

Mangoi · MANGOI

Student User Guide

Easy on your own — the complete Mangoi guide

 Student User Guide

What is Mangoi?

Mangoi brings together live 1:1 video English lessons with a native-speaker teacher and AI learning & games you can do on your own before and after class. Connect right from your web browser (Chrome/Edge) on a phone, tablet or PC — no app install needed. Just follow this guide and even first-timers can use it easily on their own.

1:1 native video lessons

Meet your teacher face-to-face and talk in English at set times.

AI warm-up · pronunciation coach

Warm up before class and get instant pronunciation fixes.

10 learning games

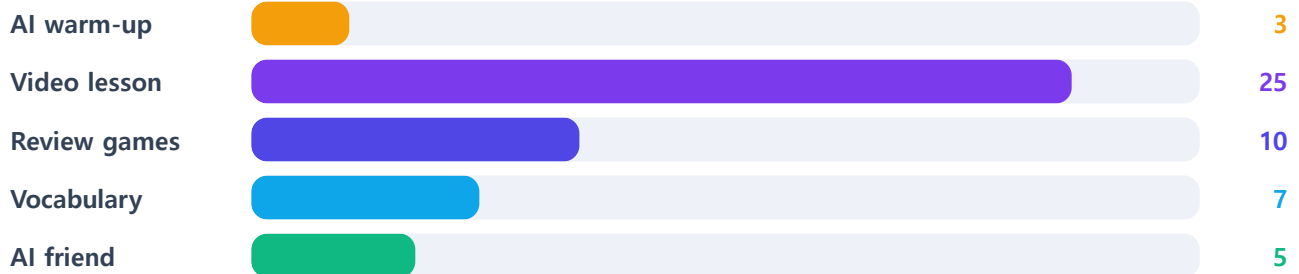

Review today's words and sentences through fun games.

Points · badges · streak

The more you study, the more points and badges you collect.

01

**Getting Started & Home**

Access · login · screen layout

Mangoi opens right away when you type the address in Chrome or Edge. After you log in, a space-themed home screen appears, and from here you move to lessons, games and learning menus.

- 1 Go to **www.mangoi.co.kr** in your browser and **log in** (social login works too).
- 2 Check your **name and points (P)** at the top-right to confirm you're logged in.
- 3 Tap the '**Open**' tab on the left to expand the menu sidebar.
- 4 Ask the **A.i assistant** at the bottom-right anything you're curious about.
- 5 Use the **EN button** to switch the on-screen text to English.

 **Key Points**

- No app install — a web browser is all you need.
- 'Add Mangoi app' at the bottom of home creates a home-screen icon.
- Study on phone, tablet or PC with the same account, anywhere.

Tip Turn on auto-login only on your own trusted device so you don't type it every time.

When it's lesson time, join the classroom and study face-to-face with your native teacher. It feels new at first, but just follow the steps and you'll be in quickly.

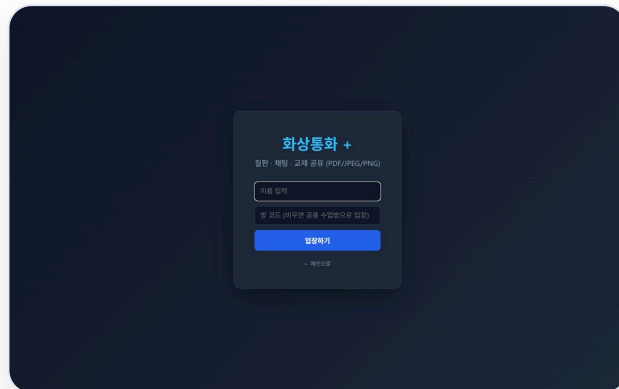

- 1 Tap the **invite link** you received, or the **today's lesson card** on the site.
- 2 Enter your **name** (the room code is usually filled in; if empty, you go to the shared room).
- 3 Press the **Enter** button.
- 4 When the browser asks, press '**Allow**' for camera and mic — that connects your face and voice.
- 5 When you see your teacher, say hello and start the lesson!

✓ Key Points

- It works best opened in Chrome or Edge.
- Opening the link inside KakaoTalk may block the camera → choose 'open in another browser'.
- A headset makes the sound clearer and cuts noise.

⚠ **Good to know** If sound/video won't work, refresh the page and 'Allow' camera and mic again.

💡 **Tip** Enter 5 minutes early to check your face and sound — it puts you at ease.

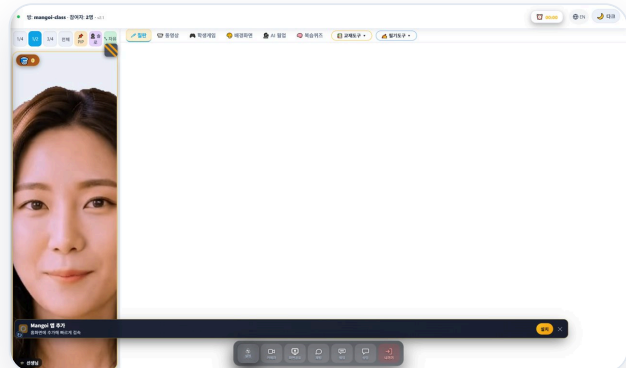

03

 The Classroom at a Glance

What does the lesson screen look like?

When you enter a lesson, the screen has three main areas: ① the top bar (room info, timer, language, dark mode), ② the large center workspace (where the board, materials, video, etc. open), and ③ the bottom control dock (camera, chat, leave). Your face video and the praise basket sit in a small window at the top-left.

- 1 **Top-left:** `Room: mangoi-class · Users: 2` — the room name and how many people are connected.
- 2 **Top-right:**  **Timer** (lesson time),  **REC** (recording indicator),  **EN** (switch language),  **Dark** (dark screen).
- 3 **Center:** the tool you pick from the top tabs (board, materials, video...) opens here.
- 4 **Bottom-center:** the control dock — camera, screen share, chat and leave buttons.
- 5 **Small window, top-left:** your face video and the  **praise basket** (how many praises you received).

 Key Points

- Hover over a button to see its name (tooltip).
- If text looks Korean, press EN at the top-right to switch language.
- If the screen is too bright, switch to  Dark.

 **Tip** It looks like a lot of buttons at first, but the four you use most are board, materials, camera and chat.

At the top of the center workspace there are six tab buttons. Click one to switch to that tool. The active tab is highlighted.

- 1  **Board:** a whiteboard for writing and drawing while explaining.
- 2  **Video:** watch a YouTube link or a video file together.
- 3  **Games:** open learning games during class (may be limited during lesson time).
- 4  **Background:** change the backdrop behind your video and decorate your face.
- 5  **AI Warm-up:** an English warm-up before the lesson.
- 6  **Review Quiz:** an AI-made quiz matched to this lesson's textbook and level.

Key Points

- Your face video stays visible even after switching tabs.
- At the far right of the tabs there are also  Materials Tools ▾ and  Writing Tools ▾.

 **Tip** Lessons mostly use the  Board and  Materials the most.

05

 Board Tools, One by One

Pen · eraser · shapes · text · save

Open the  Board tab and a row of drawing tools appears at the top. Let's go through each button from left to right.

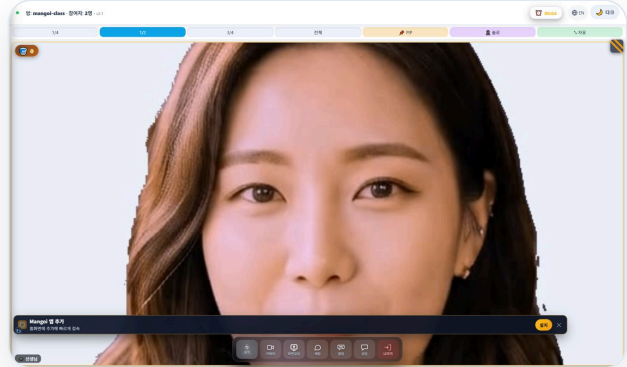

- 1  **Pen:** draw freely. /  **Eraser:** erase what you drew.
- 2  **Line** /  **Rectangle** /  **Circle:** draw straight lines and shapes.
- 3  **Text:** type letters with the keyboard.
- 4  **Color** (color box): pick the pen color. / **Thickness** (slider): adjust line width.
- 5  **AI Shapes:** even rough drawings snap into neat shapes automatically.
- 6  **AI Text:** recognizes handwriting and turns it into clean typed text.
- 7  **Clear All:** wipe the whole board. /  **Save:** save the board as an image.

 Key Points

- Change color and thickness to highlight key parts so they stick.
- AI Shapes / AI Text auto-tidy when turned on (experimental).

 **Good to know** Pressing Save () downloads the current board as an image you can use for review.

 **Tip** Save () the board before class ends to keep exactly what you learned today.

Click  **Materials Tools** ▾ at the right of the tabs and a menu drops down. This is where you upload textbooks (PDF/photos) to view together.

- 1  **Upload (PDF/JPG/PNG):** upload a textbook file from your device to share.
- 2  **Library:** pick from textbooks the academy (admin) uploaded.
- 3  **Download:** download the file you're currently viewing.
- 4  **Prev / Next** ►: turn textbook pages.
- 5  **Fit / 100% / 1:1:** fit the page to the screen or view at real size.
- 6  **Stop sharing:** end textbook sharing.

Key Points

- The moment you upload, the other person sees the exact same page.
- Not only PDFs — JPG and PNG photos work too.

 **Tip** Upload the textbook before class for a smooth start.

07

 Writing Tools (annotate on top)

Pen · highlighter · text · undo

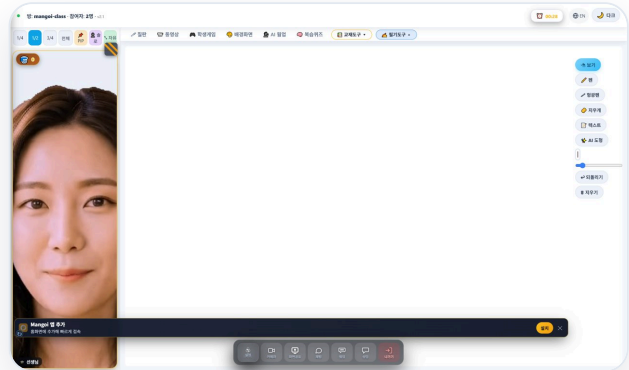

Click  **Writing Tools** ▾ at the right of the tabs and the writing menu drops down. Use it to write directly on top of a textbook or the screen.

- 1  **Pen**: write freely on the screen. /  **Highlighter**: brightly mark important spots.
- 2  **Eraser**: erase your writing. /  **Text**: type letters.
- 3  **AI Shapes**: tidy your drawn shapes.
- 4 **Thickness** (slider): adjust the pen width.
- 5  **Undo**: cancel your last mark. /  **Clear**: erase all writing.

 Key Points

- With a textbook open, your writing appears right on top of it.
- Highlight key words to make them stand out.

 **Tip** Made a mistake? One tap on  Undo cleans it up.

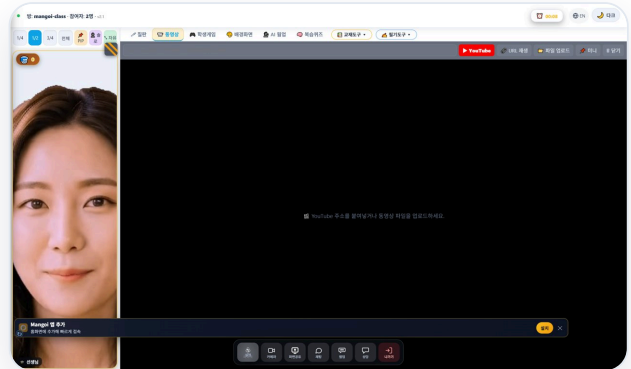

In the  **Video** tab you can paste a YouTube link or upload a video file to watch together — great for songs and video materials.

- 1 Paste a **YouTube link (URL)** into the box, or **upload a video file**.
- 2 Press ► **Play URL / Play** to start the video.
- 3 Use **New video** to switch to a different one.

✓ **Key Points**

- The video plays on the other person's screen too.
- For sound-heavy material, earphones help you hear better.

💡 **Tip** Prepare the video link in advance so you can play it instantly in class.

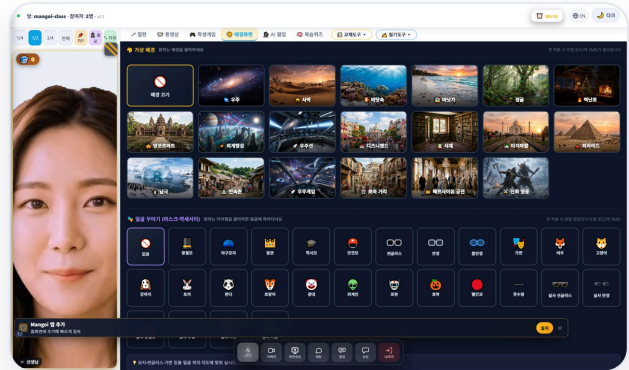

09

🧐 Background & Face Decorations

Change backdrop · masks · accessories

In the 🧐 **Background** tab you can change the backdrop behind your face and add fun decorations. Just click what you want in the grid.

- 1 In the **background grid**, tap a backdrop (space, desert, forest, cherry blossom, beach, pyramids...).
- 2 Tap **Background off** to return to your normal camera view.
- 3 Below, in **Face Decorations (masks/accessories)**, pick glasses, hats, animals and more.
- 4 Don't like it? Tap again to turn it off.

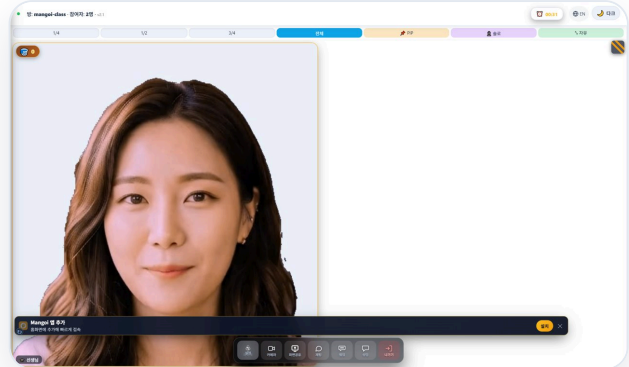

✅ Key Points

- Changing the background keeps your face visible.
- Very flashy decorations can distract from the lesson.

💡 **Tip** Use a clean background for class and fun decorations for break time.

The size bar above the video lets you change the size and layout of your face-video window. The current size is shown in blue.

- 1 **1/4 · 1/2 · 3/4 · Full**: make the video window 1/4 up to full-screen.
- 2  **PIP**: float the video as a small overlay on top of the board/materials.
- 3  **Solo**: hide others and see only your own screen larger.
- 4  **Free**: drag the title bar to move it, drag the bottom-right corner to resize freely.

Key Points

- Make the video small (1/4) when reading materials, large (Full) when presenting.
-  PIP is great when you want to see the textbook and faces at once.

 **Tip** On a small screen, shrink the video to 1/4 and view the textbook large.

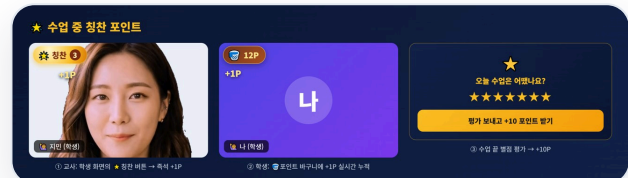

11

★ Praise Points During Class

Teacher gives → +1P in student's basket

When you do well, the teacher can give praise points on the spot. When the teacher taps the ★ 'Praise' star button on your video, that student instantly gets +1P, and it piles up in real time in the 🧺 point basket on the student's screen.

- 1 **Teacher:** tap the ★ 'Praise' button at the top-left of a student's video → that student gets +1P. (the count builds up next to the star)
- 2 With several students, you can also pick a student from the 'Give Praise' bar.
- 3 **Student:** +1P flies into the 🧺 point basket at the top-left of your screen in real time.
- 4 **When class ends,** the student leaves a **star rating** to get an extra +10P.
- 5 Collected points are spent as rewards in the **point shop, roulette, etc.**

✓ Key Points

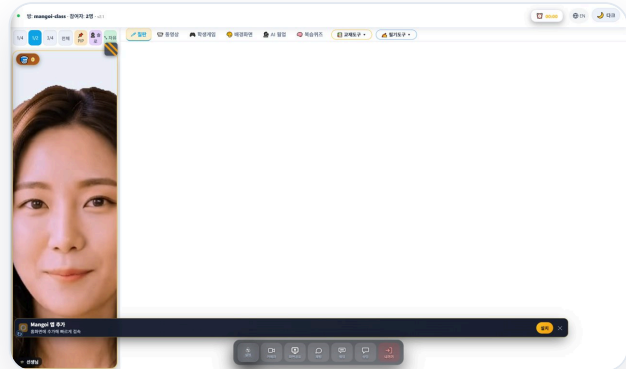

- The more praise you get, the faster points pile up.
- The praise star has an anti-spam cooldown, so it may briefly turn gray.
- The basket shows points earned this class; your total P (top bar) is the running sum.

⚠ **Good to know** Praise points are given by the teacher — students can't add them by themselves.

💡 **Tip** Teachers: praise ★ the moment a student does well — instant rewards motivate best.

The control dock at the bottom-center holds the buttons you use most during class. Let's also look at the small  praise basket at the top-left.

- 1  **Settings:** pick camera/mic devices and check their status.
- 2  **Camera** /  **Mic:** turn your face and sound on/off.
- 3  **Screen Share:** show your computer screen to the other person.
- 4  **Chat:** talk in text (great for words and links).
- 5  **Native:** call the native-speaker helper / interpreter feature.
- 6  **Leave:** end the lesson and exit the room.
- 7  **Praise Basket** (top-left): the praise (stars/stickers) you receive during class collects here.

Key Points

- Before leaving () , make sure you saved the board / notes.
- No sound? Check the mic/speaker devices in  Settings.

 **Good to know** Screen share asks the browser which window to share — pick the screen and allow it.

 **Tip** When your praise basket fills up, it means you're doing great!

13

How to Join In During Class

Speak, ask, write together

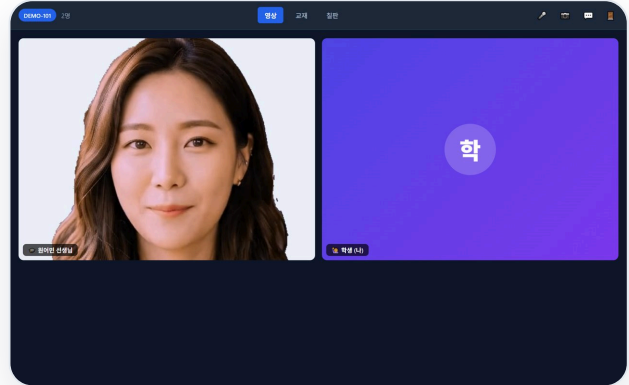

A video lesson isn't a lesson you just watch — it's one you do together. Don't only listen; the more you join in with the ways below, the faster your English grows.

- 1 When the teacher asks, turn on your  **mic and answer out loud**. (turn it on only when speaking to cut noise)
- 2 If you can't hear or you're curious, **ask in chat**.  Check unknown words in text too.
- 3  **Write on the board together** — with the teacher's OK, use the pen to write or draw answers.
- 4  **Turn textbook pages together** and follow the page you're on.
- 5  **Keep your camera on** — the teacher helps more when they can see your face.

✓ Key Points

- The more you speak, the better. Mistakes are fine!
- Do well and the teacher gives you  praise points (see earlier page).
- Earphones in a quiet place make the sound clear.

 **Tip** Memorize phrases like 'One more time, please' to make class easier.

When class ends, tidy up what you learned right away. A 'Take the review quiz?' popup appears, and leaving a star rating earns you points too.

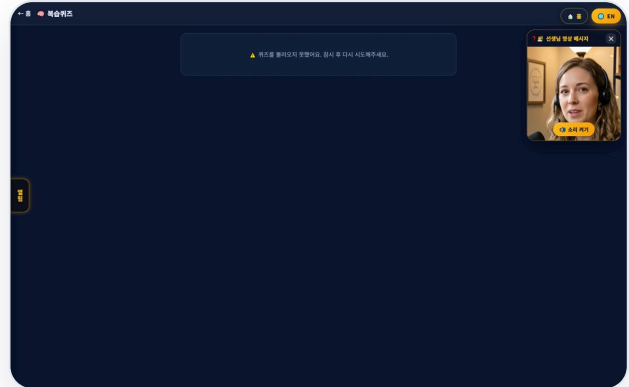

- 1 When class ends, a '**Take the review quiz? Yes / No**' popup appears.
- 2 Press '**Yes**' and a **review quiz matched to today's class** appears automatically.
- 3 Leave a **star rating** (How was today's class? 7 stars) to get **+10P**.
- 4 Then review today's words once more with a **learning game** to make it perfect.

✓ Key Points

- Reviewing right after class stays in memory longest.
- The rating helps your teacher, and you get points too.

⚠ **Good to know** You must leave a star rating to exit the class (it's OK to be honest).

💡 **Tip** Review quiz → game → vocabulary, in that order, makes today's lesson truly yours.

15

Pre-class Device Check

Check camera, mic and internet first

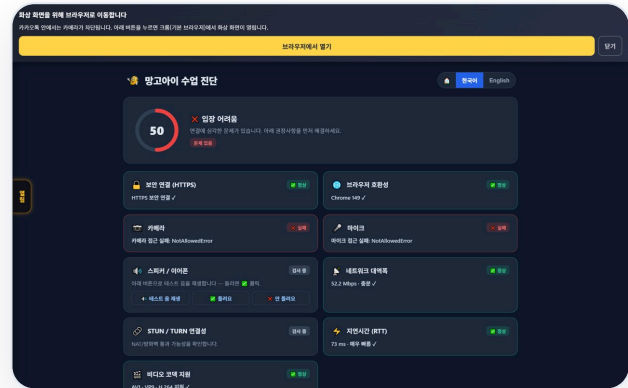

This screen checks your camera, mic, network and lighting before class. A score and traffic-light signals tell you right away whether things are good, preventing drop-outs mid-lesson.

- 1 The check screen tests **camera, mic, network and lighting** all at once.
- 2 Read the **overall score** and each item's signal (green/yellow/red).
- 3 If red appears, follow the tips to **turn on a light or move seats** and check again.

Key Points

- When your face is well-lit, the teacher can read your expression and help more.
- If Wi-Fi is weak, moving closer to the router helps.

Tip Do the check 5 minutes before class — fixing issues early keeps the lesson smooth.

Before class, an AI friend asks English questions tied to today's textbook. Answering casually loosens you up so the first 5 minutes of class feel much easier.

- 1 Before class, the **AI friend greets you in English** — reply casually.
- 2 **Questions linked to today's textbook** appear so you get a feel in advance.
- 3 Use the speak/listen buttons to **answer by voice** or type.

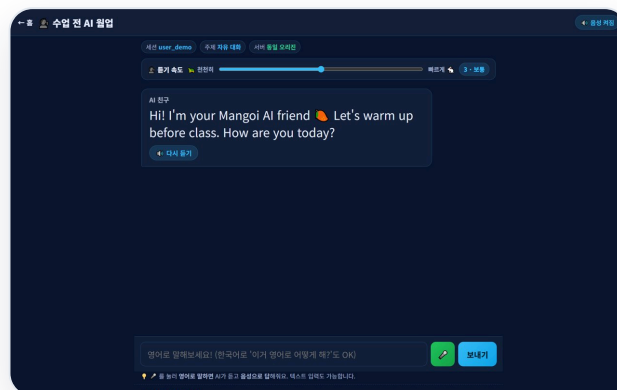

Key Points

- Your teacher can see your warm-up, so class flows naturally from it.
- Mistakes are fine — it's just a warm-up, so relax!

Tip Make the warm-up a habit before every class and you'll start speaking sooner.

17

AI Pronunciation Coach

Fixes your pronunciation instantly

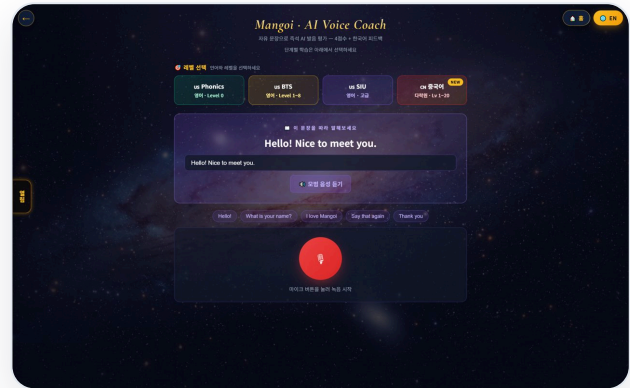

Read a sentence at your level, record it with the mic, and the AI tells you a pronunciation score and what to fix. You can also replay the native audio and correct yourself.

- 1 Pick a **level (Phonics, BTS, SIU, etc.)** to get sentences at your level.
- 2 **Read the sentence** on screen and press the **red mic button** to record.
- 3 The AI shows your **pronunciation score and what to fix**.
- 4 Use 'replay' to hear the **native audio** and practice once more.

✓ Key Points

- Start with short sentences, clearly — your score rises faster.
- Repeating sentences from class here makes them stick.

💡 **Tip** Five sentences a day and your pronunciation noticeably improves.

A test that shows your current English level. The result feeds into your curriculum, so you avoid lessons that are too easy or too hard.

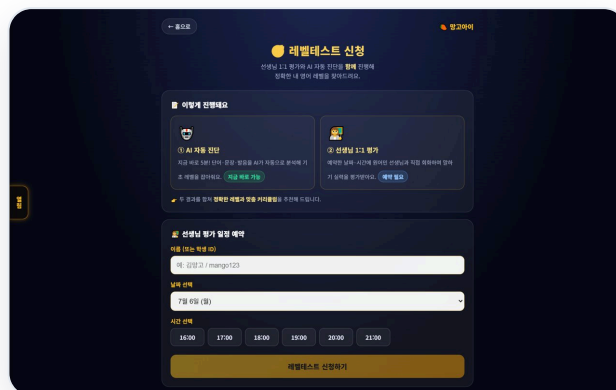

- 1 On the **level test request** screen, pick a method (AI/teacher) and a date/time.
- 2 Follow the guide and answer the **speaking and listening questions**.
- 3 The result is reflected in your **curriculum (my level)**.

**Key Points**

- We recommend taking it once when you first start.
- Retake it periodically to see how much you've improved.

Tip Relax — the goal is just to know your level accurately.

19

My Level · Curriculum

See how far you've come

Levels 1–10 show where you are now and what you'll learn next. As you take lessons and play games, you move up to the next level.

- 1 Check which of **Levels 1–10** you're at now.
- 2 Tap a level to see **what you learn and the goals**.
- 3 Set a target level and keep challenging yourself.

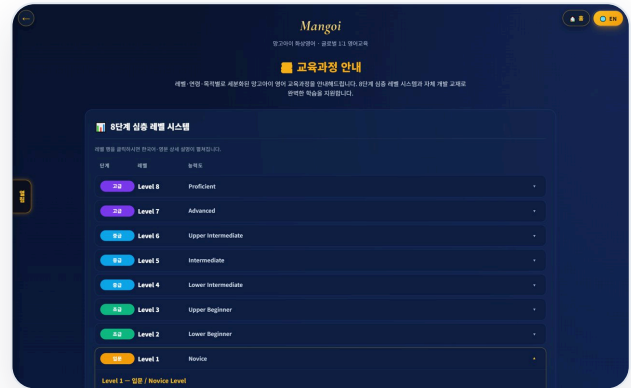

Key Points

- As levels rise, the sentences get longer and more practical.
- Setting a goal with your teacher boosts motivation.

Tip Knowing your level means games and reviews use the right words for you.

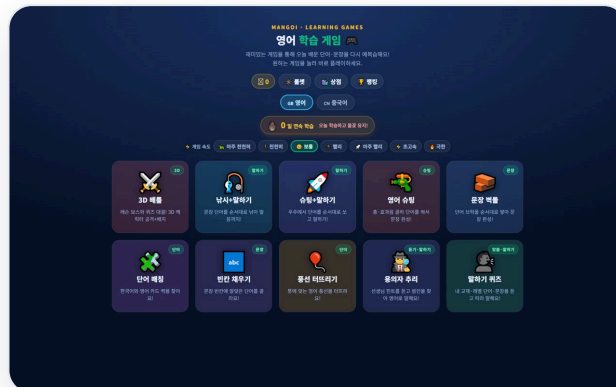

The Games menu has 10 games. Today's textbook and level words appear in them, so you review naturally while playing and earn points.

- 1 In **Games**, tap a game card to start right away.
- 2 At the top, choose **English/Chinese** and the **game speed**.
- 3 Correct answers earn **points** and keep your **learning streak** flame going.
- 4 Fill 10 correct answers to see your **result and highlights**.

✓ Key Points

- Game words are linked to what you learned today.
- Games marked 'speaking' score better when you say the answer aloud.

💡 **Tip** Games are review. When class words appear in a game, they stick longer.

21

3D Battle

Quiz duel with a boss!

A boss-battle game where you attack with a 3D character by answering questions. The more you get right, the stronger you get and the more badges you earn.

- 1 Enter the lesson **boss battle** and attack by solving questions.
- 2 The more correct answers, the stronger you get and the more **badges** you earn.
- 3 Wrong is fine — try again and learn the words.

Key Points

- Turn on sound for extra excitement with sound effects.
- Beat the boss for a special badge.

 **Tip** Too hard? Change the game speed to 'slow'.

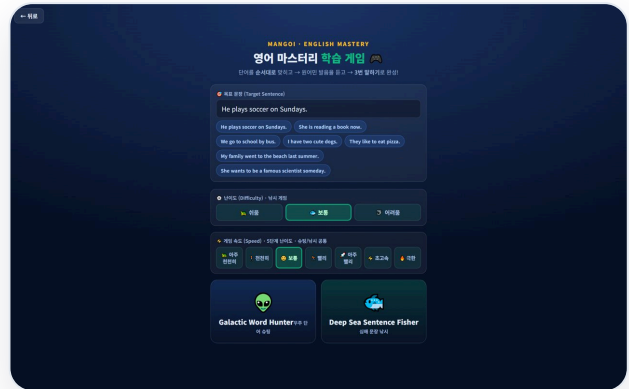

Shoot words in space (Shooting + Speaking) or build target sentences by hunting and fishing words (Mastery). Pick a difficulty and speed to suit you.

- 1 **Shooting + Speaking:** shoot words in order to complete a sentence.
- 2 **Mastery (word hunt / sentence fishing):** build the target sentence while speaking.
- 3 Change **difficulty and speed** to pick your challenge.

✓ Key Points

- Speaking games score better when you say answers aloud.
- Reading the target sentence loudly helps memory.

💡 **Tip** Start at 'easy/normal' and raise it as you get comfortable.

23

Word Fighter (zombies)

Beat zombies with words

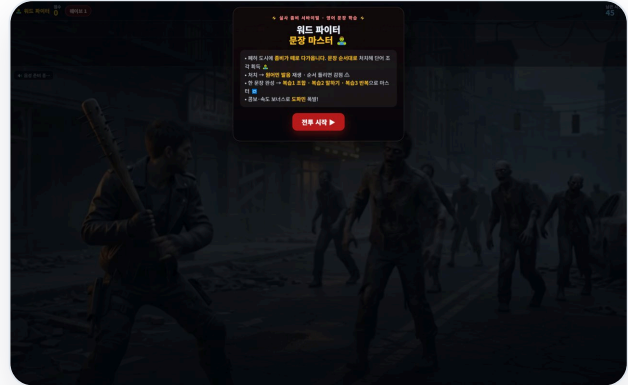

An action game where you fend off oncoming zombies with words and sentences. It trains you to recall words quickly under pressure.

- 1 Type or speak **to match the word/sentence** on screen to stop zombies.
- 2 The faster you answer, the higher your **score and combo**.
- 3 Get as many right as you can before you run out of lives.

Key Points

- Great for quick-reaction practice.
- Don't skip unknown words — check their meaning.

Tip Nervous? Breathe — accuracy matters more than speed.

24

Suspect Mystery

Listening & speaking through story

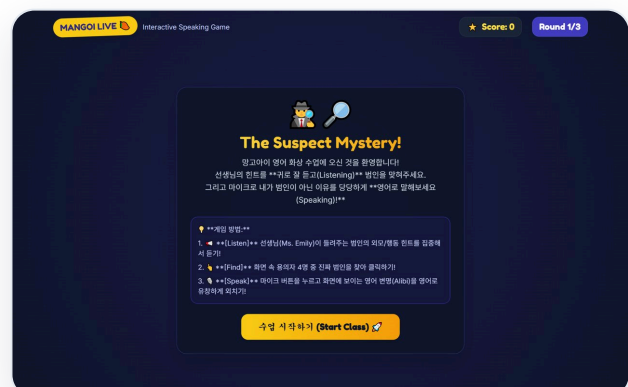

A mystery game where you listen to the teacher's (AI) English hints, find the culprit, and explain in English. You practice listening and speaking at the same time inside a story.

- 1 Press '**Start Class**' to begin the case.
- 2 **Listen to the English hints** and gather clues.
- 3 Pick the culprit and **explain your reason in English**.

Key Points

- Improves listening focus.
- Practices giving reasons in English.

Tip Missed a hint? Use replay to check it.

25

Speaking Quiz

Listen and repeat

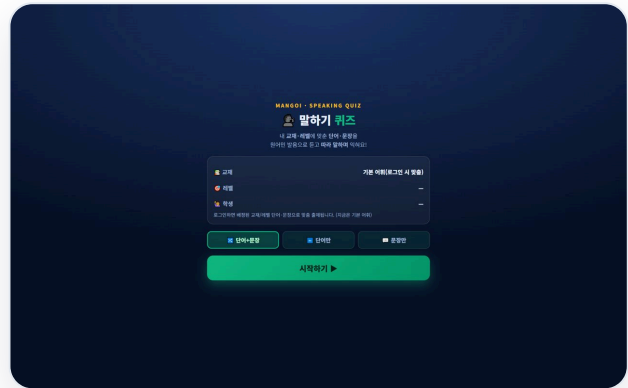

A quiz where you listen to a sentence and repeat it to check pronunciation and sentences. A great way to review today's lesson out loud.

- 1 Press '**Start**' to get questions.
- 2 **Listen and repeat** each sentence.
- 3 Fill 10 correct answers to see your **result and pronunciation feedback**.

Key Points

- The more you speak aloud, the more you improve.
- A quiet place helps recognition.

 **Tip** Doing it right after class doubles what you remember.

26

Review Quiz

A quick check of the lesson

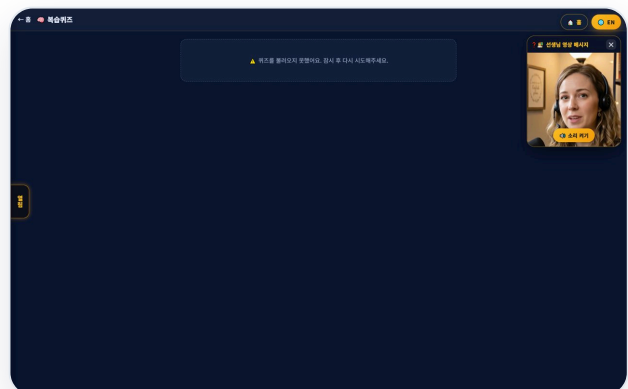

After class, a short quiz checks today's content. It tells you what you did well and what to review more.

- 1 Take the **review quiz** that pops up after class.
- 2 Recheck wrong questions with the **explanation**.
- 3 Note the **words to review more** from your result.

Key Points

- It's short, so you can do it every time without pressure.
- Wrong words link to the vocabulary book and games.

 **Tip** Review quiz → game, in that order, is perfect.

27

My Vocab

Memorize with word cards

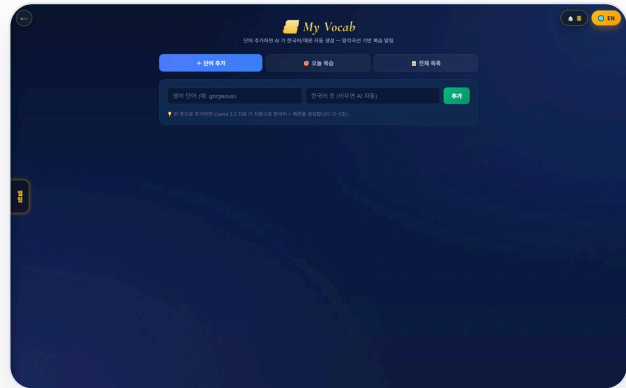

Your own vocabulary book to memorize collected words as cards. Check meanings and pronunciation and review even on the go.

- 1 Flip through **your word cards** in the vocabulary book.
- 2 Check the **meaning and pronunciation** on each card.
- 3 Split known and unknown words and repeat.

Key Points

- Words from games and lessons collect here.
- Perfect for spare moments on the go.

Tip Just 10 words a day is 300 words in a month.

28

AI Friend (Mango)

Free English chat

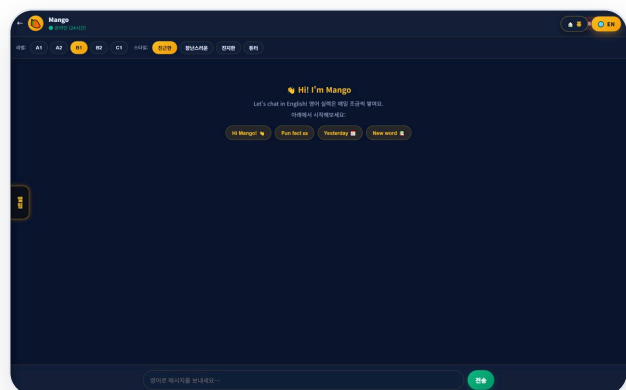

Chat freely in English with your AI friend Mango to practice conversation. Mistakes aren't embarrassing, so you can speak as much as you like.

- 1 Open the **AI friend** screen.
- 2 **Type or say** what you want in English.
- 3 Read Mango's reply and **keep the conversation going naturally**.

Key Points

- Mistakes are fine — practice freely!
- Great for chatting in English when bored.

Tip Learn by asking things like 'What is ...?'

29

 AI Writing

Make your sentences natural

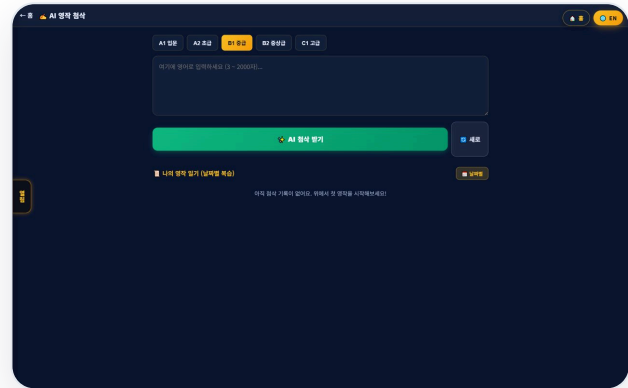

Enter a sentence you want to write and the AI rewrites it into natural English. Learn why it changes and build your writing skills.

- 1 **Type the sentence** you want to write.
- 2 Press the **AI Writing** button.
- 3 Check the corrected sentence and the **reason**, then copy it.

 Key Points

- Great for diary and self-introduction practice.
- Memorizing the fixes speeds up your growth.

 **Tip** Read the corrected sentence aloud — it helps speaking too.

30

 Attendance Streak · Badges

Consistency is skill!

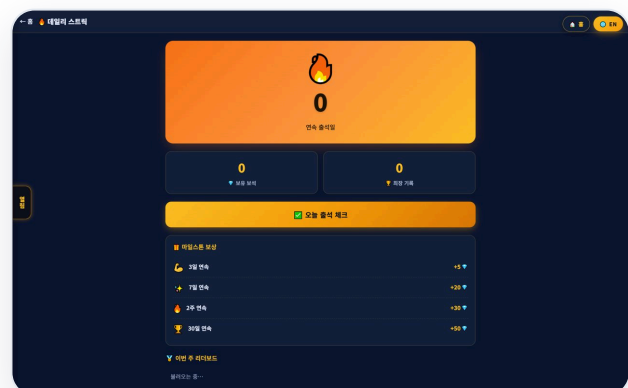

Study every day to keep the flame (streak) going, and meet conditions to auto-collect 10 kinds of badges. Consistency adds up to real skill.

- 1 Do **'today's study'** every day to keep the flame going.
- 2 Skip a day and the flame goes out — so **do a little every day**.
- 3 Meet the conditions and **receive badges** automatically.

 Key Points

- Doing a little every day matters most.
- Collecting badges builds the habit for fun.

 **Tip** Just pressing 'today's study' keeps your streak alive.

31

MBTI Style Test

Know your learning style

A short quiz to learn your learning style. It helps you find study methods that suit you.

- 1 Answer the questions casually.
- 2 See **your style and study tips** in the result.
- 3 Apply the recommended methods to lessons and games.

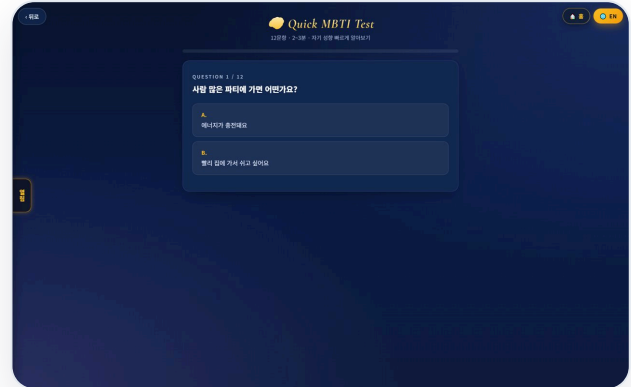

Key Points

- Enjoy it and get to know yourself.
- Pick games that fit your style, too.

Tip Share the result with your teacher for tailored coaching.

32

Book a Lesson

Set your own schedule

A screen to book by choosing lesson type (1:1/group), date and time on a calendar. Once booked, your remaining count and next lesson are organized automatically.

- 1 Pick the **lesson type (1:1/group)**.
- 2 Select the **date and time** on the calendar.
- 3 Set the weekly count and move to **payment/confirm**.

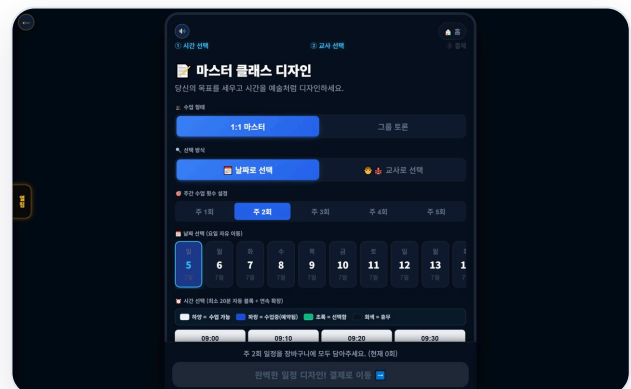

Key Points

- Available times are color-coded for easy picking.
- You can also choose by teacher.

Tip Popular slots fill fast — book early.

33

Postpone · Change a Lesson

When something comes up

A screen to push a lesson to later or change its time when something comes up. The changed schedule is announced automatically.

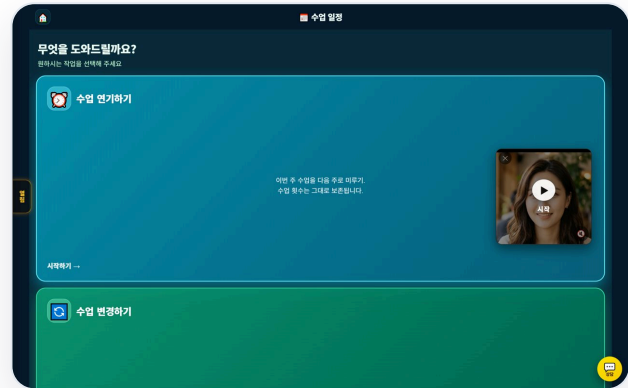

- 1 Choose **Postpone / Change**.
- 2 Set the **date and time** to move to.
- 3 Confirm and your **lesson count stays preserved**.

✓ Key Points

- Requesting early makes it easier to get the time you want.
- Postponing never removes your lesson count.

⚠ **Good to know** Postponing right before a lesson may not be possible (check the postpone/refund policy).

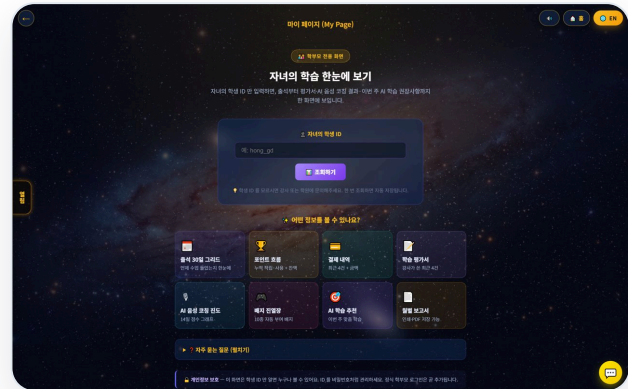

💡 **Tip** If your plans might change, request at least a day ahead.

Parents can see how well their child is doing on one screen in 'My Page' just by entering the child's student ID. No app install — check it right from the web.

- 1 Open **My Page (the parent screen)**.
- 2 Enter the **child's student ID** and press **Look up**.
(it's saved after one look-up)
- 3 Check the **30-day attendance grid** for when they had class, and **point flow** for accrual/use.
- 4 See the **learning report** (teacher's latest reviews), **AI voice-coaching progress** and **badge shelf**.
- 5 Wrap up the month with **AI study recommendations** and the **monthly report** (print/PDF).

✓ Key Points

- Attendance, reviews, points and coaching progress are all on one screen.
- The monthly report can be printed or saved as PDF.
- If you don't know the student ID, ask the teacher/academy.

⚠ **Good to know** Manage the student ID like a password — anyone with it can view.

💡 **Tip** Reading the review together the day after class and praising your child boosts their motivation a lot.

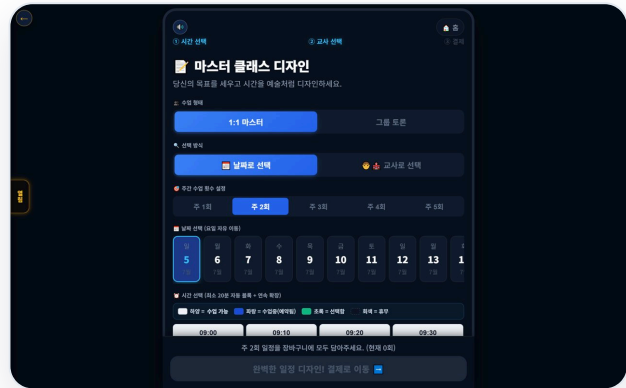

35

[Parents] Payment · Postpone · Refund

Tuition and schedule

Tuition payment, postponing/changing a lesson when something comes up, and the refund policy — useful things for parents to know. It's all handled on the web and auto-calculated by policy.

- 1 **Book/Pay:** choose the lesson type (1:1/group) and count, then pay.
- 2 **Postpone/Change:** if something comes up, request in advance to move it later. (lesson count is preserved)
- 3 **Refund:** auto-calculated per the refund table (100% before the lesson starts, etc.).
- 4 Questions? Contact **support** (phone, email, Kakao).

Key Points

- The earlier you request a postpone, the easier to get the time you want.
- Refunds on discounted lessons are recalculated at list price.
- Overdue/payment notices can arrive via alert-talk/SMS.

 **Good to know** Lessons missed without postponing may be marked absent. Check the policy in advance.

 **Tip** Checking the postpone/refund policy at signup avoids confusion later.

A small clock on screen shows KR Korea time and PH Philippines time together. Our native teachers are in the Philippines, so seeing both times keeps you from mixing up lesson times.

- 1 On the on-screen **dual clock**, see KR Korea and PH Philippines time at once.
- 2 **Drag** the clock to move it anywhere you like.
- 3 **Tap (click)** the clock to go to the home screen.

✓ **Key Points**

- The Philippines is **1 hour behind** Korea (-1 hour).
- You can check booking/entry times in both countries' time.

💡 **Tip** When a lesson time is confusing due to the time difference, this clock clears it up instantly.

37

cn Chinese Pronunciation Coach

Darakwon Chinese Master Lv1–20

You can get coaching not just in English but in **Chinese pronunciation** too! Read sentences along the 'Darakwon Chinese Master' textbook (Lv 1–20) and the AI recognizes your voice and compares it to a native speaker. Characters and pinyin (pronunciation) appear together.

- 1 In the AI voice coach, pick the **CN Chinese** level (or go to the Chinese pronunciation coach).
- 2 Choose a **Master series (1–6, HSK 1–6)** and a unit.
- 3 Read the sentence (**characters + pinyin**) and compare with '**Play native audio**'.
- 4 Practice hard sounds/tones with **repeat and slow (0.85x)**.

✓ **Key Points**

- Characters and pinyin appear together, so it's easy to read.
- The AI recognizes your voice and compares it to a native speaker.
- The learning games hub supports Chinese too.

💡 **Tip** Listen slowly and repeat clearly to nail the four tones.

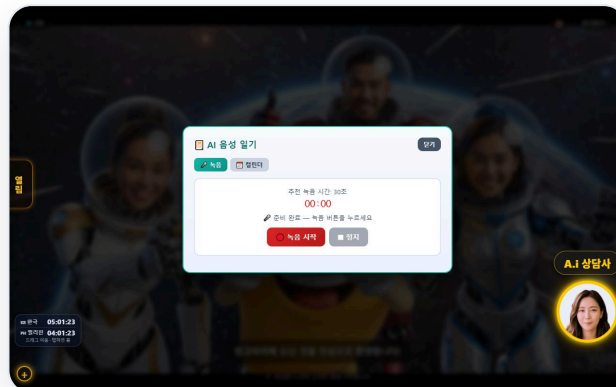

Speak about your day in English and AI corrects it

Say what happened today in English, and AI transcribes your speech, **polishes** the sentences, and leaves a **score and encouragement**. A little every day builds your own English diary!

- 1 On the home menu, tap the **AI Voice Diary** card (next to the English/Chinese pronunciation coach).
- 2 In the **Record** tab, press 'Start recording' and talk about your day in English (about 30 seconds is plenty!).
- 3 Press 'Stop' and AI automatically does **transcribe** → **correct** → **score & encourage**.
- 4 The **Calendar** tab lets you revisit past entries by date.

✓ Key Points

- Turns your spoken English **into text** and rewrites awkward sentences naturally.
- A **score (0–100)** and a **word of encouragement** keep you motivated daily.
- Doing it daily also connects to **attendance streaks and badges**.

⚠ **Good to know** Recording requires you to be logged in. Speaking clearly in a quiet place makes the transcription more accurate.

💡 **Tip** It doesn't have to be perfect. The habit of saying even 'one sentence' a day matters most!

39

**Where to next? (Learning-flow guide)**

Finish one activity and get the next one suggested

When you finish an activity — warm-up, game, class, review, pronunciation — a ‘ **Where would you like to go next?**’ menu pops up. No need to hunt for menus again; just follow the **recommended** (★) item to flow into your next activity.

- 1 **Fully complete** a warm-up, student game, review quiz, class, or step-by-step pronunciation.
- 2 Look for the ‘ **Choose next activity**’ button (or the menu that appears automatically).
- 3 Pick from **Enter Class · AI Warm-up · Review Quiz · Student Games · Replay Recording · Pronunciation**, etc.
- 4 The **recommended** (★) item is a good next step for right now.

 **Key Points**

- Suggested flow: **Warm-up** → **Game** → **Class** → **Review** → **Pronunciation** → **Game**, naturally connected.
- Choosing ‘**Replay Recording**’ instantly replays your last class video.
- Even without playing a game/quiz, the list screen’s ‘ **Go next**’ button opens the menu.

Tip When you're unsure what to do, open this menu to keep today's study flowing smoothly.

Ask the A.i Assistant

The consultant avatar at the bottom-right

Tap the 'A.i Assistant' at the **bottom-right** of the screen to ask anything, anytime. It explains how to use features and where they are, and can **take you straight to the right menu**.

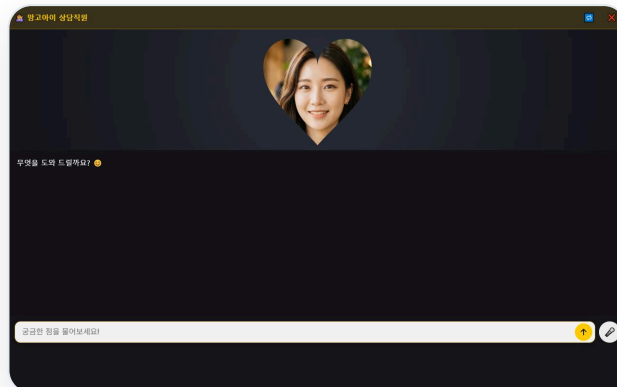

- 1 Tap the **A.i Assistant** icon at the **bottom-right** of the home screen.
- 2 Type your **question** freely (e.g. "Where do I take the review quiz?").
- 3 The assistant **answers** and guides you to the **right menu**.
- 4 You can also **speak** your question using the  mic.

✓ Key Points

- Points you **straight to features** like student games, pronunciation coach, or voice diary.
- Available anytime (nights & weekends too) so you can use everything **on your own**.

 **Good to know** Requests that need a human — billing, operations — are routed to KakaoTalk chat or customer support.

 **Tip** Say what you want to do, like "I want to ○○," and it takes you to that screen.

41

New Classroom Comforts

Hide my face · teacher first · mobile tool dock

The lesson screen got more comfortable. A 🙈 **button hides your own face** for a moment, the **teacher's face now appears first and large** when you enter, and on phones the bottom tools stay tucked away behind a ⋮ **button** — so you can focus on the lesson itself.

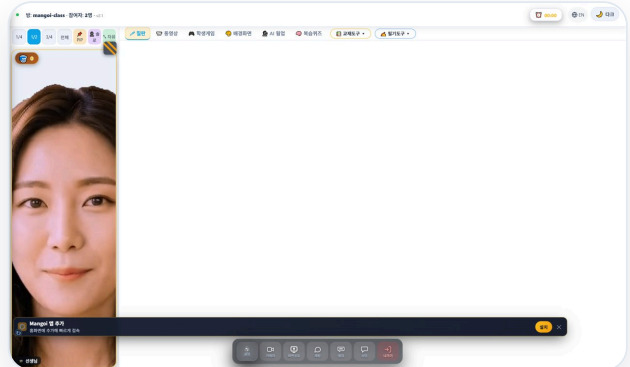

- 1 Tap the 🙈 **button** on your own tile to hide your face for a bit. Tap the 😊 **chip** to bring it back.
- 2 When you enter, the **teacher's face is placed on top, large**, automatically — no hunting.
- 3 On a **phone (portrait)**, the default screen is faces on top and the textbook below.
- 4 The mobile bottom dock opens only when you tap ⋮, keeping the screen roomy.

✓ Key Points

- Hiding your face doesn't turn the camera off — it only **hides it on screen**, so class continues.
- Rotate to landscape and it auto-arranges to **faces left · textbook right**.

⚠ **Good to know** Hide your face only for a moment when you're shy — lessons are much more fun with eye contact!

💡 **Tip** If the screen feels cramped, fold the dock away with the ⋮ button.

Class chat now supports **1:1 private messages (DM)**. Send a message only a specific teacher can see, and share **any file** — **PDF, image, document** — through chat; it appears on the other side as a **download card**.

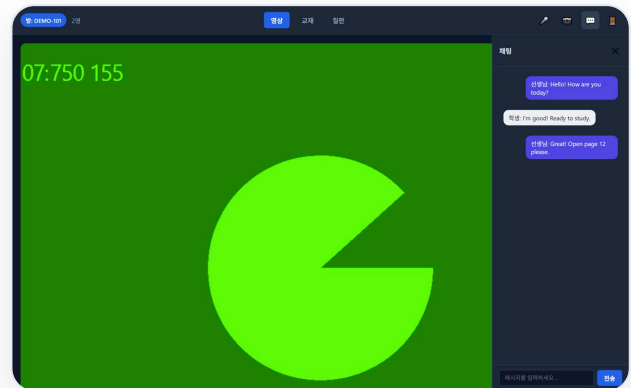

- 1 Open **Chat** from the bottom dock.
- 2 Switch the recipient from **Everyone** to a **teacher's name** to whisper 1:1.
- 3 Use the **file button** to upload a PDF, photo, or document — a download card appears for them.
- 4 Received files are saved with the card's **Save** button.

✓ Key Points

- Private chats are visible **only to the two of you**.
- Homework files and notes get exchanged **in one step** during class.

⚠ **Good to know** Private chats are not stored on the server and disappear after class. Keep important things as files.

💡 **Tip** Perfect for quietly asking a question without interrupting anyone else.

43

🌙 Home Screen: Bright · Dark

Auto by time of day, or pick your own

The home screen now **switches automatically** — bright by day, dark at night. Or use the **Bright / Auto / Dark 3-way chip** to set the mood yourself, anytime.

- 1 Find the 🌙 **theme chip** at the top of the home screen.
- 2 Pick **Bright · Auto · Dark**.
- 3 Leave it on **Auto** and it brightens in the morning and dims at night on its own.

✅ Key Points

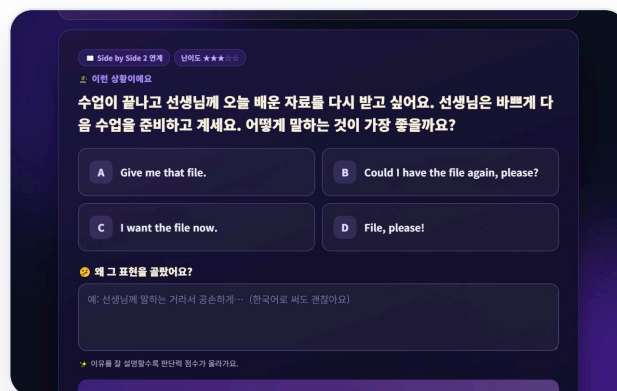

- Late-night studying is **easier on the eyes**.
- Your chosen theme is **remembered next time** you sign in.

💡 **Tip** Dark for bedtime review, bright for a morning warm-up — it changes the mood too!

The AI creates a **situation that could really happen**, and you pick the expression that **fits that situation best** — then write **one line saying why you chose it**. “Give me that!” works with a friend, but “Could I have that, please?” is right for a teacher. Real English ability isn't how much you know; it's **judging which words fit right now**.

- 1 On the student home, open **AI Learning Tools** → **Judgment Training**.
- 2 Read **Here's the situation** and pick one of A–D.
- 3 In **Why did you choose it?**, write your reason. **Your own language is fine**.
- 4 Press **Submit** — the AI scores it and explains **why another option may fit better**.
- 5 Tap **My Growth** (top right) to see your judgment index and its 5 axes.

Key Points

- Every option carries **partial credit** — only a clearly wrong choice scores low.
- **The better you explain your reason, the higher the score** — it trains thinking in words.
- Questions are **linked to your textbook** (e.g. Side by Side 2), so they stay in range.
- Each round comes from a **different topic and angle**, so questions never repeat.

Good to know The AI needs a few seconds to write a question. The next one is prepared while you answer, so it usually appears instantly.

Tip Getting it wrong is fine. **Writing why you thought so** is the whole point of this training.

45

Grammar Pizza Master (word order)

Stack the toppings in sentence order

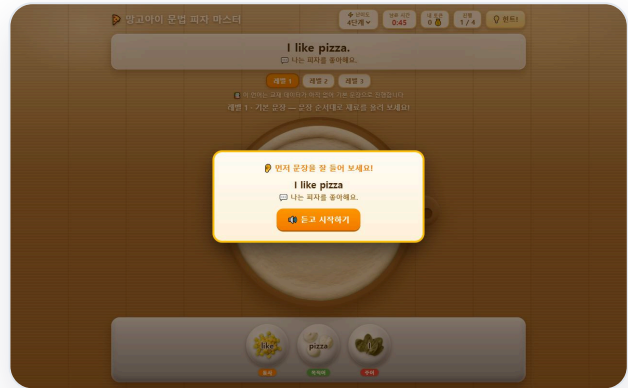

Words arrive as **pizza toppings**. Listen to the sentence first, then **place the toppings in sentence order** to finish the pizza. Subject, verb and object are colour-coded, so **English word order sinks in visually**.

- 1 Open **Grammar Pizza Master** in the games hub.
- 2 Press **Listen and start** to hear the sentence first.
- 3 Place the toppings below **in sentence order** onto the pizza.
- 4 Stuck? Tap **Hint!** at the top right.
- 5 Sentences grow longer from Level 1 → 2 → 3.

✓ Key Points

- Each topping is labelled **subject / verb / object**, so word order becomes natural.
- If a **textbook is assigned**, sentences come from that book.
- A time limit keeps the drill **fast and focused**.

Tip Read each word aloud as you place it — the order sticks far faster.

Stack word blocks and complete two lines

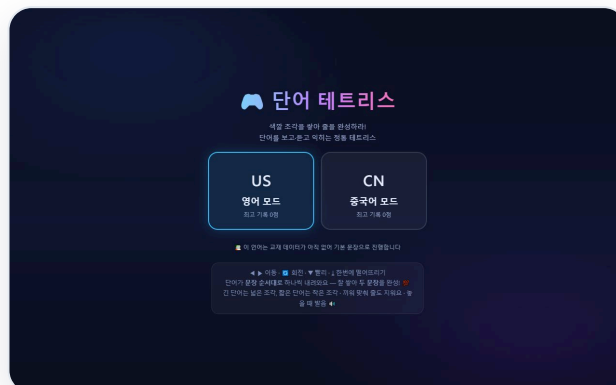

Classic Tetris with words on top. Words fall **one at a time in sentence order** — stack them well and clear a line to complete the sentence. Long words are wide blocks, short words are small ones; fitting them together makes the vocabulary stick.

- 1 Open **Word Tetris** in the games hub.
- 2 Choose **US English mode** or **CN Chinese mode**.
- 3 Use ◀ ▶ to move, **rotate**, ▼ to speed up, ↓ to drop instantly.
- 4 Each time a block lands you **hear the word** — repeat it aloud.

✓ Key Points

- **English and Chinese** modes play exactly the same way.
- Your **high score is saved** so you can beat it next time.
- Tidied up so nothing is cut off on a phone screen.

Tip Lay the long words down low first — clearing lines gets much easier.

47

Tank Battle · Language Ace

Destroy in word order · action learning

Two new action-style learning games. In **Tank Battle** you destroy enemy tanks **in the sentence's word order**; in **Language Ace** you fly and answer as you go. Hands stay busy, so **focus is high and repetition never feels dull**.

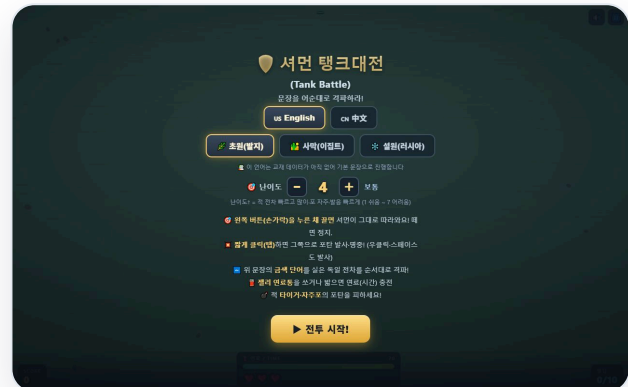

- 1 Open  **Tank Battle** or  **Language Ace** in the games hub.
- 2 For Tank Battle pick **English / 中文**, a **battlefield (grass · desert · snow)** and **difficulty 1–7**.
- 3 **Hold and drag** the left button to move; **short tap** fires in that direction.
- 4 Destroy the tanks carrying the **gold words** of the sentence above, **in order**.
- 5 Pick up **jelly fuel cans** to gain more time.

✓ Key Points

- Higher difficulty means faster enemies **and faster speech** — listening practice included.
- If a **textbook is assigned**, its sentences are used.
- Fully playable by touch on phones and tablets.

 **Good to know** These games are motion-heavy. On a slower device, lower the difficulty.

 **Tip** Games work best as **review after the lesson**, not before it.

You can now **log in with your face or fingerprint** in the Mangoi **Android app**. Register once and you're in with a glance or a touch — no ID and password to type. Your secret **never leaves your phone**, so it's safer too.

- 1 Update the app to the **latest version (v1.9 or later)**.
- 2 Log in once with your ID and password as usual.
- 3 When prompted, tap **Register passkey** and enrol your face or fingerprint.
- 4 From then on, log in **with your face or fingerprint**.

✓ Key Points

- The credential stays **only on your phone** and is never sent to the server.
- Changed phones? Just **register once more** on the new device.
- Devices without passkey support keep working with **the usual ID + password**.

⚠ **Good to know** This is an **app-only** feature. In a web browser, log in the usual way.

💡 **Tip** Younger students forget passwords constantly. Registering a passkey cuts those requests dramatically.

49

Your speaking isn't cut off any more · a smarter AI friend

It waits even when you speak slowly

The microphone used to shut off while you were still thinking mid-sentence — that's fixed. The **waiting time now adapts to the situation**, and if your phone kills the microphone by itself it **restarts automatically**. The **AI friend (Mango)** no longer repeats itself, **asks again** when your speech is cut off, and actually **slows down** when you say "speak slowly".

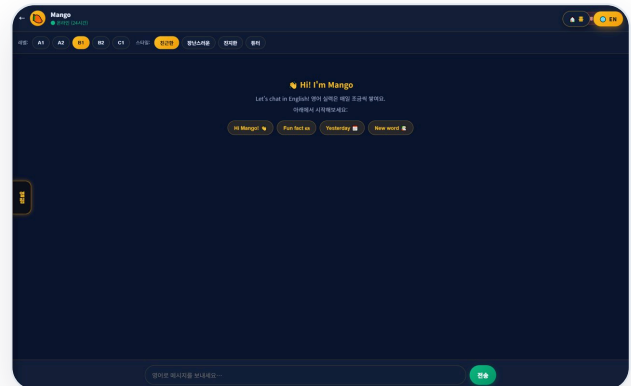

- 1 Press the **button** in Speech Coach, AI Warm-up or AI Friend and talk.
- 2 Pausing to think is fine — **it waits until you're really finished**.
- 3 Say **"Please speak slowly"** to the AI friend and it will slow down.
- 4 Choose the voice: **male · female · alternating**.

✓ Key Points

- Sudden microphone cut-outs on Android phones now **recover automatically**.
- The AI friend **never repeats the same sentence**.
- If your speech is clipped, the AI asks **"Did you mean this?"**

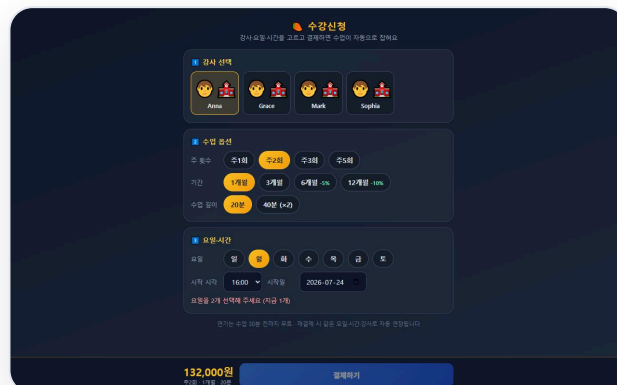

⚠ **Good to know** Noisy surroundings hurt recognition. Speak clearly in a quiet place.

💡 **Tip** Using an earphone microphone raises recognition accuracy noticeably.

You can now **choose your teacher, days and time yourself and pay** — and **your whole schedule is created automatically**. No more phoning after payment to arrange a timetable. If a slot already clashes with another lesson, **you're told before you pay**.

- 1 Open the **Enrolment** screen.
- 2 ① **Choose a teacher.**
- 3 ② **Lesson options** — times per week (1–5), term (1 / 3 / 6 / 12 months), length (20 or 40 min).
- 4 ③ **Days & time** — pick as many days as your weekly count, then the start time and start date.
- 5 When  **Available** appears, press **Pay** at the bottom.
- 6 Once payment completes, **every session is created at once**. Check it on My Page.

Key Points

- Longer terms are cheaper — **6 months –5%, 12 months –10%**.
- If the slot is taken, an  appears so you can change it before paying.
- Postponing is **free up to 30 minutes before** the lesson; renewing **extends the same day, time and teacher**.

 **Good to know** Lessons are created after payment is confirmed. Wait a moment right after paying and the schedule will appear.

 **Tip** Avoid days with school commitments. Choosing well up front beats rescheduling later.

51

🌊 Rescue Voyage (Mango Rescue Voyage)

Rescue sea friends while you learn words

Swept up by a storm, **word friends have fallen into the sea — steer your boat and lift them out.** Rescue one and its **native pronunciation and meaning are revealed**; along the way, dodge sea creatures like **sharks, turtles and dolphins.** After rescuing as many as you can in time, a **listen-and-repeat sentence mission** follows, built from the words you saved.

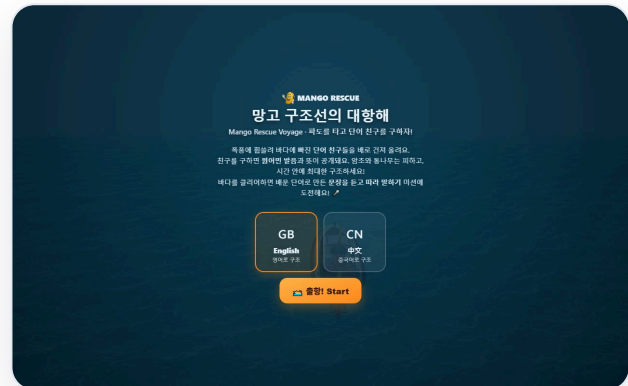

- 1 Open 🌊 **Rescue Voyage** in the games hub.
- 2 Pick **English / 中文 mode** and press **Start**.
- 3 Steer your boat to the **word friends** in the water and lift them out.
- 4 Avoid the **sharks, turtles and dolphins.**
- 5 When rescue ends, take on the **repeat-the-sentence mission**.

✅ Key Points

- Each rescue plays the **native pronunciation**, so it's listening practice too.
- English and Chinese modes play the same way.
- Lifelike sea creatures make it more immersive.

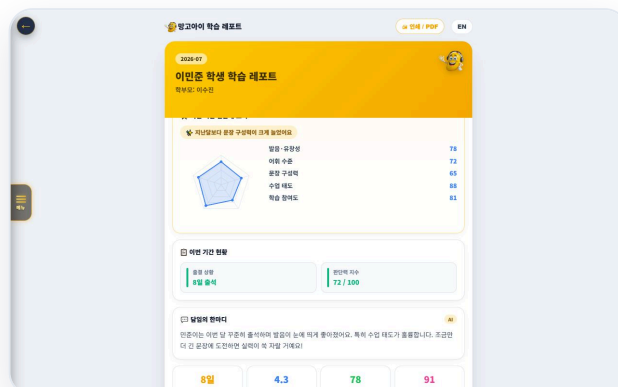

⚠️ **Good to know** This game is motion-heavy. On a slower device, take a short break if it lags.

💡 **Tip** The sentence mission from your rescued words is the real review — repeat it aloud, clearly.

A report card that shows your child's month across **five axes of a pentagon graph** — **Pronunciation & Fluency / Vocabulary / Sentence Building / Class Attitude / Participation** — followed by attendance, judgment index and a teacher's note. The **Print/PDF button** up top outputs it as-is or saves a file.

- 1 Open the **report link** you received on KakaoTalk.
- 2 Check the balance of the five strengths in the **pentagon graph** at the top.
- 3 Read **This Period's Status** (attendance, judgment) and the **Teacher's Note**.
- 4 Note the **How You Can Help at Home** tips.
- 5 To keep a paper copy, press  **Print/PDF** at the top.

Key Points

- Only axes with real records are filled in — no invented numbers.
- Compiled **every two months**, so the trend is easy to read.
- It all fits one screen — **a single printed page**.

 **Good to know** The report fills in as learning records accumulate. In a low-activity month some axes may look empty.

 **Tip** An evenly large pentagon means balanced learning. A dented axis is this month's challenge.

53 Student Features at a Glance

Menu	What it does	When to use	What you gain
Video lesson	1:1 native lesson	At set lesson times	Speaking skill ↑
Class toolbar	Video·materials·board·chat	During class	Tool mastery
AI warm-up	Pre-class warm-up	5 min before class	An easy start
AI voice coach	Record & fix pronunciation	Daily self-study	Accurate sounds
Games	Review by playing	After class	Points·memory
Vocabulary	Memorize word cards	On the go	Vocabulary ↑
AI friend	Free English chat	When bored	Speaking confidence
Streak	Daily study flame	Every day	Badges·habit
Level test	Assess your level	Start & periodically	Tailored lessons

Skills Each Game Practices

Keep it up and... (example points)

54 ? Frequently Asked Questions (FAQ)**Q. What do I use to connect?**

A. Phone, tablet and PC all work. We recommend Chrome or Edge. No app install needed.

Q. How do I enter a lesson?

A. Tap the invite link or lesson card, enter your name, press 'Enter', then 'Allow' camera and mic.

Q. No sound or video.

A. Check that you pressed 'Allow' for camera/mic, and reopen in Chrome/Edge. Inside KakaoTalk, choose 'open in another browser'.

Q. How do I see the textbook in class?

A. Press the 'Materials' tab at the top to see what the teacher uploaded. Switch board/chat with tabs too.

Q. What are points for?

A. Use points earned from studying and games to get rewards in the shop, roulette, etc.

Q. English feels hard.

A. The AI friend and voice coach are fine with mistakes. A level test matches your level so it gets easier.

✅ Pre-class Checklist

- ☐ Did you connect with Chrome/Edge?
- ☐ Did you 'Allow' the camera and mic?
- ☐ Is your face well-lit and visible?
- ☐ Did you connect earphones (a headset)?
- ☐ Did you warm up with the AI before class?
- ☐ Are your textbook and pen ready?
- ☐ Did you enter 5 minutes before class?

55 · Conclusion

Conclusion · Your Mangoi Routine — Easy on Your Own!

Now you know how to use Mangoi! Finally, here's one page on how to study through the day and the habits that make you improve fast. Keep just this page in mind and you can study on your own with ease.

The Flow at a Glance

Before class (5–10 min)

My Page →  Pre-check camera/mic, warm up with the  AI warm-up

Enter class

 Enter Class button → type your name → 'Allow' camera and mic

During class

 Answer with your mic ·  ask in chat ·  write on the board together ·  earn praise points

After class

 Review quiz 'Yes' →  star rating (+10P) →  review today's words with a game

A little every day

 Keep your attendance flame ·  vocabulary ·  AI friend ·  voice-coach pronunciation

★ Key Principles

- 1 **A little every day** — even short, daily practice keeps your attendance flame alive.
- 2 **Speak a lot** — mistakes are fine! The more you say aloud, the faster you grow.
- 3 **Review right after class** — a quiz/game right away doubles what you remember.
- 4 **Have fun with games** — today's words appear in games, so you review while playing.
- 5 **Check what you don't know** — don't skip unknown words; check meaning and pronunciation.

Remember

- Connect in **Chrome/Edge** and be sure to 'Allow' **camera-mic** (inside KakaoTalk, open another browser)
- **Points** build from study, games and in-class  praise — spend them in the **shop/roulette**
- If English is hard, the **AI friend/voice-coach are fine with mistakes**; use the **level test** to match your level
- Study rhythm: **'Warm-up → Class → Praise → Review'**!

The friend who keeps at it a little every day ends up best at English. Don't fear mistakes — speak all you want. Your Mangoi friends are always cheering for you. You've got this today too! 

Let's grow together with Mangoi!
