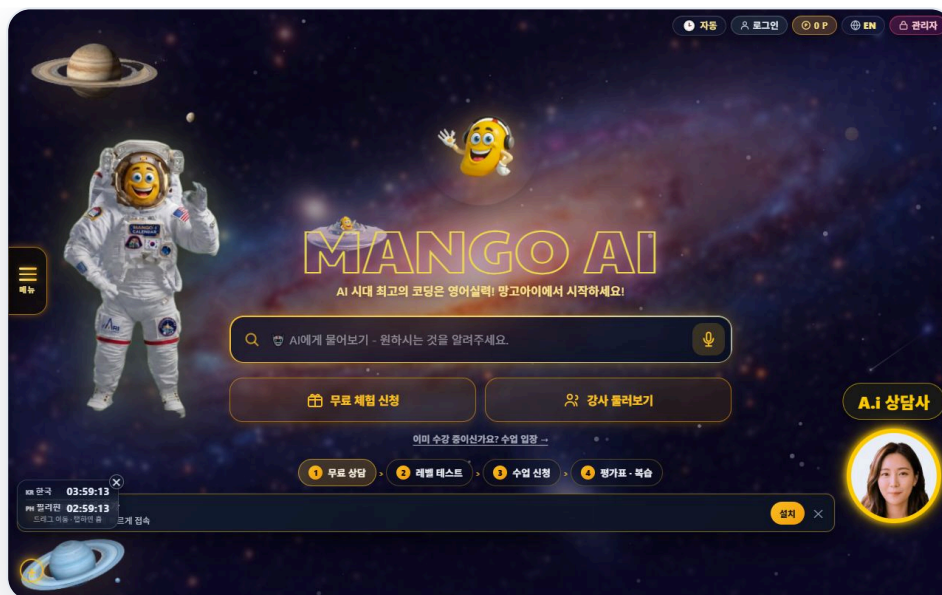

What a new parent sees

The first screen of our website **changes depending on who is looking**. A first-time parent sees **Book a Free Trial**; a logged-in student sees **Enter Class**.

Do this

- 1 new incognito...
- 2 Go to our web...
- 3 Book a Free T...
- 4 plain website...

- 1 Open a **new incognito window** in your browser (Ctrl+Shift+N).
- 2 Go to our website address.
- 3 Check that the **Book a Free Trial** button is large and prominent.
- 4 In promotional messages, just use the **plain website address**.

✓ Just remember this

- ✓ **No separate marketing page is needed** — the same address adapts.
- ✓ You can check what a parent sees at any time with an **incognito window**.
- ✓ When logged in, it shows the **countdown to the next class**.

💡 **Easier way** Open the incognito home page before a consultation. You and the parent can then look at the same screen.

12

**⑫ Finishing safely**

Sign out + where to ask

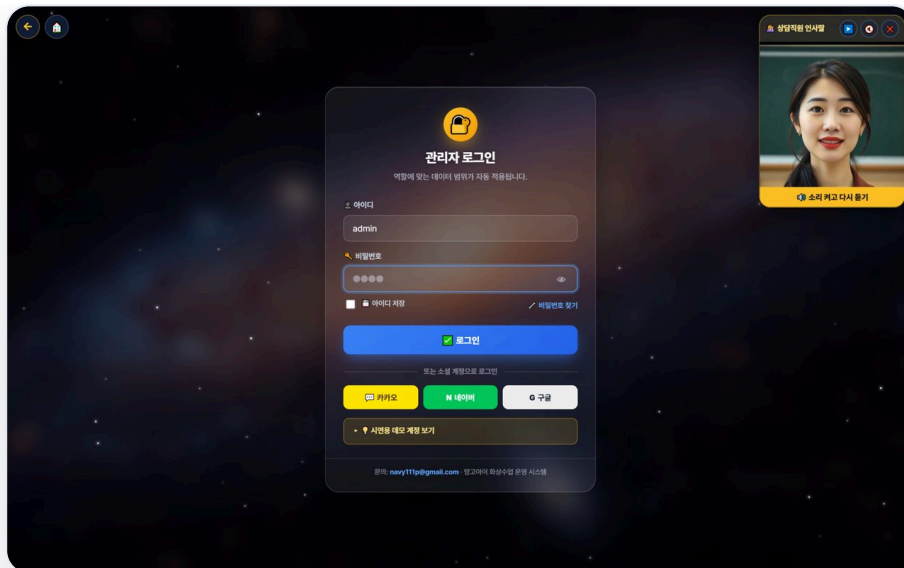

Admin

Finish by **signing out**. Then all you need to know is where to ask when you get stuck — and you are ready.

Do this

1 your name > 2 Sign out > 3 close the bro... > 4 A.i assistant > 5 KakaoTalk cha...

- 1 Click **your name** at the top right.
- 2 Press **Sign out**.
- 3 On a shared computer, **close the browser window too**.
- 4 Stuck? Ask the **A.i assistant** at the bottom right.
- 5 Still stuck? Message the **KakaoTalk channel** (10:00–23:00).

**✔ Just remember this**

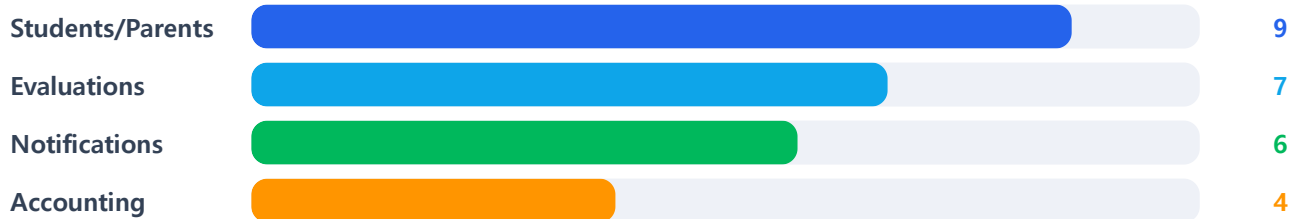

- ✔ Signing out is **the habit that protects personal data**.
- ✔ If the screen looks wrong, try **refresh (Ctrl+F5)** first.
- ✔ For enquiries, **KakaoTalk is fastest**.

💡 Easier way Do not experiment with buttons you do not recognise — ask first. **Payments, refunds and deletions** are especially hard to undo.

13 What you can do on day one

Task	Where	What it does	Time
Sign in	admin.mangoi.co.kr	Enter your ID and password	1 min
Learn the screen	Home screen	Identify top, left and middle	3 min
Find a feature	Search box	Open any feature with one word	10 sec
View evaluations	Evaluations	Check a student's lesson records	2 min
Send a notice	Notification Center	Choose recipients, preview, send	5 min
Find a student	Students / Parents	Search by name, check contact	1 min
Weekly report	Parent Weekly Report	Preview and test-send	5 min
View teachers	Teachers	Filter the roster	2 min
Check payments	Accounting / Points	Review payments and refunds	3 min
Get manuals	Library	Download PDF, PPT and videos	1 min
Sign out	Your name, top right	Finish safely	5 sec

Menus you'll use most

When you're stuck — in order

14 ? Frequently Asked Questions

Q. Where exactly do I type the address?

A. In the **long bar at the very top** of your Chrome window — the address bar, not a search box. Type `admin.mangoi.co.kr` and press Enter. Once you are in, press the star to bookmark it and it is one click from then on.

Q. I forgot my password.

A. Press **Forgot password** on the sign-in screen. A 6-digit code is sent by text to your registered phone number. If it says no number is registered, contact HQ or the KakaoTalk channel.

Q. There are too many menus — I can't find anything.

A. Do not click through the menus. Type **one word into the search box** at the top middle — "attendance", "refund", "notice". It takes you straight there.

Q. The screen looks broken.

A. First press **Ctrl and F5 together** (a hard refresh). That fixes it most of the time. If it still looks wrong, take a screenshot and send it to us.

Q. What happens if I click the wrong thing?

A. Most buttons ask for confirmation before anything is saved. However **payments, refunds and deletions** are hard to undo, so ask before clicking if you are unsure.

Q. I sent a notice by mistake.

A. A notification that has gone out cannot be recalled. That is why we recommend **sending a test to yourself first**. The send record stays in the Notification Center.

Q. Can I turn on the parent report?

A. The full automatic send is **off by default** — a safeguard against accidentally messaging 29,000 people. Use preview and a single test send only; turning it on is a management decision.

Q. Where should I ask for help?

A. Ask the **A.i assistant** at the bottom right of the screen first. If that does not solve it, the **KakaoTalk channel** (10:00–23:00, closed weekends and holidays) is fastest.

First-Day Checklist

- ☐ Did you reach admin.mangoi.co.kr in Chrome?
- ☐ Did you bookmark it with the star?
- ☐ Did you identify the three parts of the screen?
- ☐ Did you open a feature using the search box?
- ☐ Did you look at a student record in Evaluations?
- ☐ Did you send a test notice to yourself?
- ☐ Did you check that one student has a contact number?
- ☐ Did you download a manual from the Library?
- ☐ Did you view the home page in an incognito window?
- ☐ Did you sign out when you finished?

15 · Conclusion

You're all set!

If you have followed this far, you can already do almost everything you need on the admin page. You do not have to memorise it — just remember **the search box** and **the A.i assistant**.

Your Day at a Glance

Morning

Sign in → check today's lessons and attendance on the home screen

Late morning

Review evaluations and student questions; call parents if needed

Afternoon

Send notices; check payments and refunds

Weekly

Preview the parent weekly report; review the teacher roster

End of day

Sign out (and close the window on a shared computer)

★ Core Principles

- 1 **Stuck? Use the search box** — do not click through menus.
- 2 **Ask before you act** — especially payments, refunds and deletions.
- 3 **Preview before sending** — notifications cannot be recalled.
- 4 **Fill in contact numbers** — that is where reports and texts go.
- 5 **Sign out when done** — it is the habit that protects personal data.

Remember

- Address: **admin.mangoi.co.kr** · Browser: **Chrome**.
- Screen looks wrong? **Ctrl + F5**.
- Full automatic send is **off by default** — management decides.
- **KakaoTalk is the fastest** way to reach us (10:00–23:00).
- Student records are **personal data** — never send them outside.

It feels unfamiliar at first, but after three days it is second nature. Ask whenever you are unsure — asking is always the fastest route. Thank you for your work today! 🍊

You're all set!

Stuck? Ask the A.i assistant at the bottom right of the screen.
