

Admin User Guide

For HQ / office staff · Admin page mangoi.ai/admin

As of 2026-10-09 · current screens

Before you start

- The address is **<https://mangoi.ai/admin>**. (The old mangoi.co.kr site is a different server and does not have these features.)
- All class times are **Korea time (KST)**. The Philippines is 1 hour earlier — KST 19:30 = PH 18:30.
- What you can do depends on your account. **Cancelling classes, splitting weekly classes, registering students and payroll** need an HQ account. Teacher, branch and agency accounts are refused by the server.
- The students, teachers (Emma Kim, Teacher Anna ...) and numbers in the screenshots are **sample data**. Your screen shows real ones.
- Red box = the place to press.

Contents

1 Getting in · Finding your way

Log in, and find any screen with the left menu or search.

1-1 Log in

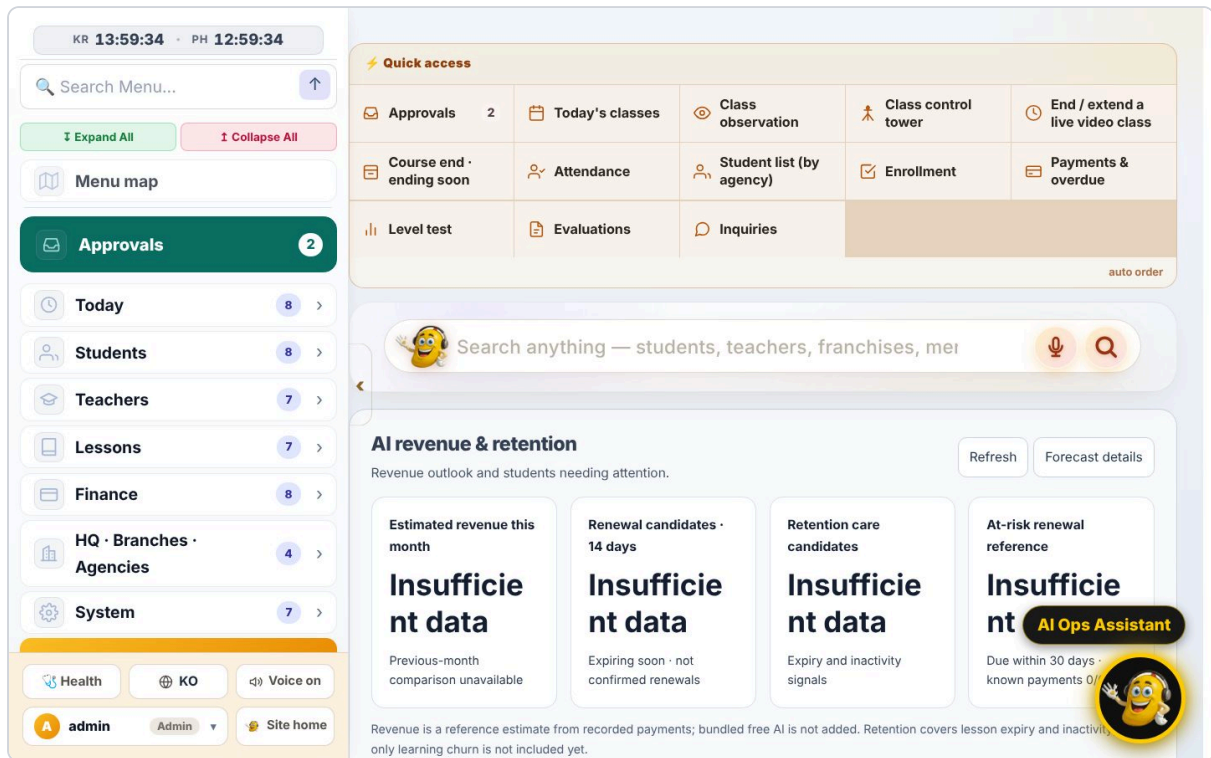

- Open **mangoi.ai/admin**.
- Enter your ID and password and press **Log in**. If you registered a fingerprint / Face ID, use the green button.
- Links opened inside KakaoTalk may lose the login — open them in Chrome.

The image shows a mobile application interface for 'Admin Login'. At the top, there is a yellow circular icon with a key and a person. Below it, the title 'Admin Login' is displayed in white. A subtitle states: 'Data scope is applied automatically based on your role.' The login form consists of two main fields: 'Username' with a placeholder 'Enter ID' and 'Password' with a masked input (four dots) and a toggle eye icon. Below these fields are two checkboxes: 'Remember ID' and 'Forgot Password'. A large blue button with a green checkmark and the text 'Log In' is positioned below the checkboxes. Below the blue button is a green button with a yellow smiley face icon and the text '지문 · Face ID 로 로그인' (Login with Fingerprint / Face ID). At the bottom, there is a link that says 'Or sign in with a social account' followed by three partially visible buttons (yellow, green, and white). In the top right corner, there is a 'Staff Greeting' notification with a play button and a 'Listen Again with Sound' button.

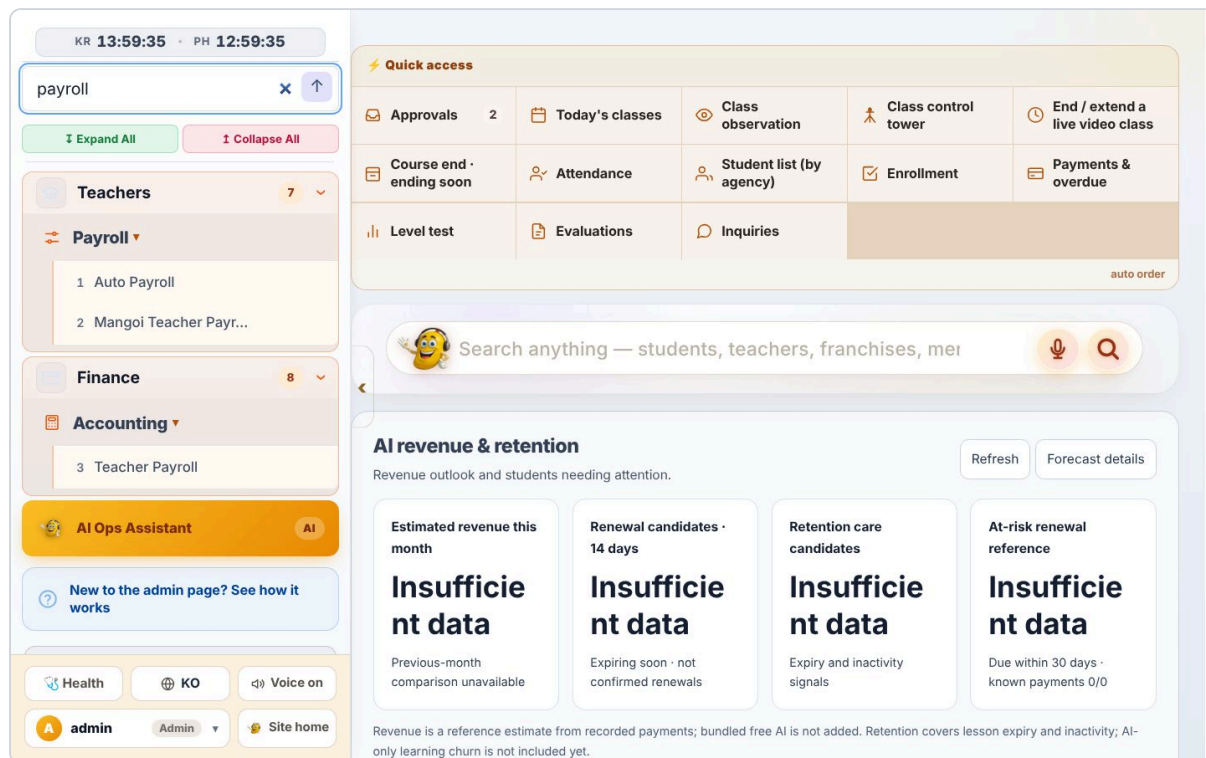

1-2 Home screen

- The **Frequently used** tiles at the top jump to Today's classes, Approvals, Enrollment and more.
- The **search box** in the middle finds students, teachers, academies and menus.
- You can also ask the **AI assistant** (bottom right) in words, e.g. "show today's classes".

1-3 Left menu (7 groups) and menu search

- Groups: **Today** · **Students** · **Teachers** · **Lessons** · **Finance** · **HQ/Branches/Agencies** · **System**. **Approvals** is pinned on top.
- Type in  **Menu search** (top left), e.g. “payroll”, to filter the menu.
- Items with ► open sub-items.
- At the bottom: **EN/KO** language, and **admin** ▼ for password change and logout.

The screenshot displays the admin dashboard interface. On the left, a vertical menu is shown with a search bar containing the text "payroll". Below the search bar are buttons for "Expand All" and "Collapse All". The menu items are grouped into sections: "Teachers" (7 items), "Finance" (8 items), and "AI Ops Assistant" (AI). The "Teachers" section is expanded, showing "Payroll" with sub-items "1 Auto Payroll" and "2 Mangoi Teacher Payr...". The "Finance" section is also expanded, showing "Accounting" with sub-item "3 Teacher Payroll". At the bottom of the menu are buttons for "Health", "KO", "Voice on", and "admin" (with a dropdown arrow). The main content area features a "Quick access" section with icons for "Approvals", "Today's classes", "Class observation", "Class control tower", "End / extend a live video class", "Course end - ending soon", "Attendance", "Student list (by agency)", "Enrollment", "Payments & overdue", "Level test", "Evaluations", and "Inquiries". Below this is a search bar with the text "Search anything — students, teachers, franchises, mer" and a microphone icon. The "AI revenue & retention" section is visible, showing "Revenue outlook and students needing attention." and four cards: "Estimated revenue this month", "Renewal candidates · 14 days", "Retention care candidates", and "At-risk renewal reference". Each card displays "Insufficient data" and a brief description of the issue. The bottom of the dashboard includes a footer with the text: "Revenue is a reference estimate from recorded payments; bundled free AI is not added. Retention covers lesson expiry and inactivity; AI-only learning churn is not included yet."

2 Student list · Adding a student

Find students, create a new student account, and open the student detail page.

2-1 Open the student list

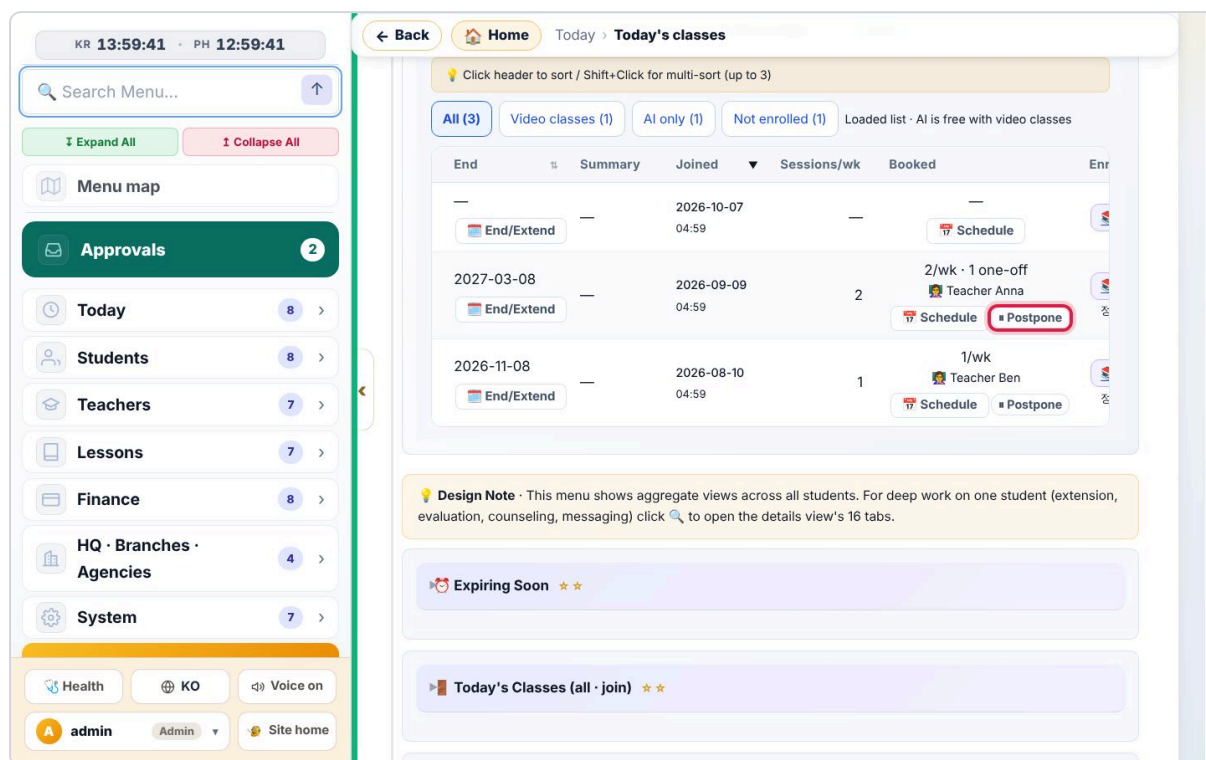

- Menu **Students** › **Students** → **Load**.
- Search by name, ID or academy, or pick one academy from the list.
- The chips (All · Video class · AI only · Not enrolled · Check needed) filter the kind of student.
- Click a column header to sort; Shift+click to sort by several columns.

The screenshot displays the 'Student List' interface. On the left is a sidebar menu with options: Search Menu..., Expand All, Collapse All, Menu map, Approvals (2), Today (8), Students (8), Teachers (7), Lessons (7), Finance (8), HQ · Branches · Agencies (4), and System (7). At the bottom of the sidebar are buttons for Health, KO, Voice on, and a user profile for 'admin'. The main content area has a top bar with 'Back', 'Home', and 'Today's classes'. Below this is the 'Student List' header with a 'Load' button and a search bar. A dropdown menu shows 'All Agencies/Academie:'. Below the search bar are buttons for 'Search academi', 'Download CSV', and 'Bulk Assign Textbook'. A row of buttons includes '+ Add Student', 'Edit Info', 'Show hidden', and '3 students · D1'. A tip says 'Click header to sort / Shift+Click for multi-sort (up to 3)'. Below this are filter chips: 'All (3)', 'Video classes (1)', 'AI only (1)', and 'Not enrolled (1)'. A note says 'Loaded list · AI is free with video classes'. The main table has columns: ID, Name, Pay Type, Start, and End. It lists three students: Mia Choi (Not enrolled, B2C, 2026-10-07), Emma Kim (Video classes, B2C, 2026-09-09 to 2027-03-08), and Leo Park (AI only, B2B, 2026-08-10 to 2026-11-08). Each row has an 'End/Ext' button.

ID	Name	Pay Type	Start	End
mia2026	Mia Choi Not enrolled	B2C	2026-10-07	End/Ext
emma2026	Emma Kim Video classes	B2C	2026-09-09	2027-03-08 End/Ext
leo2026	Leo Park AI only	B2B	2026-08-10	2026-11-08 End/Ext

2-2 Row buttons sit in the related columns

- Click the **student name** to open the detail page;  next to it edits contacts.
- Under **End date:**  **End/Extend**.
- The **Bookings** column shows “2/wk · 1 one-off” and the teacher, with  **Schedule** and  **Postpone** (only when there are bookings).
-  **Enrollment** pre-fills an enrollment form for that student.
- (The old “Details” column was removed on 2026-10-09.)

Expiring Soon ★★

Today's Classes (all · join) ★★

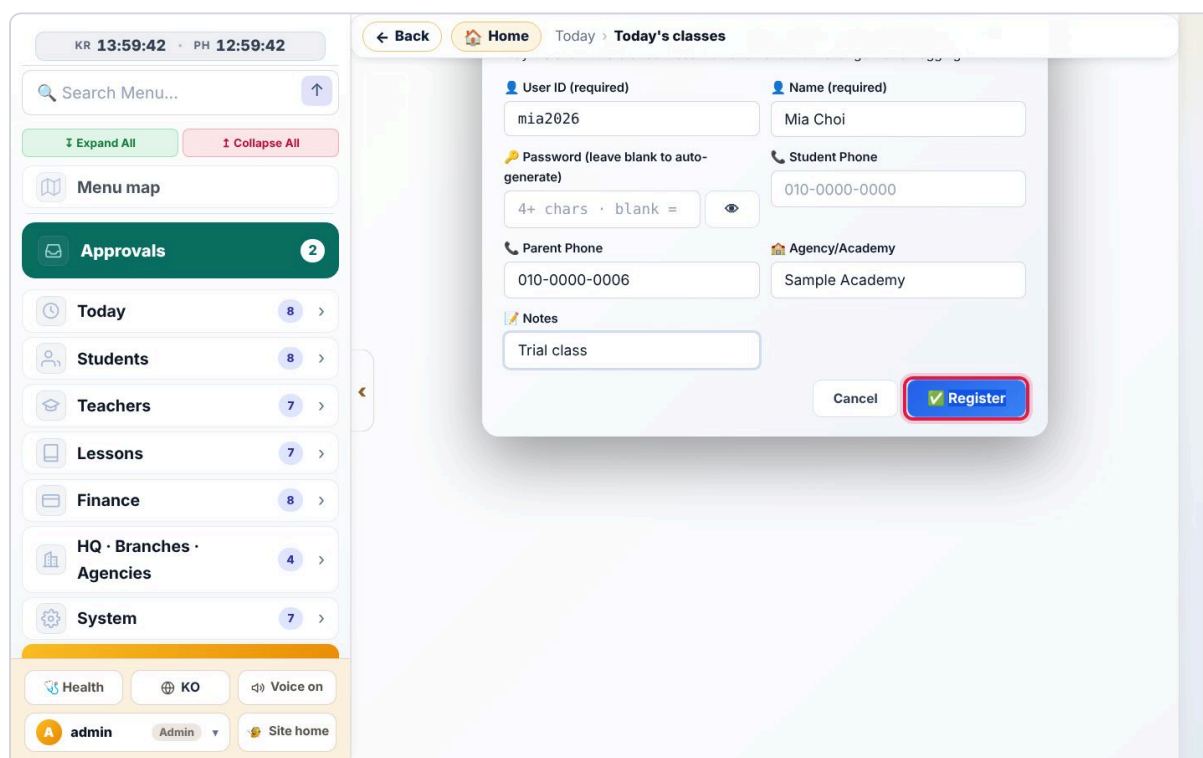

2-3 Press «+ Add Student»

- Press **+ Add Student** above the list.
- Search the name first. If the student already exists, do not create a second account.

2-4 Fill in the student's information

- **User ID** (required): 4–20 letters/numbers/underscore, small letters.
- **Name** (required). Leave **Password** blank to get a temporary one.
- Please enter the **Parent phone** — class reminder texts go there.
- Pick the **Agency/Academy** from the list. Press **Register**.

2-5 The temporary password is shown once

- Copy the **temporary password** now and send it to the parent.
- It is not shown again after you close the window.

The screenshot shows the Mangoi registration interface. On the left is a sidebar menu with options like 'Menu map', 'Approvals', 'Today', 'Students', 'Teachers', 'Lessons', 'Finance', 'HQ · Branches · Agencies', and 'System'. The main area is titled 'Today's classes' and contains a registration form. The form fields include: User ID (required) with value 'mia2026', Name (required) with value 'Mia Choi', Password (leave blank to auto-generate) with a strength indicator '4+ chars · blank =', Student Phone (010-0000-0000), Parent Phone (010-0000-0006), Agency/Academy (Sample Academy), and Notes (Trial class). A green confirmation box is overlaid on the form, stating: 'Mia Choi(mia2026) account created. Temporary password — shown only on this screen mango4821. Pass it on to the student/parent and have them change the password after logging in.' The box has 'Cancel' and 'Register' buttons at the bottom right.

2-6 Student detail page

- Summary on the left, tabs on top.
- Tabs: Overview · Enrollment · **Schedule** · End/Extend · Payment · Attendance · Evaluations · Contacts · Textbook · Recordings ...
- Adding, postponing and changing classes is all done in the **Schedule** tab (next chapters).

The screenshot shows the Mangoi Student Detail page for a student named Emma Kim (@emma2026). The page has a top navigation bar with 'Mangoi Admin > Student Details', a date filter 'Last 30 days', and buttons for 'Refresh', '한국어', 'Students', 'Game Report', 'Dashboard', and 'Homepage'. The left sidebar shows the student's profile with a green 'OK' button and a list of details: Student ID (emma2026), Signup (2026-09-09), End Date (2027-03-08), Classes / wk (—), Booked (—), Payment (—), Branch (Sample Academy), Sessions (0 (period)), Avg. Focus (—), Rewards (0), and Pronunciation (result) (—). The main area has tabs for 'Overview', 'Enrollment', 'Schedule' (highlighted with a red box), 'End/Extend', 'Tuition', and 'Classes'. Below the tabs are various metrics: SESSIONS (0, 30-day), TOTAL ACTIVE (0s, Total 0s), AVG. FOCUS (0 samples), ACTIVE DAYS (0, /30d), DISCONNECTS (0, period sum), and OVERDUE (0, 0 payments). At the bottom is a 'DAILY ACTIVITY (SESSIONS · FOCUS)' section with a bar chart showing 'Sessions per day'.

3-1 Today's class table

- Menu **Today** › **Today's classes** → **Load**.
- The chips count classes by status: Joinable ·  Postponed · Ended.
- Change the date to see another day. Filter by source (Mangoi/Cafe24), academy or teacher.
- Cafe24 classes have no Mangoi room, so you cannot join or observe them.

Today's Classes (all · join)☆☆

Live = you can join now.  Join enters as a real participant (not observation) — use it to cover a class when the teacher can't get in.

Rows marked «LMS» run on cafe24. They have no Mangoi room, so there is no join/observe button — observe those from cafe24.

The  button next to the teacher = assign a substitute. Use it when a teacher is on leave or sick — only this occurrence changes, and weekly recurring classes revert to the original teacher next time. Branch and agency accounts can only change classes of their own students.

3-2 Actions on one row

-  **Join (visible)** enters the class (students see you).
-  **Observe** watches invisibly.  **Invite link** copies the room link.
-  **Postpone/Change** (red box) postpones, changes or cancels this one class — the same window as chapter 5.
-  **Message** texts the student.
- Postponed classes show “ Postponed — no new date” and a  **New date** button.

The screenshot shows the Mangoi app interface. On the left is a sidebar menu with options like Approvals, Today, Students, Teachers, Lessons, Finance, HQ · Branches · Agencies, and System. The main area displays 'Today's classes' for the date 2026-10-09. It lists three classes: Emma Kim (Open), Leo Park (Ended), and Mia Choi (Postponed). Each class entry has a set of action buttons: Join (visible), Observe, Invite link, Move, and Message. The 'Move' button for Emma Kim is highlighted with a red box. The bottom of the screen shows a status bar with 'admin' and 'Site home' buttons.

4

Adding classes (booking · enrollment)

Two ways: ① from the student detail page ② with an enrollment form (many students).

4-1 Student detail › Schedule

- The **Next class** card shows date, time and teacher.
- A weekly pattern shows as one line, e.g. “2x a week · Mon·Wed 19:30”, with **date chips** for the next 14 days below.
- Each chip shows the teacher’s name, so substitutes are easy to see.

The screenshot shows the Mangoi Admin interface for a student named Emma Kim (@emma2026). The left sidebar contains student information: Student ID (emma2026), Signup (2026-09-09), End Date (2027-03-08), Classes / wk (—), Booked (—), Payment (—), Branch (Sample Academy), Sessions (0 (period)), Avg. Focus (—), Rewards (0), and Pronunciation (result) (—). The main content area displays the 'Booked class schedules' section. It shows a 'Next class' card for 'Regular class' on 10/12(Mon) 19:30 with Teacher Anna, lasting 20 minutes. Below this, a '2x a week · Mon·Wed 19:30' regular class is shown, starting from 2026-09-19. A list of date chips for the next 14 days is displayed, each with a teacher name: 10/12(Mon) 19:30 (Teacher Anna), 10/14(Wed) 19:30 (Teacher Anna), 10/21(Wed) 19:30 (Teacher Anna), 10/12(Mon) 20:10 (Teacher Ben), and 10/19(Mon) 19:30 (Teacher Anna). A 'Make-up' option is also visible. The 'Show by weekday · postpone / change (2)' link is present. At the bottom, there is a '+ Register Class' section with a dropdown for '정규수업 (매주) / Regular (weekly)', checkboxes for days of the week, a start date of 10/09/2026, a start time of 07:30 PM, minutes (20), instructor (— 지정 안 함 / Not s), and place (전체 / All (3)). A 'Register' button is at the bottom right.

4-2 Add a regular (weekly) class

- In **+** Add class, set **Type = Regular (weekly)**.
- Tick the **days** (e.g. Mon + Wed), the **start date**, **start time (KST)** and **minutes** (usually 20).
- Pick the **teacher**. **Place (All/Home/Office)** narrows the list; teachers who left are hidden by default.
- Press **Add**. If it warns about a clash, check that teacher's schedule first.
- Teacher and student then join the **same room automatically**, no room code.

The screenshot shows the Mangoi Admin interface for a student named Emma Kim (@emma2026). The left sidebar contains student details and a list of metrics. The main area displays the 'Add Class' form, which is highlighted with a red box. Below the form is a calendar view for the week of October 4 to October 10, 2026.

Student Details:

- Student ID: emma2026
- Signup: 2026-09-09
- End Date: 2027-03-08
- Classes / wk: —
- Booked: —
- Payment: —

4-4 Enrollment form (many students at once)

- Menu **Students** > **Enrollment** → + **Add enrollment**.
- One row per student: ID · level · priority (day/time or teacher) · days · time · length · start date · period · parent phone.
- + **Add row**, then ☒ **Register all**. You can also download an Excel/Word/Kakao form, fill it in and upload it.
- Registered rows are confirmed automatically and classes are created for the **whole period** (6 months = 6 months of classes).
- Dates where the student already has a class at that time are skipped and reported.

The screenshot shows a web application interface for managing enrollments. On the left is a sidebar menu with options: Search Menu..., Expand All, Collapse All, Menu map, Approvals (2), Today (8), Students (8), Teachers (7), Lessons (7), Finance (8), HQ · Branches · Agencies (4), and System (7). At the bottom of the sidebar are buttons for Health, KO, Voice on, and a user profile for 'admin'. The main content area is titled 'Students > Enrollment'. It features a 'Back' button, a 'Home' button, and a 'Students > Enrollment' breadcrumb. Below this is a section for 'Enrollments' with a dropdown arrow. A '+ Add Enrollment (single or multiple at once)' button is visible. The form itself is for a single student (ID: user001) and includes fields for Type (Level, Trial, Regular), Matching priority (Day-time first), 1:1 or group, Days (Mon-Sat), Time (10:30 or Mon 7:30, Wed), Class length (20min), Start date (mm/dd/yyyy), Class period (select), Guardian phone (010-0000-0000 optional), and buttons for Today, Tomorrow, Next Mon, and Next 1st. At the bottom of the form are buttons for '+ Add row', 'Register all' (checked), and 'Download Excel-Word after registering'.

4-5 Enrollment list

- Status: Pending · Confirmed · Active · Cancelled · Ended.
- ► **Not confirmed** /  **Follow-up** shows the confirmation steps (link student, assign teacher, create classes).
- For  **Cancel** and  **Restore** see chapter 6.

5

Postponing · Changing classes

«Postpone» = move just this one class. «Change» = from this class on, every time. The same window opens from everywhere.

5-1 Way in ① date chips

- In Student detail >  Schedule, press a **date chip**; the actions open below.
- One-day class:  **Postpone** ·  **Change** · **× Cancel**.
- Weekly class: “... — **this day only**” — only that week changes, other weeks stay.
-  **Split by date** turns a weekly pattern into separate dated classes (HQ account).

The screenshot shows the Mangoi Admin interface for a student named Emma Kim (@emma2026). The left sidebar contains student information and a list of actions: Student ID, Signup, End Date, Classes / wk, Booked, Payment, Branch, Sessions, Avg. Focus, Rewards, and Pronunciation (result). The main area displays the student's booked class schedules. A specific class is highlighted with a red box, showing the date chip '10/12(Mon) 19:30' and the teacher 'Teacher Anna'. Below the date chip, there are buttons for 'Postpone', 'Change', '× Cancel — this date', 'Split into dated classes', and 'Change weekly'. A note explains that for a weekly class, these actions first split it into dated classes (until the enrollment end, or 12 weeks; HQ accounts), then handles only this date. The interface also includes a 'Register Class' section with a category dropdown set to '정규수업 (매주) / Regular (weekly)'.

5-2 Way in ② weekly rows

- Open **By weekday · Postpone/Change** ▼: each row has **Postpone** and **Change**.
- They list the next 28 days of classes; pick a date to open the same window.
- To change the weekly time itself use **Change weekly**.

The screenshot shows the Mangoi Admin interface. On the left is a sidebar with a student profile for Emma Kim (@emma2026) and a list of metrics: Student ID, Signup, End Date, Classes / wk, Booked, Payment, Branch, Sessions, Avg. Focus, Rewards, and Pronunciation (result). The main area displays a class registration form for a 'Regular' class. It shows the class details: Teacher Anna, started 2026-09-19, 19:30, 20 min, Active. Below this is a 'Make-up' section for Teacher Ben, 20:10, 20 min, Active. The form includes a 'Register Class' section with a category dropdown (정규수업 (매주) / Regular (weekly)), a 'Days of the week' section with checkboxes for Sun, Mon, Tue, Wed, Thu, Fri, Sat, a 'Start date' field (10/12/2026), a 'Start' time field (08:10 PM), a 'Minutes' field (20), an 'Instructor' dropdown (Teacher Ben), and a 'Place' dropdown (전체 / All (3)). A 'Register' button is at the bottom. Below the form is a calendar view for Oct 4 - Oct 10, 2026, with a 'Today' button and a 'Week' button. A note states: '* The end date is the regular end date. Postponed / make-up / changed classes may run after it.'

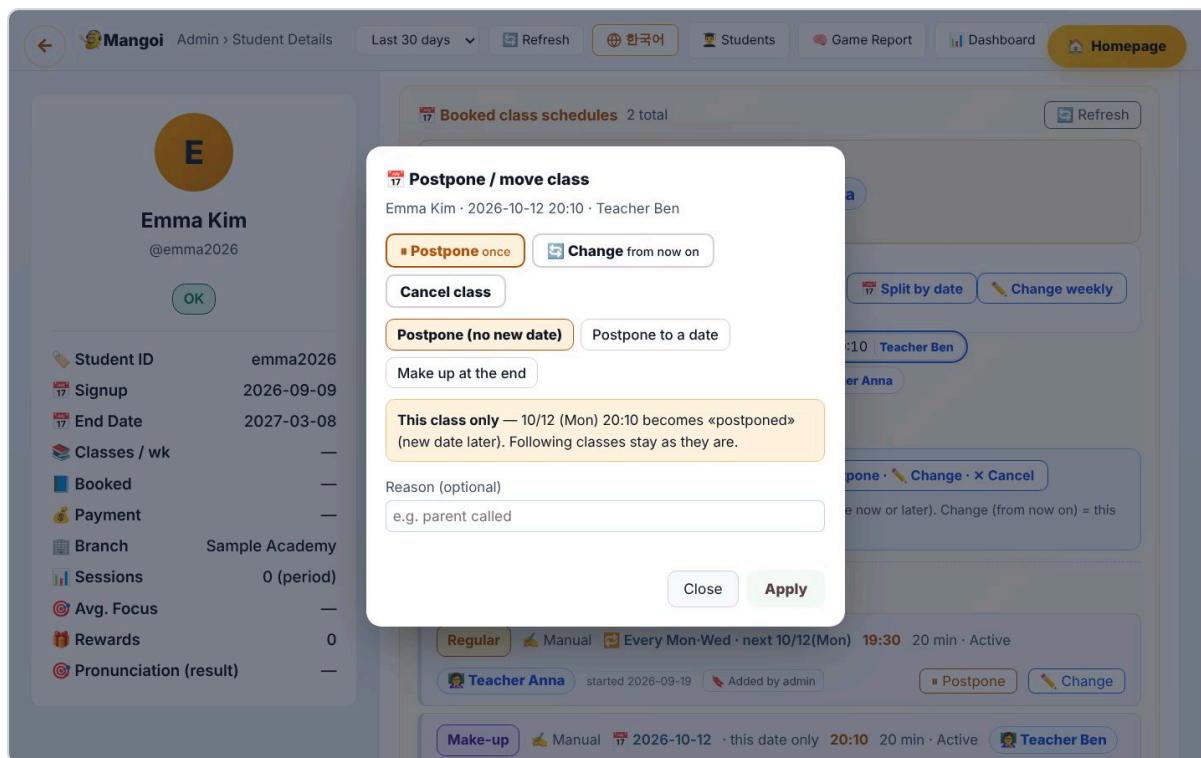

5-3 Way in ③ student list · today's classes

- **Postpone** in the student list and **Postpone/Change** in Today's classes open the same picker.
- “weekly — split first” means that day is separated first, then handled.
- Cafe24 weekly classes must be changed in Cafe24 (the nightly sync would undo it here).

The screenshot shows the Mangoi Admin interface with a 'Postpone / change / cancel' modal open. The modal title is 'Postpone / change / cancel' and it says 'Emma Kim (emma2026) · Next 28 days — tap the class to change.' The modal lists the following classes: 10/12 (Mon) 19:30 · Teacher Anna weekly — HQ account only, 10/12 (Mon) 20:10 · Teacher Ben dated, 10/14 (Wed) 19:30 · Teacher Anna weekly — HQ account only, 10/19 (Mon) 19:30 · Teacher Anna weekly — HQ account only, 10/21 (Wed) 19:30 · Teacher Anna weekly — HQ account only, 10/26 (Mon) 19:30 · Teacher Anna weekly — HQ account only, 10/28 (Wed) 19:30 · Teacher Anna weekly — HQ account only, 11/2 (Mon) 19:30 · Teacher Anna weekly — HQ account only, and 11/4 (Wed) 19:30 · Teacher Anna weekly — HQ account only. A 'Close' button is at the bottom right of the modal. The background shows the 'Today's classes' section of the interface.

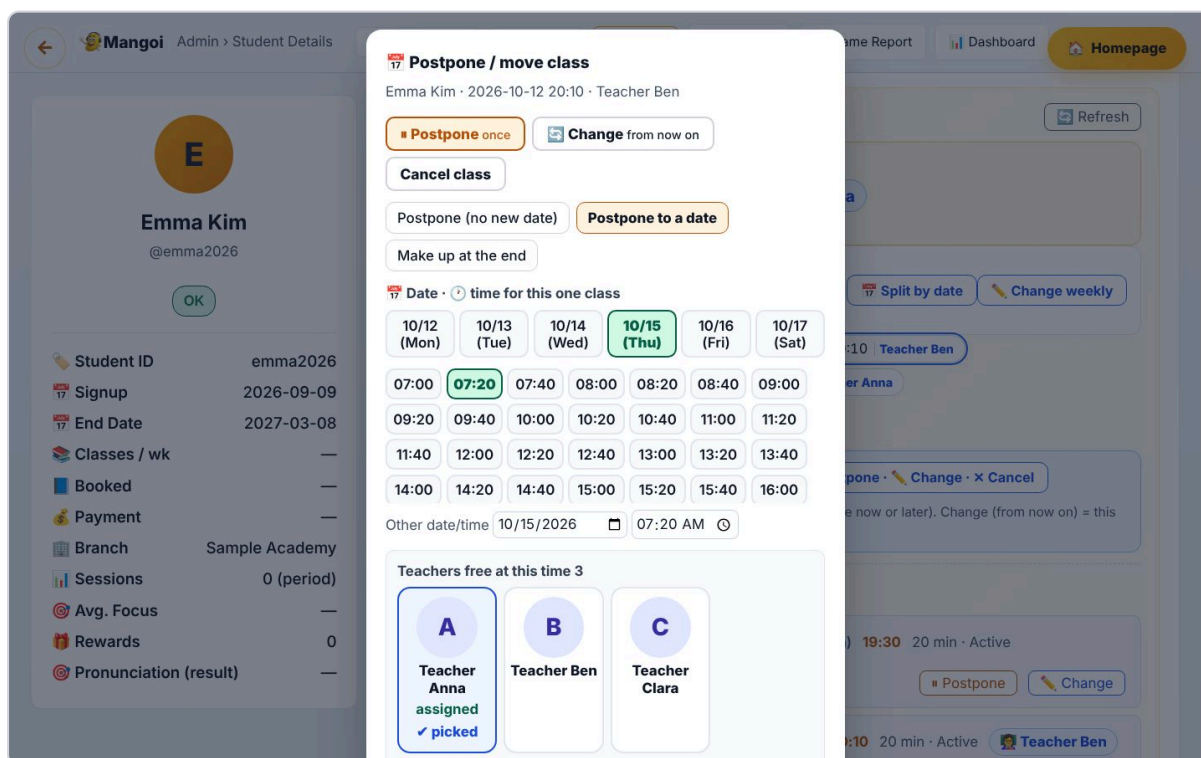

5-4 The postpone/change window

- Top: student · date · time · teacher.
- Three buttons: **Postpone (once)** · **Change (from now on)** · **Cancel class** (HQ only).
- The **reason** is saved in the history. A confirm box appears before anything is saved.

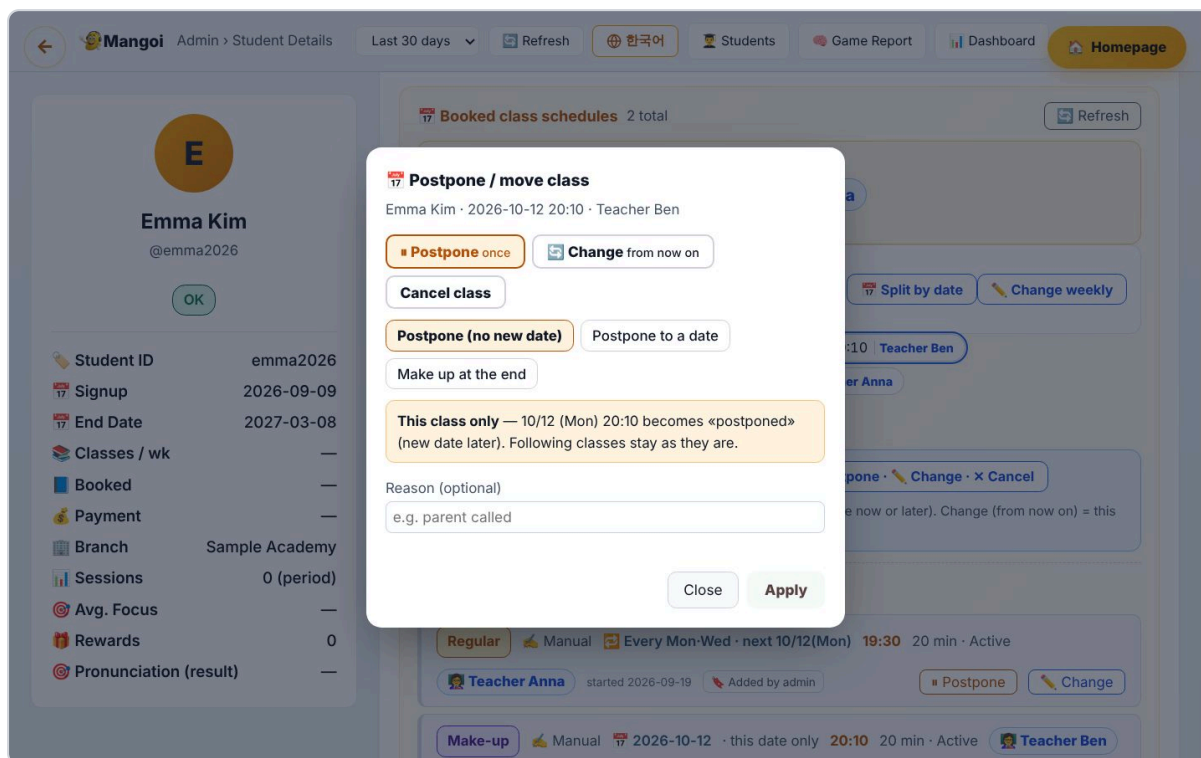

5-5 Postpone ① to a set date

- **Postpone to a date** → pick a day chip and a time chip (10-minute steps), or type below.
- Available teachers appear as cards. If the usual teacher is busy you can pick another (HQ account).
- Teachers who cannot take it (other class, leave, substituting) are left out with the reason.

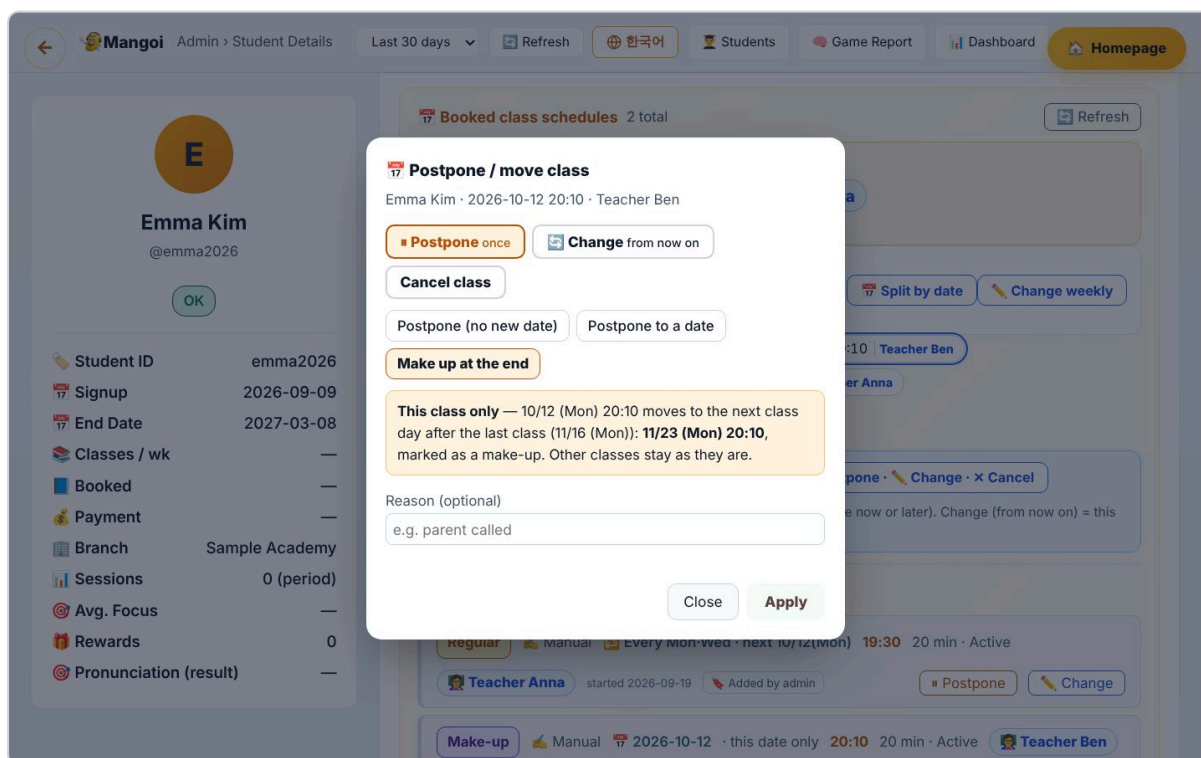

5-6 Postpone ② on hold (no date yet)

- Use it when the new date is not known. The class stays as “ Postponed”; set the date later with  **New date**.
- Postponed classes are left out of Today’s classes, joining and absence alerts.

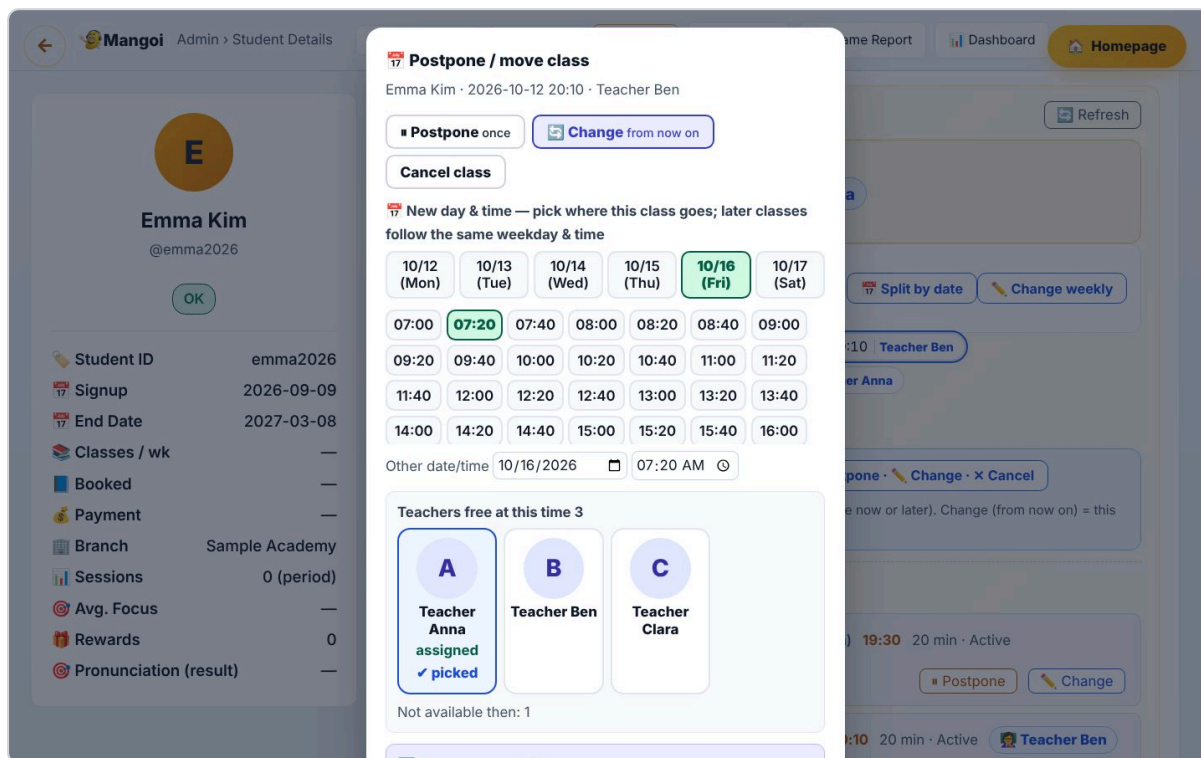

5-7 Postpone ③ make up at the end

- Moves just this class to the next class day **after the last class**, marked “make-up”. The server works out the date.
- Other classes stay as they are.

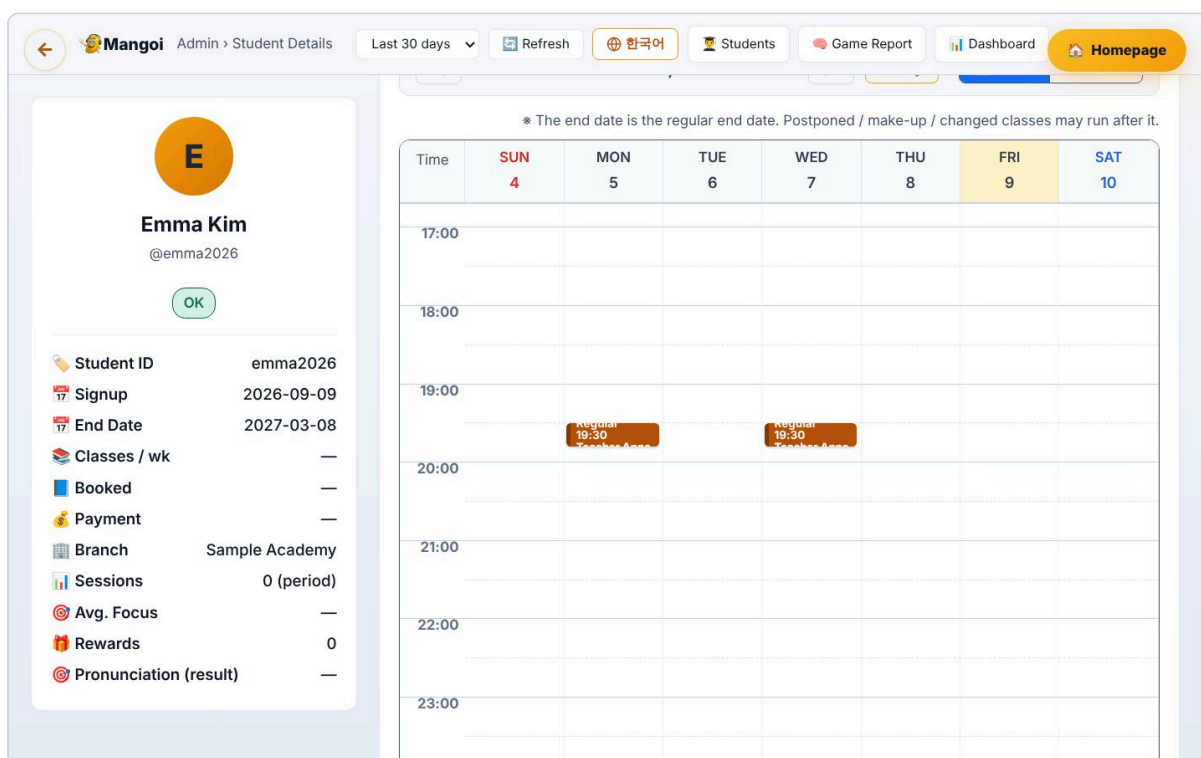

5-8 Change (from now on)

- Pick a new day and time; a **preview** lists every later class that will move (“6 classes move”).
- If any date clashes, nothing moves and the clashing dates are shown.
- Check the preview, then press **Apply**.

5-9 Check the result in the calendar

- Below the ¹⁷ Schedule tab: **week/month calendar**, cards coloured by type with the teacher’s name.
- Click a card to open the postpone/change window for that day.
- KR/PH public holidays are shown too.

5-10 Month view

- Press **Month** for a whole month at once.
- Enrollments without real classes are not drawn; a note above says how many were left out.

Cancelling classes

Cancelling is hard to undo. HQ accounts only, and you are asked to confirm.

6-1 Cancel one class

- In the window: **Cancel class** → reason → **Apply** → confirm.
- A one-day class is cancelled; for a weekly class **only that day** is separated and cancelled (other weeks stay).
- An already postponed class can also be cancelled with ✕ **Cancel this class**.
- Cancelled classes stay in the history.

6-2 Cancel an enrollment → its remaining classes end too

- ✕ **Cancel** in the enrollment list also ends that enrollment's **future classes** (“N remaining classes ended”).
- Weekly repeat rows without dates are **kept** (because of payroll) — tidy them in Student > ^{July 17} Schedule.
- ↶ **Restore** brings back classes this cancel ended, if not past and not clashing. Add any that could not be restored by hand.

The screenshot shows a web application interface for managing enrollments. On the left is a sidebar with navigation links: Search Menu..., Expand All, Collapse All, Menu map, Approvals (2), Today (8), Students (8), Teachers (7), Lessons (7), Finance (8), HQ · Branches · Agencies (4), and System (7). At the bottom of the sidebar are status indicators for Health, KO, Voice on, and a user profile for 'admin'. The main content area is titled 'Enrollment' and contains a table with the following data:

CREATED	STUDENT	PACKAGE	MONTHLY FEE	STATUS	ACTIONS
10/9/2026	Mia Choi mia2026 no SMS add number	Trial class 금 · 20:30 · 1:1 · 1 month (~2026-10-16)	—	Pending	▶ Not confirmed ✕ Cancel

Teacher pay is calculated automatically from real class records. Amounts are in ₱ (Philippine peso).

8-1 Automatic payroll — calculate

- Menu **Teachers** > **Payroll** → **Automatic teacher payroll**.
- Choose the **month** and press **Calculate**.
- Formula: **class minutes** ÷ 10 × **rate per 10 min**, added up per class. Rates by level (e.g. Teacher 1 = ₱50 / 20 min, Teacher 2 = ₱70 / 20 min).
- Summary: teachers · classes · deductions · final pay · paid. **₩ Show in KRW** converts with the exchange rate.

The screenshot shows the 'Automatic Payroll' interface. On the left is a sidebar menu with options like Approvals, Today, Students, Teachers, Lessons, Finance, HQ · Branches · Agencies, and System. The main area has a header with 'Back', 'Home', and 'Teachers > Payroll'. Below this is the 'Auto Payroll' section with a dropdown arrow. A light blue box contains instructions: 'Auto Calculation — pick a month and click Calculate. Each lesson = [minutes ÷ 10 × rate per 10 min]. Assign a teacher level (Teacher 1 = ₱50 / Teacher 2 = ₱70 per 20-min class) in the Level column. Deductions applied automatically: student-absence, teacher no-show, no same-day feedback (-25) and late-lesson-not-extended (-10 per late minute). Click Detail to review/enter each lesson (type, level, late minutes, total). Currency: ₱ (Philippine Peso).' Below this is a form with 'Payroll Month' set to 2026 and 'Oct', a 'Calculate' button, and a 'Save All' button. There are also 'Download CSV' and 'Deduction Rules' buttons. A summary line shows '2026-10 · Teachers 3 · Classes 106 · Deductions - ₱ 60 · Final ₱ 5,960 · Paid 1/3'. Below that is a currency converter showing '1 PHP = 24.1 KRW · sample · 2026-10-09 · open.er-api.com' and a '₩ Show in KRW' button. A search bar for 'Search teacher name' is followed by filters for 'All teachers', 'All levels', and 'All status'. Below the filters is a table with columns: TEACHER, LEVEL (RATE), CLASSES, TOTAL MIN, RATE/10M, and LESSON FEE. The first row shows '애나' as the teacher, 'Teacher 1 (₱50)' as the level, '42' as classes, '840 min' as total minutes, '₱ 25' as rate per 10 minutes, and '₱ 2,100' as the lesson fee.

8-4 Deduction rules and postponed-class pay

-  **Deduction rules:** edit level rates and deductions, save, then **Calculate** again.
- No same-day feedback –P25/class · late, not extended –P10/min · teacher no-show.
- **Student absent pay %** (default 0%), **Postponed class pay %** (default 100%), **Early postpone (30+ min before start) pay %** (default 0%).
- So with the defaults, a class postponed within 30 minutes of start is paid; one postponed earlier is not.

The screenshot shows a mobile application interface for managing payroll. The left sidebar contains a menu with options: Search Menu..., Expand All, Collapse All, Menu map, Approvals (2), Today (8), Students (8), Teachers (7), Lessons (7), Finance (8), HQ · Branches · Agencies (4), and System (7). The main content area is titled 'Payroll' and shows 'Teacher Level Rates (per 20-min class)' for Teacher 1 (P 50) and Teacher 2 (P 70). Below this is the 'Deduction Rules' section, which includes a 'Save Level Rates' button and a list of rules: 'No same-day feedback' (ON, P 25), 'Late, not extended (per min)' (ON, P 10), 'Teacher no-show' (ON, P 0), 'Student absent pay %' (ON, 0%), and 'Postponed class pay %' (ON, 100%).

Teacher Level Rates (per 20-min class)

Teacher	Rate (P)	Unit
Teacher 1	50	/20m
Teacher 2	70	/20m

Deduction Rules

Turn each rule on/off and set the amount. Changes apply the next time you click [Calculate](#).

Rule	Status	Amount	Unit
No same-day feedback	ON	25	P
Late, not extended (per min)	ON	10	P
Teacher no-show	ON	0	P
Student absent pay %	ON	0	%
Postponed class pay %	ON	100	%

9-1 Approvals

- **Approvals** at the top of the left menu (number = items waiting for you).
- **For me to approve:** check the content, amount and attachments, then **Approve / Reject**. Items that passed every check can be approved together.
- Supplies/expenses of ₱5,000 or more need the approver and then the CEO. Below that the approver decides and the CEO only “acknowledges”.
- If the AI receipt reading looks wrong (e.g. a date far in the past) it is not auto-rejected — it is only marked yellow.

FAQ

Q. I booked a class but the teacher cannot see it

Check the booking's teacher and the KST time first. For a one-day class check the date too.

Q. What is the difference between Postpone and Change?

Postpone = move this one class. Change = from this class on, every time.

Q. I want to postpone a weekly class for just one week

Date chip → “this day only”: only that day is separated and handled, other weeks stay.

Q. I do not see the Cancel button

Only HQ accounts can cancel. Teacher, branch and agency accounts do not get it.

Q. I cancelled the enrollment but weekly classes remain

Weekly repeat rows without dates are kept for payroll. Tidy them in Student >  Schedule.

Q. Dragging in the timetable does nothing

It is  locked. Press it to edit (locks again after 3 minutes).

Q. How do postponed classes count in payroll?

By “Postponed class pay %” (default 100%) and “Early postpone pay %” (30+ min before, default 0%) in the deduction rules.

Q. Why can't I join a Cafe24 class?

Cafe24 classes do not use the Mangoi video room. Change their times in Cafe24 too.
