Mangoi · MANGOI

Agency User Guide

From enrollment to lessons and settlement, in one book

 Agency User Guide

What is the Agency Admin Page?

The agency page is where you directly manage your agency's students, lessons, payments and settlement. From recruiting and counseling to enrollment, lesson assignment, collection, parent communication and receiving settlement — everything you need to run an agency is here. On login, only 'my agency' data shows, so you can focus on your students.

My-agency scope, automatic

Just log in and see only your students/revenue.

Recruit·enroll·manage students

From counseling to enrollment and lesson assignment.

Collection·settlement

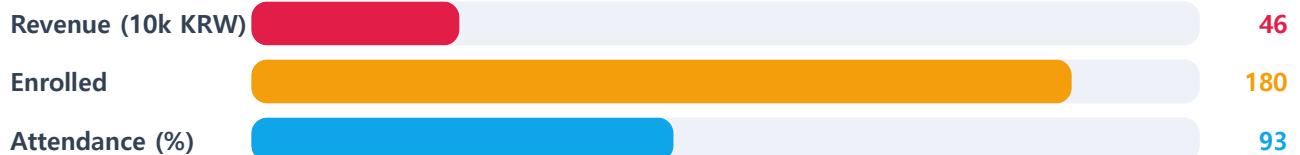

Payments/overdue and receiving branch→agency settlement.

Learning status-reports

Your students' learning at a glance.

Your Agency Metrics (example)

01

Agency Login & Permissions

Only my agency's data

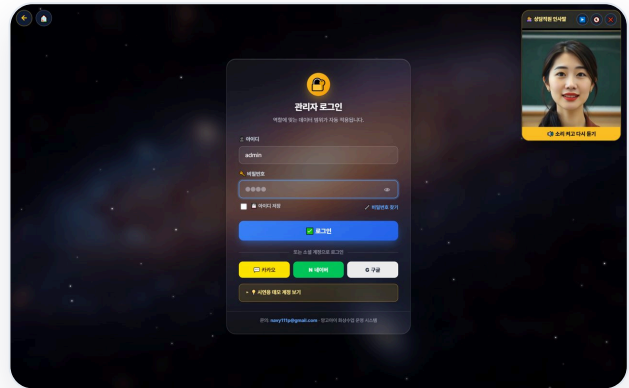

Logging in with an agency account shows only 'my agency' menus and data. Other agencies or branch-wide data isn't visible, so you can focus on managing your students.

- 1 Log in with **ID and password** (social login also works).
- 2 On login, menus/data for your **role (agency)** are applied automatically.
- 3 Forgot your password? Reset via '**Find password**'.

✓ Key Points

- Only your agency's student/revenue data shows.
- Turn on 'Save ID' only on your own trusted PC.

💡 **Tip** On shared PCs, turn off auto-login and log out when done.

02

 My Page & Admin Dashboard

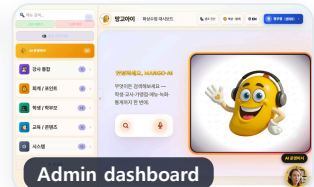

Open the management screen from My Page

Agency operations also start from 'My Page.' After logging in, press the  'Admin' button in the My Page menu to enter the agency-scope admin (operations) dashboard, where you manage students, revenue, lessons and settlement.

- 1 After logging in, open ' **My Page**'.
- 2 Press the  '**Admin**' button in the My Page menu. (goes to the admin dashboard)
- 3 On the **admin dashboard**, check your agency revenue, enrollment and today's lessons.
- 4 My Page also has postpone/change, new inquiry, all-menu, pre-check and more.
- 5 If text looks English, use the **EN** button to switch language.

My Page menu

Admin dashboard

 Key Points

- One 'Admin' button takes you straight to the operations dashboard.
- All dashboard data is auto-totaled to 'your agency scope'.
- Menus and data are set automatically by your role (agency).

 **Good to know** My Page and the admin dashboard open only within the logged-in agency account's permission scope.

 **Tip** Each day, go My Page → Admin dashboard to check your agency metrics.

03

Agency Dashboard

Your students·revenue·today's lessons

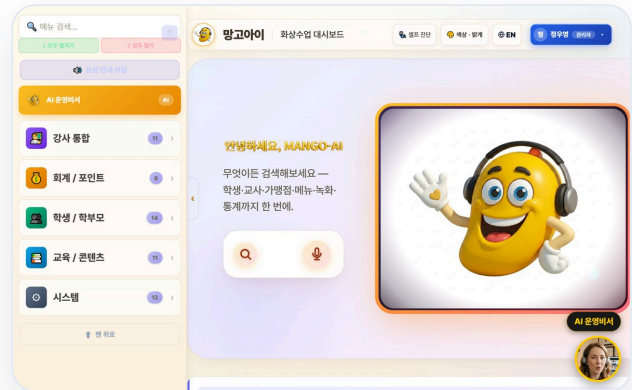

On login, your agency's enrollment, revenue and today's lessons are organized as cards. Find features fast with the search box.

- 1 Check **today's revenue, enrollment and attendance** (your agency) at the top.
- 2 Tap features from the **category cards** (students, accounting, content, etc.).
- 3 Type a word in the **feature search box** to jump right there.
- 4 Check the **live (LIVE) lesson** status.

✓ Key Points

- Numbers are auto-totaled to 'your agency scope'.
- If a feature is hard to find, search is fastest.

💡 **Tip** A morning metrics check quickly tells you your academy's status.

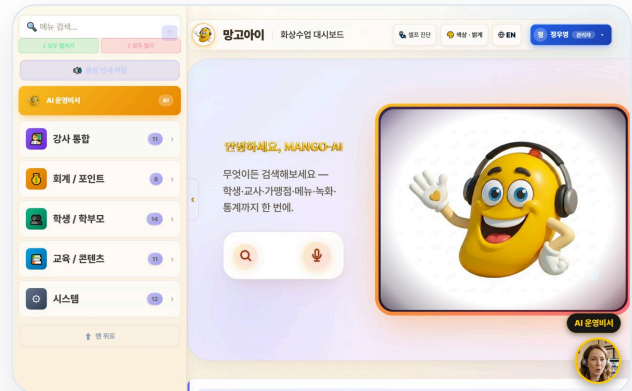

Speak or type into the search/mic and the AI helps you look up and handle things within your agency scope. Especially handy during busy counseling hours.

- 1 Speak or type into the center **search/mic**. e.g. 'How's today's revenue?'
- 2 The AI **looks up** or **opens a screen**. e.g. 'Open student management.'
- 3 Important actions are **confirmed with 'Shall I?'** first.

✓ Key Points

- Voice is much faster than clicking.
- Only permitted actions are handled, safely.

💡 **Tip** Can't find a button? Just say 'open ○○'.

05

Recruit·Enroll·Manage Students

From counseling to enrollment

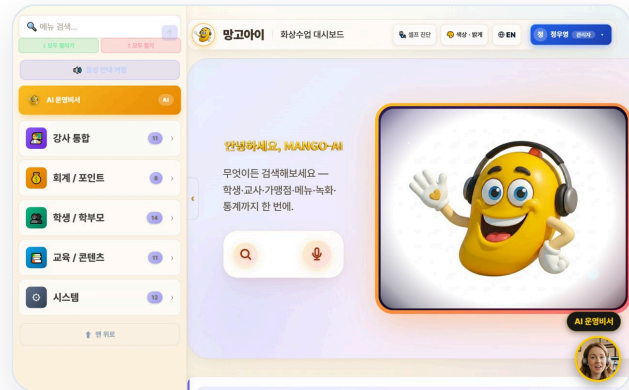

Take new counseling, enroll students, and manage enrolled students' attendance, grades and history. This is your agency's core work.

- 1 Take **new counseling** and convert to enrollment.
- 2 Manage the roster/history in **Students/Parents**.
- 3 Check attendance/reviews/points/chat history by student.
- 4 Flag and care for students who need attention.

✓ Key Points

- The student list is linked to real member data.
- Raising the counsel→enroll conversion is key to growth.

💡 **Tip** Keeping thorough counseling notes greatly helps re-counseling and conversion.

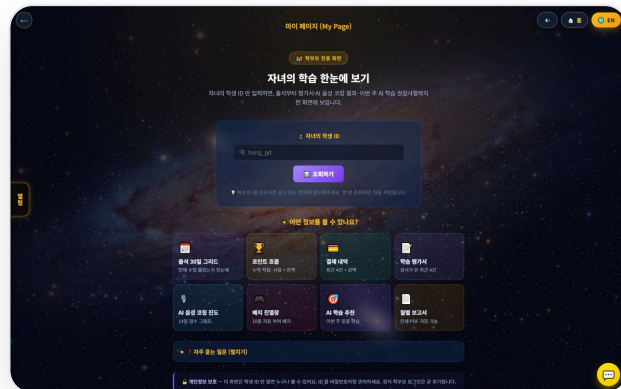

Guide parents to My Page so they can check their child's learning themselves. It reduces inquiries and raises satisfaction and re-enrollment.

- 1 Share the **My Page** link with parents.
- 2 Parents check attendance/reviews/payments/reports with the **child's student ID**.
- 3 Share growth with the **monthly report** (print/PDF).

✓ Key Points

- Parent satisfaction leads to re-enrollment.
- Advise managing the student ID like a password.

💡 **Tip** Reading the review together periodically builds parent trust.

07

Booking-Assignment

Schedule and teacher

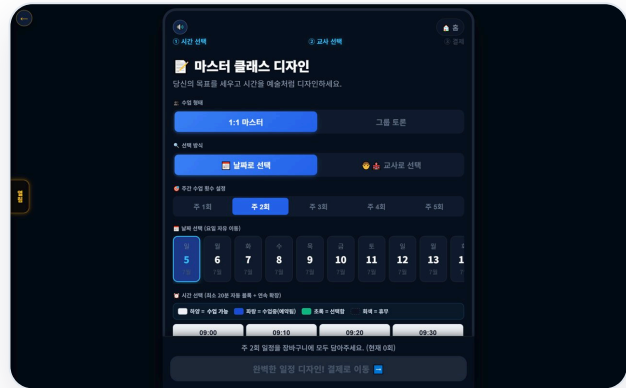

Assign a student's lesson type, time and teacher, and manage booking status. Handle postpone/change requests too.

- 1 Assign lesson type, teacher and time in **Booking**.
- 2 Check empty slots/overlaps and adjust.
- 3 Handle students' **postpone/change requests** per policy.

Key Points

- Assign popular slots in advance.
- Announcing the postpone cutoff reduces no-shows.

Tip Pre-registering each teacher's available times speeds up assignment.

08

Payments-Collection

Payments-overdue-refunds

Process your agency's payments, overdue and refunds. Amounts auto-calculate by policy, and overdue is managed with alerts.

- 1 Process payments/overdue/refunds in **Accounting/Points**.
- 2 Notify overdue via **alert-talk/SMS**.
- 3 Amounts are auto-calculated per the **refund table**.

Key Points

- Automate overdue alerts to raise collection.
- Discounted-payment refunds recalc at list price.

Tip Reviewing collection status regularly stabilizes revenue.

09

Student Learning-Reports

Progress-performance

Check your students' attendance, reviews and learning progress, and review performance with reports. Use it for parent counseling and re-enrollment persuasion.

- 1 Check each student's **attendance-reviews-progress**.
- 2 Summarize performance with the **monthly report**.
- 3 Use reports in **parent counseling**.

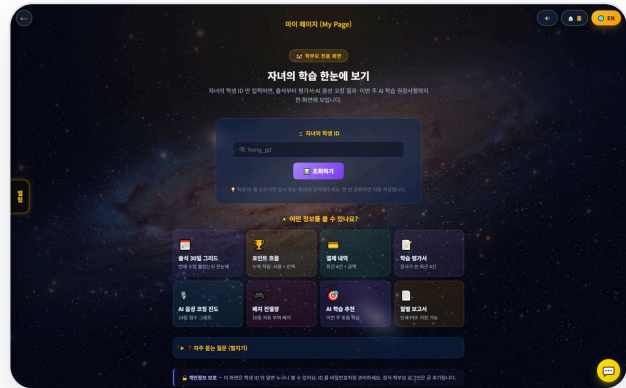

Key Points

- Showing data builds parent trust.
- Link high-performing students to reviews/referrals.

Tip Showing performance with a report before re-enrollment makes persuasion easier.

10

Agency Settlement

Receive branch→agency

Check the settlement coming from the branch to your agency. Revenue and commissions are auto-calculated down the org tree, so you can see your share transparently.

- 1 Check **branch→agency settlement** (received) by month.
- 2 Review the revenue/commission calculation details.
- 3 **Save (PDF)** the settlement report to keep.

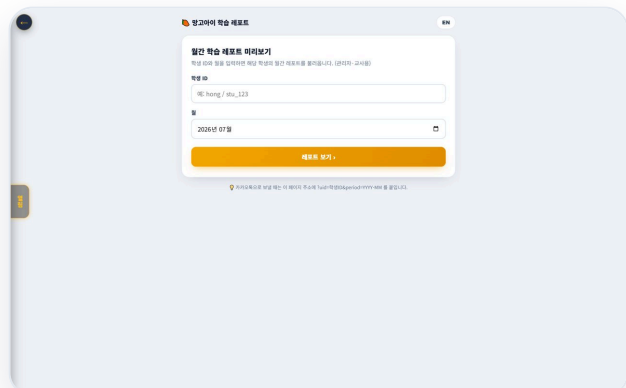

Key Points

- Settlement is auto-calculated by the org tree.
- Ask the branch/HQ to confirm any off items.

Tip Viewing revenue and settlement together clarifies your agency's profit structure.

11

Prevent Churn (care for students)

Spot at-risk early

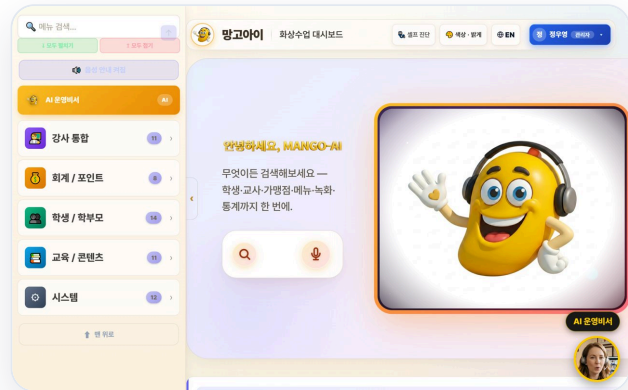

Find students likely to quit early and care for them. Quickly caring for students with frequent absences or dropping performance raises re-enrollment.

- 1 Check **churn-risk** signals (absences-performance drop).
- 2 Intervene on at-risk students with **counseling/alert-talk**.
- 3 Manage family/referral relationships too.

Key Points

- Intervening early raises retention.
- Care before re-enrollment season is especially important.

Tip Caring first for frequently-absent students noticeably cuts churn.

12

New Counseling-Recruiting

Intake-conversion

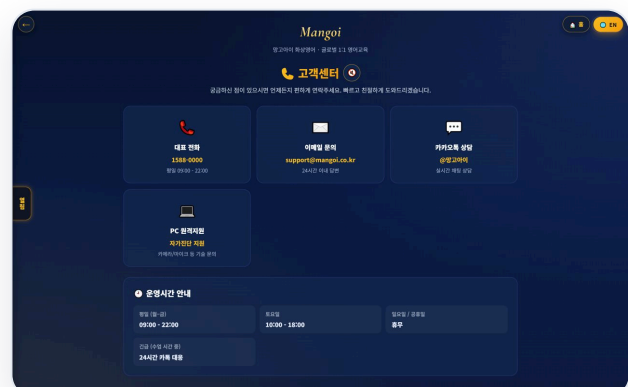

Take new counseling/inquiries and convert to enrollment. Recruiting is the starting point of agency growth.

- 1 Take **new counseling/inquiries**.
- 2 Record the counseling and **convert to enrollment**.
- 3 Drive enrollment with trial lessons-level tests.

Key Points

- Fast response raises conversion.
- Make the trial→enroll flow smooth.

Tip Following up after counseling raises conversion.

13

Support-Help

Get branch-HQ support

If a problem comes up in operations, contact branch/HQ support. System/settlement/policy questions get resolved quickly.

- 1 Use phone, email, Kakao and remote support in **Support**.
- 2 Route settlement/policy questions to the **branch/HQ**.
- 3 **Note the fix** for repeat issues.

Key Points

- System issues resolve fast with remote support.
- For 'can't enter' tickets, check browser/permission first.

Tip Compiling common inquiries and fixes speeds up counseling.

14

Korea-Philippines Dual Clock

Two countries' time on screen

A clock on screen shows KR Korea and PH Philippines time together. It lets you check the time difference instantly when coordinating lessons between Philippine teachers and Korean students.

- 1 On the on-screen **dual clock**, see KR Korea and PH Philippines time at once.
- 2 **Drag** the clock to move it anywhere you like.
- 3 **Tap (click)** the clock to go to the home screen.

Key Points

- The Philippines is **1 hour behind** Korea (-1 hour).
- You can check booking/entry times in both countries' time.

Tip When a lesson time is confusing due to the time difference, this clock clears it up instantly.

15

cn Chinese Pronunciation Coach

Darakwon Chinese Master Lv1–20

Mangoi offers not only English but also a **Chinese course**. With a Darakwon Chinese Master (Lv 1–20) pronunciation coach (characters+pinyin, AI voice recognition, native comparison), you can attract and manage students who want Chinese.

- 1 In the AI voice coach, pick the **CN Chinese** level (or go to the Chinese pronunciation coach).
- 2 Choose a **Master series (1–6, HSK 1–6)** and a unit.
- 3 Read the sentence (**characters + pinyin**) and compare with 'Play native audio'.
- 4 Practice hard sounds/tones with **repeat and slow (0.85x)**.

Key Points

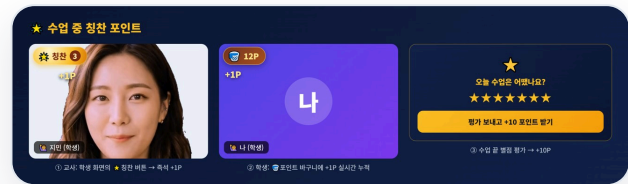

- Characters and pinyin appear together, so it's easy to read.
- The AI recognizes your voice and compares it to a native speaker.
- The learning games hub supports Chinese too.

Tip Listen slowly and repeat clearly to nail the four tones.

During class the teacher gives 🌟 praise points (+1P) to students on the spot, and an end-of-class rating (+10P) adds up into the student's total points. Points lead to shop/gift rewards, helping motivation and re-enrollment. Your agency understands and uses this flow for performance.

- 1 The **teacher** gives **+1P** via the 🌟 praise button on a student's video during class.
- 2 It accrues live in the student's 🛒 point basket and sums into their total.
- 3 A **post-class star rating** gives the student an extra **+10P**.
- 4 Points connect to **shop/roulette/gift** rewards.

✅ Key Points

- Instant rewards boost participation and re-enrollment.
- Use your agency students' points/reward response as a performance signal.

⚠️ **Good to know** Teachers give praise points; HQ (admin) configures the shop/reward/gift policy.

💡 **Tip** Classes (teachers) where praise points flow well tend to have higher re-enrollment.

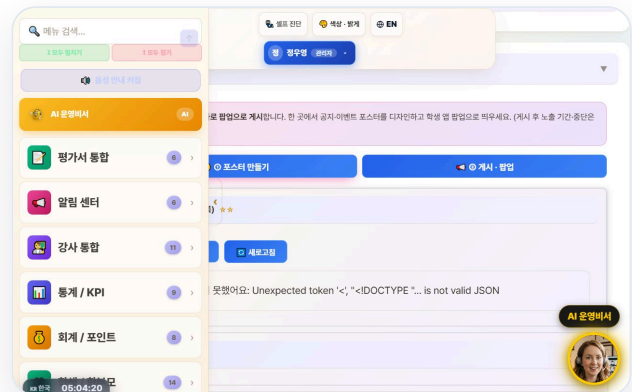

17

📢 Notice Studio (Poster + Popup)

Design notice/event posters and push them as app popups

This merges the old 'Poster Maker' and 'Popup Notice' tools into one place. In the ①Create tab you design a notice/event poster, then hand it straight to the ②Publish-Popup tab to show it as a **popup** in your agency's student app.

- 1 Go to the admin menu **Notification Center** → 📢 **Notice Studio**.
- 2 In the ①Create tab, design a poster with text, images, and video (resize · save on server · reuse).
- 3 Press '📢 **Publish as popup**' on the finished poster to auto-switch to the ②Publish-Popup tab.
- 4 In the publish tab, set the **display period** / **stop** and publish it as a student-app popup.

✅ Key Points

- Poster creation and popup publishing flow through **one screen, two tabs** — no more confusion.
- Posters you make can be **saved and reused**.
- Whichever route you enter from — AI assistant or sidebar search — the **correct tab opens**.

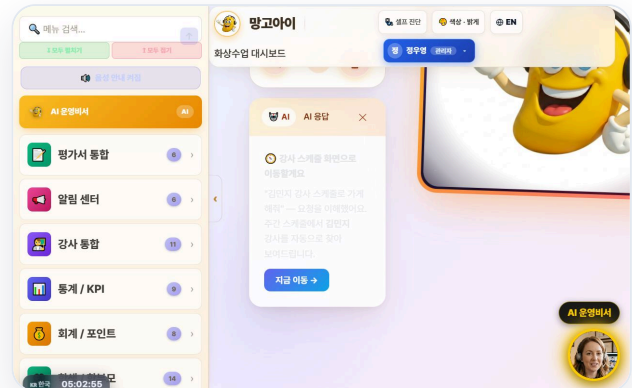

⚠️ **Good to know** Existing posters/popups are preserved (it was only merged, nothing was deleted).

💡 **Tip** Promoting an event takes just one flow: 'Create → Publish as popup' right away.

Type what you want to do into the **top search bar (or the bottom-right AI assistant)** in plain language, and the AI understands and **jumps straight to that screen**. It now reliably follows navigation commands like **'Take me to teacher ○○'s schedule'** or **'Open auto-scheduling'**.

- 1 Type a command in the top **search bar** or speak with the mic.
- 2 e.g. **"Take me to teacher Kim Minji's schedule"**
→ auto-finds that teacher in the weekly schedule and opens it.
- 3 e.g. **"Open auto-scheduling," "Go to settlement"** to navigate menus.
- 4 Press **'Go now →'** on the AI response card to move to that screen.

✓ Key Points

- Navigation commands **actually navigate** — far fewer 'explain only, do nothing' replies.
- Searching a schedule by teacher name **auto-fills the search box + filters + scrolls**.
- For data/statistics questions it also helps with **card-style answers**.

⚠ **Good to know** Commands that actually change things — 'register · send · modify' — ask for one more confirmation (a safety guard).

💡 **Tip** When you can't recall a menu name, just say what you want to do — it finds its way there.

19

Share Library Links via KakaoTalk

Send videos & docs in original quality

Every guide and video in the library now has a 'Copy KakaoTalk link' button. Attaching a file to KakaoTalk **crushes the quality**, but sending a link plays the **original** as-is. One tap copies the link — guiding parents and teachers gets much easier.

- 1 In the admin **Library**, press **Copy KakaoTalk link** next to the file.
- 2 **Paste** it into the KakaoTalk chat room.
- 3 Recipients tap the link to watch or download in **original quality**.

Key Points

- For videos, **link sharing = original quality**; file attachments degrade it.
- Works the same for PDFs, PPTs, and videos anywhere in the library.

Good to know Anyone with the link can open it. For internal-only material, check who you share with.

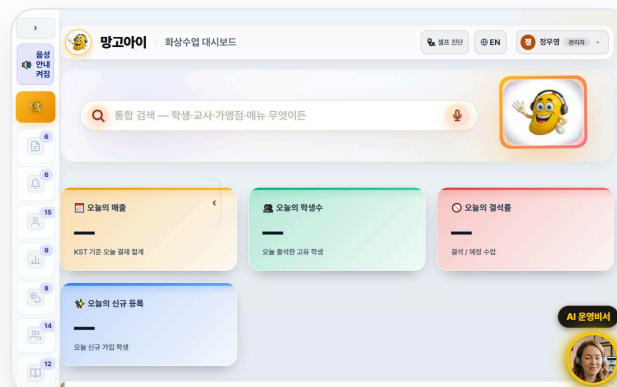

Tip In a parents' group chat, one video-guide link does all the explaining.

The admin screen is now **easier on the eyes and wider**. The left menu collapses to a **narrow icon rail** via the < **Collapse** button, and the background is now a **consistent light tone**. Menu icons were redrawn as **line icons** so labels read clearly.

- 1 Press < **Collapse** at the top of the left menu — it shrinks to an icon rail and **the content gets wider**.
- 2 Press the > button in the same place to expand it again.
- 3 The collapsed state is **remembered for your next visit**.
- 4 Too many menus to find one? Type its name into **menu search** at the top.

✓ Key Points

- Screens full of tables and lists gain **a lot of horizontal space**.
- 15 sub-pages were moved onto the **same light theme**, so the colour jump between screens is gone.
- The collapse animation was **removed** so low-spec PCs don't stutter.

Tip Wide-table screens like settlement and payroll are far easier to read with the menu collapsed.

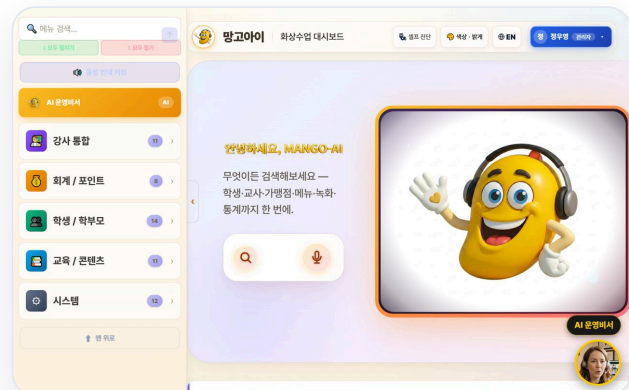

21

The interface language sets itself

Overseas staff and teachers start in English

Filipino teachers and overseas staff now **start in English from the first screen**. The interface language is decided from the account's **nationality**, and teacher accounts are **always English** regardless of name or previous choice. You can still switch any time with the  **EN / KR** button at the top.

- 1 If the account has a **nationality** on file, the right language appears automatically at login.
- 2 To change it manually, press the  **EN / KR** button at the top.
- 3 A manual choice is stored **per account** — several people can share one PC without interference.
- 4 Teacher guide slides and manuals **switch to the English editions** with it.

✓ Key Points

- **Teacher accounts are always English** — no more getting lost in a Korean screen.
- Accounts with an English name no longer flip to Korean because of a Korean job title.
- Language choice is **isolated per account**, so an overseas account isn't overwritten by someone else's pick.

 **Good to know** Accounts with no nationality fall back to the old name/ID heuristic. Please fill in nationality when registering teachers.

 **Tip** Enter nationality when registering a new teacher and their very first login is in English — fewer support requests.

Once payment is confirmed, every session is scheduled

On the **Enrolment screen** a student picks teacher, days and time and pays — and **all lesson sessions are created automatically the moment payment is confirmed**. The old manual timetable entry after payment is gone. If the slot **clashes with an existing lesson, the conflict is detected before payment**.

- 1 Send students and parents the **enrolment link**.
- 2 They choose **teacher → lesson options (weekly count, term, length) → days & time**.
- 3 The **slot check must pass** before the pay button unlocks (payment is blocked on a clash).
- 4 On confirmed payment, **all sessions are created at once** — verify in the admin lesson list.
- 5 Head-office prices and discount rates are managed on the **pricing screen**.

Key Points

- **Idempotent** — a duplicated payment callback will not create the sessions twice.
- Clashes with holidays or existing lessons are **pushed back** so the session count is still met.
- Term discounts (6 months -5%, 12 months -10%) are applied to the amount automatically.

 **Good to know Stage 1 (enrol → pay → auto-create sessions)** is live today. Later stages will follow.

 **Tip** Consultation → level test → send the enrolment link is the smoothest conversion path.

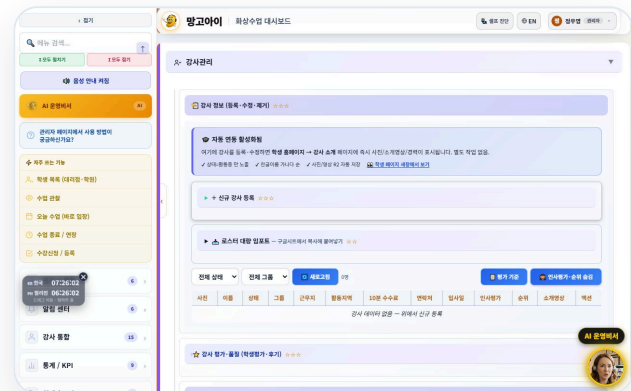

23

Teacher Management, redesigned (roster filters · groups · detail tabs)

Easy-to-search roster · detail at a glance

The teacher-management screen is now **easier to search and read**. Scattered menus are **grouped into four bundles** in the sidebar, and above the roster there are **status/group dropdown filters** with **applied-filter chips**. Tapping a teacher opens a detail view split into **Profile / Payroll / Evaluation tabs**, with a **manager badge** and **employment status (active / on-leave / left)** shown at a glance.

- 1 Open **Teachers** in the admin menu (menus are tidied into four bundles).
- 2 Filter to just the teachers you want with the **status/group dropdowns** above the roster.
- 3 Applied filters show as **chips**; remove a chip to clear it.
- 4 Tap a teacher to open the **Profile / Payroll / Evaluation** detail tabs.
- 5 The **summary numbers on the payroll/evaluation tabs** load only as needed when opened.

Key Points

- **Managers** are marked with a badge, and status shows as **active / on-leave / left (3 states)**.
- A blank name **falls back to the ID**, so there are no empty cells.
- Detail tabs **reuse existing APIs** for speed, and the screen is bilingual (KO/EN).
- The duplicate payroll entry was tidied and **bug reports moved to a separate system**.

Good to know This is a filtering/detail cleanup. Registering, editing and deleting teachers works exactly as before.

Tip The more teachers you have, the more the status/group filters help. Keep your usual conditions filtered.

✨ Sending the Parent Monthly Report (pentagon)

Preview the 5-axis report, then share the link

The **monthly report** sent to parents is renewed as a **pentagon 5-axis graph** — **Pronunciation & Fluency / Vocabulary / Sentence Building / Class Attitude / Participation** — at a glance, with attendance, judgment and a teacher's note. Admins and teachers enter a student ID and month to **preview**, then send the **KakaoTalk link**.

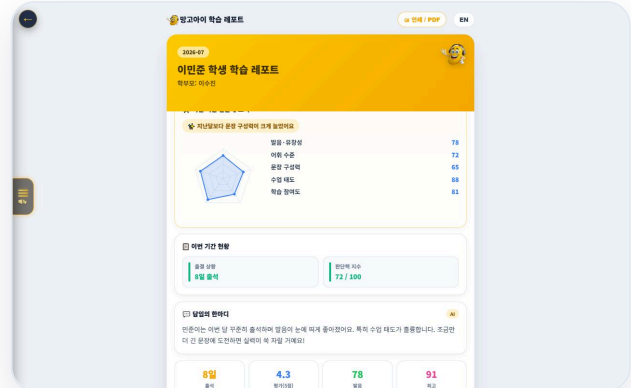

- 1 Open the **Monthly Report** screen.
- 2 Enter a **student ID** and **month**, press **View Report** to preview.
- 3 Check the pentagon and teacher's note; top up evaluations if needed.
- 4 Append **?uid=ID&period=YYYY-MM** to the URL and send the **KakaoTalk link**.

✅ Key Points

- **Only axes with real records** are filled, so it's trustworthy.
- Compiled on a **two-month cycle** — conveys change without tiring parents.
- The Print/PDF button makes a paper report for consultations instantly.

⚠️ **Good to know** Report access passes an **approval gate** — admins via their login session, parents only via the issued link (token).

💡 **Tip** Sending the report link ahead of a booked consultation makes the meeting much smoother.

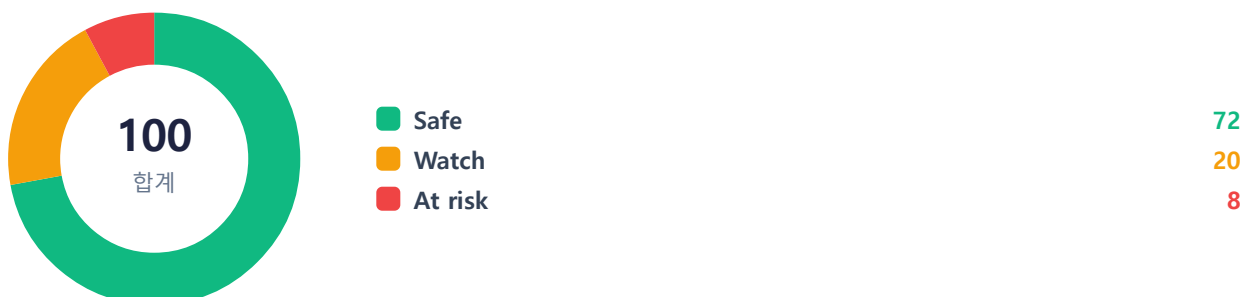

25 Agency Features at a Glance

Feature	What it does	When	Core benefit
Dashboard	Revenue-enrollment-today	Every morning	Quick read
Student mgmt	Recruit-enroll-history	Always	Grow enrollment
Parent comm	Guide My Page	Enroll-re-enroll	Satisfaction ↑
Booking	Schedule-teacher	Assigning lessons	Smooth flow
Payments	Payments-overdue-refunds	Collection	Stable revenue
Reports	Learning performance	Counsel-re-enroll	Persuasion ↑
Settlement	Receive branch→agency	Monthly	Transparent profit
Retention	Care for at-risk	Always	Retention ↑

Enrollment Trend (example)

Churn-risk Distribution (example)

26 ? Frequently Asked Questions (FAQ)**Q. Where do I log in?**

A. Log in at admin.mangoi.co.kr. By role (agency), only your agency's data shows automatically.

Q. Can I see other agencies' data?

A. No. By permission scope, only your agency's data is visible.

Q. How do I grow enrollment?

A. Fast counseling response, a smooth trial→enroll flow, and persuading parents with learning reports are key.

Q. How do I check settlement?

A. Branch→agency settlement (received) is auto-calculated by the org tree; check it in the monthly report.

Q. A student seems about to quit.

A. Watch churn-risk signals (absences-performance drop) and intervene quickly with counseling/alert-talk.

✓ Agency Operations Checklist

☐ Did you check today's revenue/enrollment/attendance?

☐ Did you take and respond to new counseling/inquiries?

☐ Did you check and notify overdue items?

☐ Did you care for at-risk students?

☐ Did you guide parents to the report/My Page?

☐ Did you check this month's settlement (received)?

☐ Did you follow up on trial→enroll?

27 · Conclusion

Conclusion · A Practical Guide to Agency Growth

The core of agency operations is the virtuous cycle of 'recruit → enroll → satisfy → re-enroll.'
Respond to counseling fast, show learning results with data, and prevent churn early — and your agency grows steadily. Keep this rhythm and operations feel solid.

The Flow at a Glance

Morning (5 min)

Check revenue/enrollment/attendance on the dashboard; check live-lesson status

Late morning

Respond to new counseling-convert; notify overdue

Class hours

Check lesson assignment/progress; guide 'entry' tickets to browser/permission first

Afternoon

Care for at-risk students; parent reports-counseling

Monthly

Check branch→agency settlement; re-enroll-follow-up

★ Key Principles

- 1 **Respond fast** — the faster you handle counseling/inquiries, the higher conversion.
- 2 **Persuade with data** — showing results via learning reports makes re-enrollment easy.
- 3 **Intervene on churn early** — care first for frequently-absent students.
- 4 **Communicate with parents** — build trust with My Page and reports.
- 5 **Follow up** — following up after counseling completes enrollment.

Remember

- Log in at **admin.mangoi.co.kr**; data is auto-limited to **your agency scope**
- Settlement is auto-calculated by the **branch→agency** tree
- Most 'can't enter class' tickets are **browser/permission** issues
- Growth rhythm: '**Recruit → Enroll → Satisfy → Re-enroll**'!

An agency's strength comes from 'the care you give each student.' Respond quickly, show results, and prevent churn early. Your branch and HQ back you up solidly. Questions? Contact support anytime — cheering on your thriving agency! 🍊

Let's grow together with Mangoi!
