Agency User Guide

From enrollment to lessons and settlement, in one book

 Agency User Guide

What is the Agency Admin Page?

The agency page is where you directly manage your agency's students, lessons, payments and settlement. From recruiting and counseling to enrollment, lesson assignment, collection, parent communication and receiving settlement — everything you need to run an agency is here. On login, only 'my agency' data shows, so you can focus on your students.

My-agency scope, automatic

Just log in and see only your students/revenue.

Recruit·enroll·manage students

From counseling to enrollment and lesson assignment.

Collection·settlement

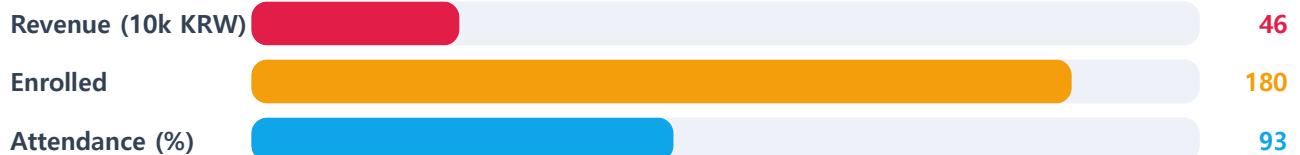

Payments/overdue and receiving branch→agency settlement.

Learning status·reports

Your students' learning at a glance.

Your Agency Metrics (example)

01

Agency Login & Permissions

Only my agency's data

Agency

Logging in with an agency account shows only 'my agency' menus and data. Other agencies or branch-wide data isn't visible, so you can focus on managing your students.

How to use

- 1 ID and passwo... > 2 role (agency) > 3 'Find passwor...

- 1 Log in with **ID and password** (social login also works).
- 2 On login, menus/data for your **role (agency)** are applied automatically.
- 3 Forgot your password? Reset via '**Find password**'.

Key Points

- ✓ Only your agency's student/revenue data shows.
- ✓ Turn on 'Save ID' only on your own trusted PC.

Tip On shared PCs, turn off auto-login and log out when done.

02

 My Page & Admin Dashboard

Open the management screen from My Page

Agency

Agency operations also start from 'My Page.' After logging in, press the  'Admin' button in the My Page menu to enter the agency-scope admin (operations) dashboard, where you manage students, revenue, lessons and settlement.

How to use

1 'My Page' > 2 'Admin' > 3 admin dashboa... > 4 My Page also... > 5 EN

- 1 After logging in, open ' My Page'.
- 2 Press the  'Admin' button in the My Page menu. (goes to the admin dashboard)
- 3 On the **admin dashboard**, check your agency revenue, enrollment and today's lessons.
- 4 My Page also has postpone/change, new inquiry, all-menu, pre-check and more.
- 5 If text looks English, use the **EN** button to switch language.

My Page menu

Admin dashboard

✓ Key Points

- ✓ One 'Admin' button takes you straight to the operations dashboard.
- ✓ All dashboard data is auto-totaled to 'your agency scope'.
- ✓ Menus and data are set automatically by your role (agency).

Good to know My Page and the admin dashboard open only within the logged-in agency account's permission scope.

 **Tip** Each day, go My Page → Admin dashboard to check your agency metrics.

03

Agency Dashboard

Your students-revenue-today's lessons

Agency

On login, your agency's enrollment, revenue and today's lessons are organized as cards. Find features fast with the search box.

How to use

1 today's reven... > 2 category card... > 3 feature searc... > 4 live (LIVE) I...

- 1 Check **today's revenue, enrollment and attendance** (your agency) at the top.
- 2 Tap features from the **category cards** (students, accounting, content, etc.).
- 3 Type a word in the **feature search box** to jump right there.
- 4 Check the **live (LIVE) lesson** status.

Key Points

- ✓ Numbers are auto-totaled to 'your agency scope'.
- ✓ If a feature is hard to find, search is fastest.

Tip A morning metrics check quickly tells you your academy's status.

04

Using the AI Assistant

Look up/act by voice or text

Agency

Speak or type into the search/mic and the AI helps you look up and handle things within your agency scope. Especially handy during busy counseling hours.

How to use

- 1 search/mic > 2 looks up > 3 confirmed wit...

- 1 Speak or type into the center **search/mic**. e.g. 'How's today's revenue?'
- 2 The AI **looks up** or **opens a screen**. e.g. 'Open student management.'
- 3 Important actions are **confirmed with 'Shall I?'** first.

✓ Key Points

- ✓ Voice is much faster than clicking.
- ✓ Only permitted actions are handled, safely.

💡 **Tip** Can't find a button? Just say 'open ○○'.

05

Recruit·Enroll·Manage Students

From counseling to enrollment

Agency

Take new counseling, enroll students, and manage enrolled students' attendance, grades and history. This is your agency's core work.

How to use

1 new counselin... > 2 Students/Pare... > 3 Check attenda... > 4 Flag and care...

- 1 Take **new counseling** and convert to enrollment.
- 2 Manage the roster/history in **Students/Parents**.
- 3 Check attendance/reviews/points/chat history by student.
- 4 Flag and care for students who need attention.

Key Points

- ✓ The student list is linked to real member data.
- ✓ Raising the counsel→enroll conversion is key to growth.

Tip Keeping thorough counseling notes greatly helps re-counseling and conversion.

06

Parent Communication

Guide My Page

Agency

Guide parents to My Page so they can check their child's learning themselves. It reduces inquiries and raises satisfaction and re-enrollment.

How to use

- 1 My Page link > 2 child's stude... > 3 monthly repor...

- 1 Share the **My Page link** with parents.
- 2 Parents check attendance/reviews/payments/reports with the **child's student ID**.
- 3 Share growth with the **monthly report** (print/PDF).

Key Points

- ✓ Parent satisfaction leads to re-enrollment.
- ✓ Advise managing the student ID like a password.

Tip Reading the review together periodically builds parent trust.

07

 Booking-Assignment

Schedule and teacher

Agency

Assign a student's lesson type, time and teacher, and manage booking status. Handle postpone/change requests too.

How to use

- 1 Booking > 2 Check empty s... > 3 postpone/chan...

- 1 Assign lesson type, teacher and time in **Booking**.
- 2 Check empty slots/overlaps and adjust.
- 3 Handle students' **postpone/change requests** per policy.

 Key Points

- ✓ Assign popular slots in advance.
- ✓ Announcing the postpone cutoff reduces no-shows.

 **Tip** Pre-registering each teacher's available times speeds up assignment.

08

 Payments-Collection

Payments-overdue-refunds

Agency

Process your agency's payments, overdue and refunds. Amounts auto-calculate by policy, and overdue is managed with alerts.

How to use

1 Accounting/Po... > 2 alert-talk/SM... > 3 refund table

- 1 Process payments/overdue/refunds in **Accounting/Points**.
- 2 Notify overdue via **alert-talk/SMS**.
- 3 Amounts are auto-calculated per the **refund table**.

1. 환불 기준표

환불 요구 시기	환불 금액(%)	예) 수강료 100,000원 지불
수업 시작 전	납부금액의 100%	100,000원 환불
총 수업시간의 1/3 이전	납부금액의 70%	70,000원 환불
총 수업시간의 1/2 이전	납부금액의 50%	50,000원 환불
총 수업시간의 1/2 이후	납부금액의 0%	환불 안 됨

* '총 수업시간'은 수강 신청한 전체 수업 횟수(또는 기간)를 기준으로 하며, 환불 기준일은 환불을 서면·온라인으로 신청한 날입니다.

2. 환불 전 꼭 확인해주세요

⚠️ 할인가로 결제한 수업의 환불 정산
 할인은 '약정한 수강 기간을 모두 이수한다'는 조건으로 제공되는 혜택입니다. 따라서 중도 환불 시 이미 진행된(수강한) 수업은 할인이 적용되지 않은 정상가(정가) 기준으로 재정산되어 환불 금액에서 차감되며, 차액을 정산하여 보내드립니다.
 예시) 정상가 200,000원 → 30% 할인받아 140,000원 결제, 전체 20회 중 5회 수강 후 환불 신청 시 • 이미 들은 5회는 정상가(1회 10,000원)로 계산 = 50,000원 차감 • 환불액 = 140,000원 - 50,000원 = 90,000원

■ 연기신청 없이 빠진 수업은 '결석' 처리
 사전에 정해진 절차에 따라 '연기(변경) 신청'이 접수되지 않은 채 진행되지 못한 수업은 결석으로 간주되어 정상 진행된 수업과 동일하게 수업료에 반영(차감)됩니다. 즉, 환불 신청 시 '이미 진행된 수업'에 포함되어 환불 대상에서 제외됩니다.
 ⚡️ 부득이하게 수업에 참여할 수 없을 때는 반드시 수업 시작 전에 [연기/변경] 메뉴에서 연기 신청을 해주세요. 연기 신청된 수업은 결석으로 처리되지 않습니다.

 Key Points

- ✓ Automate overdue alerts to raise collection.
- ✓ Discounted-payment refunds recalc at list price.

 **Tip** Reviewing collection status regularly stabilizes revenue.

09

Student Learning Reports

Progress·performance

Agency

Check your students' attendance, reviews and learning progress, and review performance with reports. Use it for parent counseling and re-enrollment persuasion.

How to use

1 attendance-re... > 2 monthly repor... > 3 parent course...

- 1 Check each student's **attendance-reviews-progress**.
- 2 Summarize performance with the **monthly report**.
- 3 Use reports in **parent counseling**.

Key Points

- ✓ Showing data builds parent trust.
- ✓ Link high-performing students to reviews/referrals.

Tip Showing performance with a report before re-enrollment makes persuasion easier.

10

Agency Settlement

Receive branch→agency

Agency

Check the settlement coming from the branch to your agency. Revenue and commissions are auto-calculated down the org tree, so you can see your share transparently.

How to use

1 branch→agency... > 2 Review the re... > 3 Save (PDF)

- 1 Check **branch→agency settlement** (received) by month.
- 2 Review the revenue/commission calculation details.
- 3 **Save (PDF)** the settlement report to keep.

Key Points

- ✓ Settlement is auto-calculated by the org tree.
- ✓ Ask the branch/HQ to confirm any off items.

Tip Viewing revenue and settlement together clarifies your agency's profit structure.

11

Prevent Churn (care for students)

Spot at-risk early

Agency

Find students likely to quit early and care for them. Quickly caring for students with frequent absences or dropping performance raises re-enrollment.

How to use

1 churn-risk > 2 counseling/al... > 3 Manage family...

- 1 Check **churn-risk** signals (absences·performance drop).
- 2 Intervene on at-risk students with **counseling/alert-talk**.
- 3 Manage family/referral relationships too.

Key Points

- ✓ Intervening early raises retention.
- ✓ Care before re-enrollment season is especially important.

Tip Caring first for frequently-absent students noticeably cuts churn.

12

New Counseling·Recruiting

Intake·conversion

Agency

Take new counseling/inquiries and convert to enrollment. Recruiting is the starting point of agency growth.

How to use

1 new counselin... > 2 convert to en... > 3 Drive enrollm...

- 1 Take **new counseling/inquiries**.
- 2 Record the counseling and **convert to enrollment**.
- 3 Drive enrollment with trial lessons-level tests.

✓ Key Points

✓ Fast response raises conversion.

✓ Make the trial→enroll flow smooth.

💡 Tip Following up after counseling raises conversion.

13

Support·Help

Get branch-HQ support

Agency

If a problem comes up in operations, contact branch/HQ support. System/settlement/policy questions get resolved quickly.

How to use

- 1 Support > 2 branch/HQ > 3 Note the fix

- 1 Use phone, email, Kakao and remote support in **Support**.
- 2 Route settlement/policy questions to the **branch/HQ**.
- 3 **Note the fix** for repeat issues.

Key Points

- ✓ System issues resolve fast with remote support.
- ✓ For 'can't enter' tickets, check browser/permission first.

Tip Compiling common inquiries and fixes speeds up counseling.

14

Korea-Philippines Dual Clock

Two countries' time on screen

Agency

A clock on screen shows KR Korea and PH Philippines time together. It lets you check the time difference instantly when coordinating lessons between Philippine teachers and Korean students.

How to use

- 1 dual clock > 2 Drag > 3 Tap (click)

- 1 On the on-screen **dual clock**, see KR Korea and PH Philippines time at once.
- 2 **Drag** the clock to move it anywhere you like.
- 3 **Tap (click)** the clock to go to the home screen.

✓ Key Points

- ✓ The Philippines is **1 hour behind** Korea (-1 hour).
- ✓ You can check booking/entry times in both countries' time.

💡 **Tip** When a lesson time is confusing due to the time difference, this clock clears it up instantly.

15

CN Chinese Pronunciation Coach

Darakwon Chinese Master Lv1-20

Agency

Mangoi offers not only English but also a **Chinese course**. With a Darakwon Chinese Master (Lv 1-20) pronunciation coach (characters+pinyin, AI voice recognition, native comparison), you can attract and manage students who want Chinese.

How to use

1 CN Chinese > 2 Master series... > 3 characters +... > 4 repeat and sl...

- 1 In the AI voice coach, pick the **CN Chinese** level (or go to the Chinese pronunciation coach).
- 2 Choose a **Master series (1-6, HSK 1-6)** and a unit.
- 3 Read the sentence (**characters + pinyin**) and compare with 'Play native audio'.
- 4 Practice hard sounds/tones with **repeat and slow (0.85x)**.

Key Points

- ✓ Characters and pinyin appear together, so it's easy to read.
- ✓ The AI recognizes your voice and compares it to a native speaker.
- ✓ The learning games hub supports Chinese too.

Tip Listen slowly and repeat clearly to nail the four tones.

16

★ In-class Praise Points (understand & use)

Linked to motivation-re-enrollment

Agency

During class the teacher gives ★ praise points (+1P) to students on the spot, and an end-of-class rating (+10P) adds up into the student's total points. Points lead to shop/gift rewards, helping motivation and re-enrollment. Your agency understands and uses this flow for performance.

How to use

1 teacher > 2 It accrues li... > 3 post-class st... > 4 shop/roulette...

- 1 The **teacher** gives +1P via the ★ praise button on a student's video during class.
- 2 It accrues live in the student's 🛒 point basket and sums into their total.
- 3 A **post-class star rating** gives the student an extra +10P.
- 4 Points connect to **shop/roulette/gift** rewards.

✓ Key Points

- ✓ Instant rewards boost participation and re-enrollment.

- ✓ Use your agency students' points/reward response as a performance signal.

Good to know Teachers give praise points; HQ (admin) configures the shop/reward/gift policy.

Tip Classes (teachers) where praise points flow well tend to have higher re-enrollment.

17

Notice Studio (Poster + Popup)

Design notice/event posters and push them as app popups

Agency

This **merges the old 'Poster Maker' and 'Popup Notice' tools into one place.** In the ①**Create** tab you design a notice/event poster, then hand it straight to the ②**Publish-Popup** tab to show it as a **popup** in your agency's student app.

How to use

- 1 Notification... > 2 ①Create > 3 '📢 Publish as... > 4 display perio...

- 1 Go to the admin menu **Notification Center** →  **Notice Studio**.
- 2 In the ①**Create** tab, design a poster with text, images, and video (resize · save on server · reuse).
- 3 Press ' **Publish as popup**' on the finished poster to auto-switch to the ②**Publish-Popup** tab.
- 4 In the publish tab, set the **display period / stop** and publish it as a student-app popup.

Key Points

- ✓ Poster creation and popup publishing flow through **one screen, two tabs** — no more confusion.
- ✓ Posters you make can be **saved and reused**.
- ✓ Whichever route you enter from — AI assistant or sidebar search — the **correct tab opens**.

Good to know Existing posters/popups are preserved (it was only merged, nothing was deleted).

 Tip Promoting an event takes just one flow: 'Create → Publish as popup' right away.

18

**Command the AI Operations Assistant**

Agency

Navigate with one phrase: "Take me to ○○"

Type what you want to do into the **top search bar (or the bottom-right AI assistant)** in plain language, and the AI understands and **jumps straight to that screen**. It now reliably follows navigation commands like 'Take me to teacher ○○'s schedule' or 'Open auto-scheduling'.

How to use

1 search bar > 2 "Take me to t..." > 3 "Open auto-sc..." > 4 'Go now →'

- 1 Type a command in the top **search bar** or speak with the mic.
- 2 e.g. "Take me to teacher Kim Minji's schedule" → auto-finds that teacher in the weekly schedule and opens it.
- 3 e.g. "Open auto-scheduling," "Go to settlement" to navigate menus.
- 4 Press 'Go now →' on the AI response card to move to that screen.

**Key Points**

- ✓ Navigation commands **actually navigate** — far fewer 'explain only, do nothing' replies.
- ✓ Searching a schedule by teacher name **auto-fills the search box + filters + scrolls**.
- ✓ For data/statistics questions it also helps with **card-style answers**.

Good to know Commands that actually change things — 'register · send · modify' — ask for one more confirmation (a safety guard).

Tip When you can't recall a menu name, just say what you want to do — it finds its way there.

19

Share Library Links via KakaoTalk

Send videos & docs in original quality

Agency

Every guide and video in the library now has a 'Copy KakaoTalk link' button. Attaching a file to KakaoTalk crushes the quality, but sending a link plays the original as-is. One tap copies the link — guiding parents and teachers gets much easier.

How to use

1 Library > 2 Paste > 3 original qual...

- 1 In the admin **Library**, press **Copy KakaoTalk link** next to the file.
- 2 **Paste** it into the KakaoTalk chat room.
- 3 Recipients tap the link to watch or download in **original quality**.

Key Points

- ✓ For videos, **link sharing = original quality**; file attachments degrade it.

- ✓ Works the same for PDFs, PPTs, and videos anywhere in the library.

Good to know Anyone with the link can open it. For internal-only material, check who you share with.

Tip In a parents' group chat, one video-guide link does all the explaining.

20

A refreshed admin screen

Collapsible sidebar · lighter background · line icons

Agency

The admin screen is now **easier on the eyes and wider**. The left menu collapses to a **narrow icon rail** via the < **Collapse** button, and the background is now a **consistent light tone**. Menu icons were redrawn as **line icons** so labels read clearly.

How to use

1 < Collapse > 2 > 3 remembered fo... 4 menu search

- 1 Press < **Collapse** at the top of the left menu — it shrinks to an icon rail and **the content gets wider**.
- 2 Press the > button in the same place to expand it again.
- 3 The collapsed state is **remembered for your next visit**.
- 4 Too many menus to find one? Type its name into **menu search** at the top.

Key Points

- ✓ Screens full of tables and lists gain **a lot of horizontal space**.
- ✓ 15 sub-pages were moved onto the **same light theme**, so the colour jump between screens is gone.
- ✓ The collapse animation was **removed** so low-spec PCs don't stutter.

Tip Wide-table screens like settlement and payroll are far easier to read with the menu collapsed.

21

The interface language sets itself

Overseas staff and teachers start in English

Agency

Filipino teachers and overseas staff now **start in English from the first screen**. The interface language is decided from the account's **nationality**, and teacher accounts are **always English** regardless of name or previous choice. You can still switch any time with the  **EN / KR** button at the top.

How to use

- 1 nationality > 2  EN / KR > 3 per account > 4 switch to the...

- 1 If the account has a **nationality** on file, the right language appears automatically at login.
- 2 To change it manually, press the  **EN / KR** button at the top.
- 3 A manual choice is stored **per account** — several people can share one PC without interference.
- 4 Teacher guide slides and manuals **switch to the English editions** with it.

Key Points

- ✓ **Teacher accounts are always English** — no more getting lost in a Korean screen.
- ✓ Accounts with an English name no longer flip to Korean because of a Korean job title.
- ✓ Language choice is **isolated per account**, so an overseas account isn't overwritten by someone else's pick.

Good to know Accounts with no nationality fall back to the old name/ID heuristic. Please fill in nationality when registering teachers.

Tip Enter nationality when registering a new teacher and their very first login is in English — fewer support requests.

22

Enrolment & payment → automatic lesson creation

Agency

Once payment is confirmed, every session is scheduled

On the **Enrolment screen** a student picks teacher, days and time and pays — and **all lesson sessions are created automatically the moment payment is confirmed**. The old manual timetable entry after payment is gone. If the slot **clashes with an existing lesson, the conflict is detected before payment**.

How to use

- 1 enrolment lin... >
- 2 teacher → les... >
- 3 slot check mu... >
- 4 all sessions... >
- 5 pricing scree...

- 1 Send students and parents the **enrolment link**.
- 2 They choose **teacher → lesson options (weekly count, term, length) → days & time**.
- 3 The **slot check must pass** before the pay button unlocks (payment is blocked on a clash).
- 4 On confirmed payment, **all sessions are created at once** — verify in the admin lesson list.
- 5 Head-office prices and discount rates are managed on the **pricing screen**.

Key Points

- ✓ **Idempotent** — a duplicated payment callback will not create the sessions twice.
- ✓ Clashes with holidays or existing lessons are **pushed back** so the session count is still met.
- ✓ Term discounts (6 months -5%, 12 months -10%) are applied to the amount automatically.

Good to know Stage 1 (enrol → pay → auto-create sessions) is live today. Later stages will follow.

 **Tip** Consultation → level test → send the enrolment link is the smoothest conversion path.

23

Teacher Management, redesigned (roster filters · groups · detail tabs)

Agency

Easy-to-search roster · detail at a glance

The teacher-management screen is now **easier to search and read**. Scattered menus are **grouped into four bundles** in the sidebar, and above the roster there are **status/group dropdown filters** with **applied-filter chips**. Tapping a teacher opens a detail view split into **Profile / Payroll / Evaluation tabs**, with a **manager badge** and **employment status (active / on-leave / left)** shown at a glance.

How to use

1 Teachers > 2 status/group... > 3 chips > 4 Profile / Pay... > 5 summary numbe...

- 1 Open **Teachers** in the admin menu (menus are tidied into four bundles).
- 2 Filter to just the teachers you want with the **status/group dropdowns** above the roster.
- 3 Applied filters show as **chips**; remove a chip to clear it.
- 4 Tap a teacher to open the **Profile / Payroll / Evaluation** detail tabs.
- 5 The **summary numbers on the payroll/evaluation tabs** load only as needed when opened.

Key Points

✓ **Managers** are marked with a badge, and status shows as **active / on-leave / left (3 states)**.

✓ A blank name **falls back to the ID**, so there are no empty cells.

✓ Detail tabs **reuse existing APIs** for speed, and the screen is bilingual (KO/EN).

✓ The duplicate payroll entry was tidied and **bug reports moved to a separate system**.

Good to know This is a filtering/detail cleanup. Registering, editing and deleting teachers works exactly as before.

Tip The more teachers you have, the more the status/group filters help. Keep your usual conditions filtered.

24

★ Sending the Parent Monthly Report (pentagon)

Agency

Preview the 5-axis report, then share the link

The **monthly report** sent to parents is renewed as a **pentagon 5-axis graph** — **Pronunciation & Fluency / Vocabulary / Sentence Building / Class Attitude / Participation** — at a glance, with attendance, judgment and a teacher's note. Admins and teachers enter a student ID and month to **preview**, then send the **KakaoTalk link**.

How to use

1 Monthly Repor... > 2 student ID > 3 Check the pen... > 4 ?uid=ID&perio...

- 1 Open the **Monthly Report** screen.
- 2 Enter a **student ID** and **month**, press **View Report** to preview.
- 3 Check the pentagon and teacher's note; top up evaluations if needed.
- 4 Append **?uid=ID&period=YYYY-MM** to the URL and send the **KakaoTalk link**.

✓ Key Points

✓ Only axes with **real records** are filled, so it's trustworthy.

✓ Compiled on a **two-month cycle** — conveys change without tiring parents.

✓ The Print/PDF button makes a paper report for consultations instantly.

Good to know Report access passes an **approval gate** — admins via their login session, parents only via the issued link (token).

💡 **Tip** Sending the report link ahead of a booked consultation makes the meeting much smoother.

25

**Parent Weekly Report (the re-enrolment lever)**

Agency

Deliver the proof of growth competitors cannot show

A report sent to parents containing the child's **week of activity** (attendance, AI friend chats, judgment training, words conquered, pronunciation). The purpose is explicit — **deliver the proof of growth competitors cannot show, every week, and convert it into re-enrolment**. The admin screen covers **preview** → **test send** → **recipient count** → **send log**.

How to use

- 1 Open **Parent Weekly Report** in the admin menu.
- 2 Enter a student ID and press **Preview** to check the content.
- 3 If needed, use **Send to this parent** to test with a single recipient.
- 4 Use **Count recipients** to see how many students can receive it (those with a registered phone number).
- 5 Check **Recent send log** for what actually went out.

**Key Points**

- ✓ What the report contains: **attendance days** · **streak** · **AI chats** · **words conquered** · **judgment** · **pronunciation**.

- ✓ **Only students with a registered phone number** can receive it — the count screen also reports how many are missing one.

- ✓ A **Friday-evening automatic send (cron)** is prepared and ready.

Good to know ● **The full automatic send is OFF by default.** Real messages only go out after an admin turns on the KV switch — a safeguard against accidentally messaging 29,000 people. Turn it on only after the alert-talk template is approved and management has decided.

Tip Start with **preview** → a **single test send** only. Once the wording is settled, then turn on the full switch.

26

Home Screen Split (first-time parent vs. existing member)

Agency

Fewer 'how do I start?' calls, more trial sign-ups

The first screen of the site (the hero) now shows **one of two versions depending on who is looking**. A **first-time parent** sees **Book a Free Trial** as the biggest button; a **logged-in member** sees **Enter Class**. We checked four competitors directly (Cambly Kids, Min Byung-chul UPhone, Engoo, Ringle) and **all four lead with a new-customer call to action** — this change follows that evidence.

How to use

- 1 home URL in a... > 2 Book a Free T... > 3 Enter Class · ... > 4 plain home UR...

- 1 Open the **home URL in a private/incognito window** to see the **guest screen**.
- 2 Confirm the two large buttons: **Book a Free Trial** · **Browse Teachers**.
- 3 Log in and open the same page — it becomes **Enter Class** · **Chat with AI**.
- 4 Use the **plain home URL** in flyers and text messages — no separate landing page is needed.

Key Points

- ✓ **No new page was created.** The same URL decides for itself based on login state.
- ✓ The guest screen still keeps a **small 'Enter Class' link** — this prevents an existing student who changed devices or was logged out from being locked out of class.
- ✓ If the check fails for any reason, it **always falls back to the guest screen** — the page is never blank.
- ✓ **No flicker.** The decision is made before the page paints.

Good to know Never remove the small 'Enter Class' link on the guest screen. Existing members also land there when their login expires (30 days) or they switch devices.

Tip To see what a parent sees, open the home page in an incognito window — that is the exact first impression.

27

⚡ The Admin Screen Is Much Faster Now

The freeze after clicking is gone

Agency

We removed the **brief freeze that happened whenever you clicked something** in the admin screen. The cause was not the feature you clicked — a readability-enhancement routine was **recalculating every collapsed card each time**. It now skips collapsed cards and never re-touches what it has already processed.

How to use

- 1 Use the admin...
- 2 open immediat...
- 3 hard refresh...

- 1 Use the admin screen as usual.
- 2 Check that menus and cards **open immediately, with no freeze**.
- 3 If it still feels slow, do a **hard refresh (Ctrl+F5)** in the browser.

✓ Key Points

- ✓ Freeze on click dropped **396ms → 57ms**; idle load dropped **366ms → 0ms**.

- ✓ **Nothing about the look or colours changed** — only the speed.

- ✓ The difference is largest on card-heavy screens (teacher and student lists).

Good to know If your browser still holds an old copy of the page you may not feel the improvement. Do one **hard refresh (Ctrl+F5)**.

Tip If it is still slow, check whether too many browser tabs are open.

28

Academy Search Box (find it by name)

No more scrolling the whole list

Agency

The academy (branch/agency) list now has a **search box** so you can find one by typing its name.
No more scrolling up and down a long list.

How to use

- 1 academy list > 2 search box > 3 matching acad... > 4 full list

- 1 Open the **academy list** screen in the admin menu.
- 2 Type part of an academy name into the **search box** above the list.
- 3 The list filters to **matching academies as you type**.
- 4 Clear the box to return to the **full list**.

Key Points

- ✓ A **partial name is enough** to find it.
- ✓ The existing list and its features are unchanged — **only the way you find things was added**.

Tip For academies you check often, remember two or three letters of the name — that is enough to filter instantly.

29

New-Payment Screen, Now Step-by-Step

It no longer shows 12 products at once

Agency

The new-payment screen now starts with 'who is this for?'. Previously all **12 products** appeared at once and parents had no idea where to start. Now they pick from **Kids · 1:1 · Group · Business · Test Prep · Corporate** and only the matching products remain.

How to use

1 New Payment > 2 audience > 3 Only the prod... > 4 See Full Pric...

- 1 Point the parent to the **New Payment** screen.
- 2 Have them pick the **audience** first (Kids, 1:1, Group, Business, Test Prep, Corporate).
- 3 Only the products for that audience stay on screen.
- 4 If they want to compare everything, press **See Full Price List**.

Key Points

- ✓ **No product card or payment logic was changed** — only what is displayed, so it is safe.
- ✓ **See Full Price List was deliberately kept** — hiding prices backfires.
- ✓ Verified counts: 3 initially (free trial, other, policy) → 4 when Kids is selected → 12 in full view.

Tip When a caller says 'I don't know which one to pick', just have them choose the audience first.

30

Sample Report Card for Parents Without an Account

Agency

Something to show in front of the login wall

Until now there was **nothing to show a prospective parent** who had no account. The report-card screen now offers '**No account — view a sample report first**', so you can show what the **5-axis scores + teacher comment + AI analysis** look like without logging in.

How to use

1 report-card s... > 2 No account —... > 3 Walk through... > 4 Close with 't...'

- 1 During a consultation, open the **report-card screen** for the parent.
- 2 Press **No account — view a sample report first**.
- 3 Walk through the 5-axis scores, teacher comment and AI analysis together.
- 4 Close with 'this is what you'll receive for your child' and offer the trial.

Key Points

✓ ⚠ **All values are examples.** The title and top banner are marked 'Sample'.

✓ **Never remove that marking** — if it is mistaken for a real record it becomes a trust problem.

Good to know The sample uses no real student data. Use it for consultations only.

💡 **Tip** Showing the sample report in the first three minutes of a consultation makes 'what do I actually get?' concrete and lifts trial conversion.

31

Unified Support Hours & Channel Order (KakaoTalk first)

One value across every screen

Agency

Support hours previously appeared as **09-22 / 10-20 / 7 p.m.** on different screens. They are now unified to **10:00–23:00 (closed weekends and public holidays)**. The **KakaoTalk channel was also moved to first place**, and the phone card now notes that KakaoTalk is faster.

How to use

1 **Contact** > 2 **point them to...** > 3 **10:00–23:00 (...)**

- 1 On the **Contact** screen, confirm the card order is **KakaoTalk → phone**.
- 2 When advising parents, **point them to the KakaoTalk channel first**.
- 3 Quote support hours as **10:00–23:00 (closed weekends and holidays)**.

Key Points

- ✓ Places corrected: contact screen, home menu, FAQ (both languages), AI consultant fact block, student FAQ — **all the same value now**.

- ✓ The unused **fax number and placeholder phone numbers were deleted**.

- ✓ The AI consultant quotes the same hours and the same channel order.

Good to know If real operating hours change, **all of these must be updated together**. Changing only one brings the inconsistency straight back.

Tip If you need the Philippines call-centre numbers listed, provide the real ones — the previous placeholders were removed.

32 Agency Features at a Glance

Feature	What it does	When	Core benefit
Dashboard	Revenue-enrollment-today	Every morning	Quick read
Student mgmt	Recruit-enroll-history	Always	Grow enrollment
Parent comm	Guide My Page	Enroll-re-enroll	Satisfaction ↑
Booking	Schedule-teacher	Assigning lessons	Smooth flow
Payments	Payments-overdue-refunds	Collection	Stable revenue
Reports	Learning performance	Counsel-re-enroll	Persuasion ↑
Settlement	Receive branch→agency	Monthly	Transparent profit
Retention	Care for at-risk	Always	Retention ↑

33 ? Frequently Asked Questions (FAQ)**Q. Where do I log in?**

A. Log in at admin.mangoi.co.kr. By role (agency), only your agency's data shows automatically.

Q. Can I see other agencies' data?

A. No. By permission scope, only your agency's data is visible.

Q. How do I grow enrollment?

A. Fast counseling response, a smooth trial→enroll flow, and persuading parents with learning reports are key.

Q. How do I check settlement?

A. Branch→agency settlement (received) is auto-calculated by the org tree; check it in the monthly report.

Q. A student seems about to quit.

A. Watch churn-risk signals (absences-performance drop) and intervene quickly with counseling/alert-talk.

✓ Agency Operations Checklist

☐ Did you check today's revenue/enrollment/attendance?

☐ Did you take and respond to new counseling/inquiries?

☐ Did you check and notify overdue items?

☐ Did you care for at-risk students?

☐ Did you guide parents to the report/My Page?

☐ Did you check this month's settlement (received)?

☐ Did you follow up on trial→enroll?

34 · 🚩 Conclusion

Conclusion · A Practical Guide to Agency Growth

The core of agency operations is the virtuous cycle of 'recruit → enroll → satisfy → re-enroll.' Respond to counseling fast, show learning results with data, and prevent churn early — and your agency grows steadily. Keep this rhythm and operations feel solid.

🔄 The Flow at a Glance

Morning (5 min)

Check revenue/enrollment/attendance on the dashboard; check live-lesson status

Late morning

Respond to new counseling-convert; notify overdue

Class hours

Check lesson assignment/progress; guide 'entry' tickets to browser/permission first

Afternoon

Care for at-risk students; parent reports-counseling

Monthly

Check branch→agency settlement; re-enroll-follow-up

★ Key Principles

- 1 **Respond fast** — the faster you handle counseling/inquiries, the higher conversion.
- 2 **Persuade with data** — showing results via learning reports makes re-enrollment easy.
- 3 **Intervene on churn early** — care first for frequently-absent students.
- 4 **Communicate with parents** — build trust with My Page and reports.
- 5 **Follow up** — following up after counseling completes enrollment.

📌 Remember

- Log in at **admin.mangoi.co.kr**; data is auto-limited to **your agency scope**
- Settlement is auto-calculated by the **branch→agency** tree
- Most 'can't enter class' tickets are **browser/permission** issues
- Growth rhythm: '**Recruit → Enroll → Satisfy → Re-enroll**'!

An agency's strength comes from 'the care you give each student.' Respond quickly, show results, and prevent churn early. Your branch and HQ back you up solidly. Questions? Contact support anytime — cheering on your thriving agency! 🍊
