

TEACHER GUIDE

Mangoi · MANGOI

Teacher User Guide

Follow the lesson flow — how to use the site

Teacher User Guide

What is the Teacher Site Guide?

This guide explains how a teacher who runs video lessons uses the Mangoi site. From pre-class device checks to entering the classroom, the materials/board/chat tools, using the AI warm-up and pronunciation coach, writing lesson reviews, praising students and learning reports — it follows the real lesson flow. (This is a 'how to use the site' guide, not a teaching methodology.)

**Pre-class detailed check**

Camera-mic-network-lighting scores.

**Classroom tools**

Video-materials-board-chat-recording.

**Lesson review · praise**

Post-class review and star/sticker praise.

**Learning reports**

Game weak words-reports for next lesson prep.

25-min Lesson Time Split (ex., min)

01

Pre-class Detailed Check

Check devices before entering

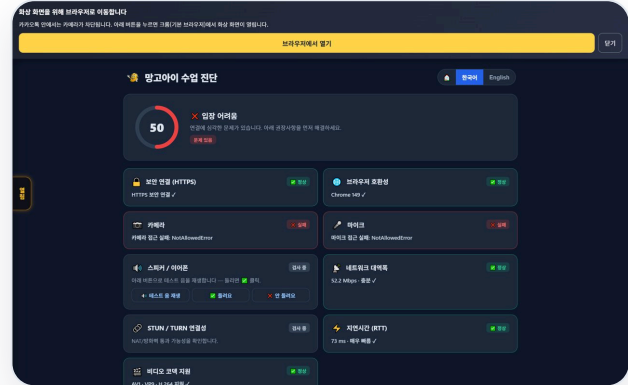

A screen that checks camera, mic, network and lighting at once before class. An overall score and per-item signals catch problems early and prevent drop-outs mid-lesson.

- 1 Check **camera, mic, network and lighting** on the check screen.
- 2 Read the **overall score** and each item's signal (normal/warning).
- 3 For red items, adjust **lighting, seat or connection** and check again.

Key Points

- Do the check 5–10 minutes before class.
- Fix issues before the student enters.

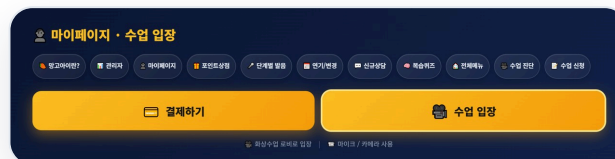

Tip Put the light in front of your face so your expression shows and student focus rises.

Teachers enter a lesson the same way students do — with the **'Enter Class' button on My Page**. After logging in, open My Page and you'll find the gold 'Enter Class' button; pressing it takes you to the video-class lobby.

- 1 After logging in, press the '👤 My Page' button.
- 2 Find the gold '🖥️ Enter Class' button below (in a row with '💳 Payment').
- 3 Press 'Enter Class' and you go to the **video-class lobby**.
- 4 Check the hint '🖥️ Enter video class lobby · 🗣️ Mic/Camera required'.
- 5 Then in the lobby, confirm your name → **Allow camera/mic** → enter the classroom (see next page).

✓ Key Points

- One 'Enter Class' button takes you straight to the lobby.
- My Page also has pre-check, postpone/change, all-menu and more.
- Students enter with the same 'Enter Class' button.

⚠️ **Good to know** Even after pressing the button, your face/sound won't connect unless you allow camera/mic.

💡 **Tip** Enter early from My Page 5–10 minutes before class to check your devices.

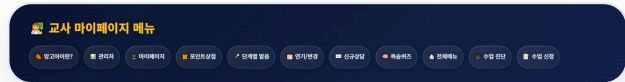

03

**Make the Most of My Page**

Every entry point you need for class

My Page has more than just 'Enter Class' — every menu you need for a lesson is gathered here. Knowing the buttons you use most makes prep much faster.

- 1 **Pre-check:** check camera, mic, network and lighting before class. (a must 5–10 min before)
- 2 **Enter Class:** go to the video-class lobby. (see earlier page)
- 3 **Postpone/Change:** adjust the schedule per a student's request or your situation.
- 4 **Review Quiz** · **Curriculum**
Pronunciation: preview review/pronunciation material for students.
- 5 **New Inquiry** · **All Menu** · **Book Class:** go to intake and all features.

 **Key Points**

- Make 'Pre-check → Enter Class' a habit.
- If text looks Korean, switch to English with the EN button.
- You can also tell the AI search/assistant 'open ○○' to jump there.

Tip Pre-class routine: ① Pre-check devices → ② pre-upload the textbook → ③ Enter Class.

On the entry screen, enter your name and room code to join. Allow camera and mic, then wait for the student.

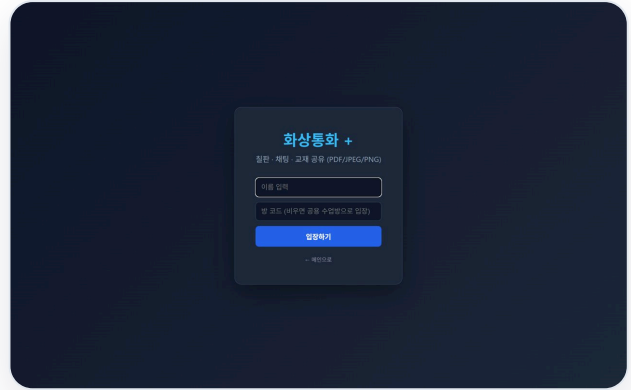

- 1 Enter your **name** on the entry screen.
- 2 Check the **room code** (empty = shared lesson room).
- 3 Press **Enter** and click **Allow** for camera/mic.
- 4 Wait for the student and check screen/sound.

✓ **Key Points**

- Enter early to check your camera framing and sound.
- Chrome/Edge recommended; avoid the KakaoTalk in-app browser.

⚠ **Good to know** If a student can't enter, have them check browser permissions and type first.

💡 **Tip** A 30-second check of background, lighting and sound after entering makes the lesson smooth.

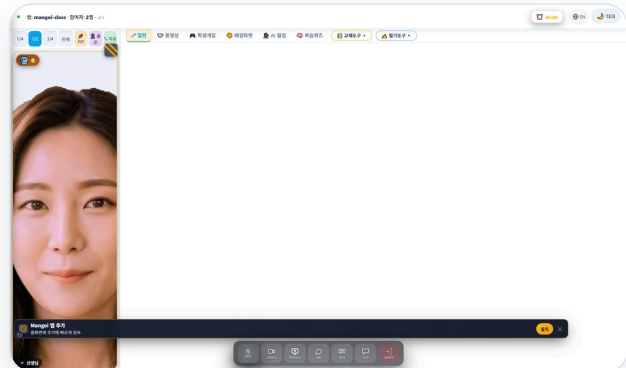

05

 The Classroom at a Glance

What does the lesson screen look like?

When you enter a lesson, the screen has three main areas: ① the top bar (room info, timer, language, dark mode), ② the large center workspace (where the board, materials, video, etc. open), and ③ the bottom control dock (camera, chat, leave). Your face video and the praise basket sit in a small window at the top-left.

- 1 **Top-left:** `Room: mangoi-class · Users: 2` — the room name and how many people are connected.
- 2 **Top-right:**  **Timer** (lesson time),  **REC** (recording indicator),  **EN** (switch language),  **Dark** (dark screen).
- 3 **Center:** the tool you pick from the top tabs (board, materials, video...) opens here.
- 4 **Bottom-center:** the control dock — camera, screen share, chat and leave buttons.
- 5 **Small window, top-left:** your face video and the  **praise basket** (how many praises you received).

 **Key Points**

- Hover over a button to see its name (tooltip).
- If text looks Korean, press EN at the top-right to switch language.
- If the screen is too bright, switch to  Dark.

 **Tip** It looks like a lot of buttons at first, but the four you use most are board, materials, camera and chat.

At the top of the center workspace there are six tab buttons. Click one to switch to that tool. The active tab is highlighted.

- 1  **Board:** a whiteboard for writing and drawing while explaining.
- 2  **Video:** watch a YouTube link or a video file together.
- 3  **Games:** open learning games during class (may be limited during lesson time).
- 4  **Background:** change the backdrop behind your video and decorate your face.
- 5  **AI Warm-up:** an English warm-up before the lesson.
- 6  **Review Quiz:** an AI-made quiz matched to this lesson's textbook and level.

✓ Key Points

- Your face video stays visible even after switching tabs.
- At the far right of the tabs there are also  Materials Tools ▾ and  Writing Tools ▾.

 **Tip** Lessons mostly use the  Board and  Materials the most.

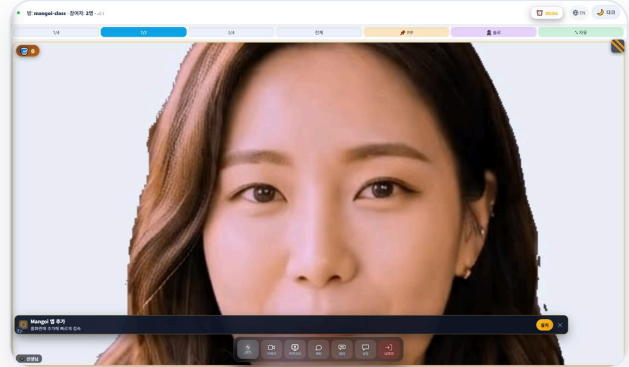

07

Board Tools, One by One

Pen · eraser · shapes · text · save

Open the  Board tab and a row of drawing tools appears at the top. Let's go through each button from left to right.

- 1  **Pen**: draw freely. /  **Eraser**: erase what you drew.
- 2  **Line** /  **Rectangle** /  **Circle**: draw straight lines and shapes.
- 3  **Text**: type letters with the keyboard.
- 4  **Color** (color box): pick the pen color. / **Thickness** (slider): adjust line width.
- 5  **AI Shapes**: even rough drawings snap into neat shapes automatically.
- 6  **AI Text**: recognizes handwriting and turns it into clean typed text.
- 7  **Clear All**: wipe the whole board. /  **Save**: save the board as an image.

Key Points

- Change color and thickness to highlight key parts so they stick.
- AI Shapes / AI Text auto-tidy when turned on (experimental).

 **Good to know** Pressing Save () downloads the current board as an image you can use for review.

 **Tip** Save () the board before class ends to keep exactly what you learned today.

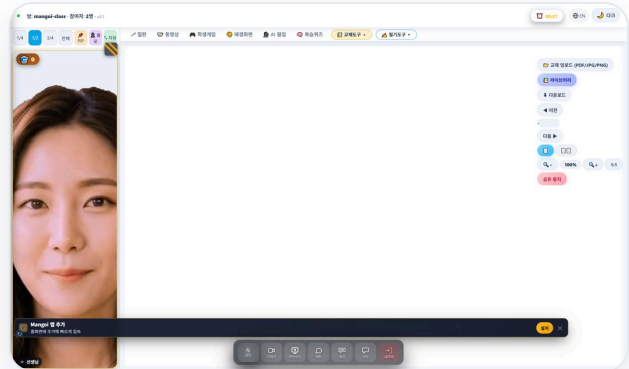

Click  **Materials Tools** ▾ at the right of the tabs and a menu drops down. This is where you upload textbooks (PDF/photos) to view together.

- 1  **Upload (PDF/JPG/PNG):** upload a textbook file from your device to share.
- 2  **Library:** pick from textbooks the academy (admin) uploaded.
- 3  **Download:** download the file you're currently viewing.
- 4  **Prev / Next** ►: turn textbook pages.
- 5  **Fit / 100% / 1:1:** fit the page to the screen or view at real size.
- 6  **Stop sharing:** end textbook sharing.

Key Points

- The moment you upload, the other person sees the exact same page.
- Not only PDFs — JPG and PNG photos work too.

 **Tip** Upload the textbook before class for a smooth start.

09

Writing Tools (annotate on top)

Pen · highlighter · text · undo

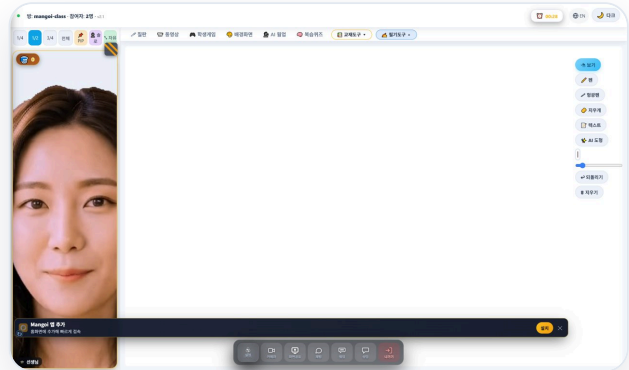

Click  **Writing Tools** ▾ at the right of the tabs and the writing menu drops down. Use it to write directly on top of a textbook or the screen.

- 1  **Pen**: write freely on the screen. /  **Highlighter**: brightly mark important spots.
- 2  **Eraser**: erase your writing. /  **Text**: type letters.
- 3  **AI Shapes**: tidy your drawn shapes.
- 4 **Thickness** (slider): adjust the pen width.
- 5  **Undo**: cancel your last mark. /  **Clear**: erase all writing.

Key Points

- With a textbook open, your writing appears right on top of it.
- Highlight key words to make them stand out.

 **Tip** Made a mistake? One tap on  Undo cleans it up.

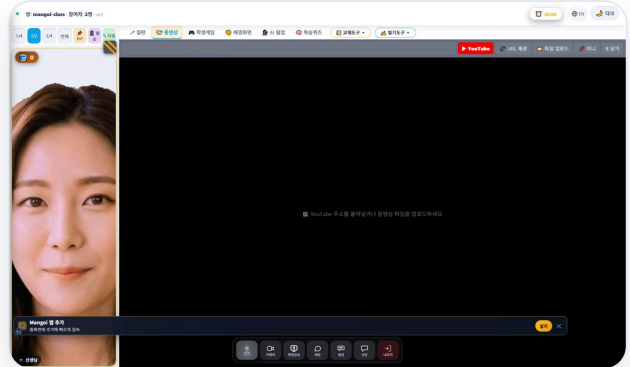

In the  **Video** tab you can paste a YouTube link or upload a video file to watch together — great for songs and video materials.

- 1 Paste a **YouTube link (URL)** into the box, or **upload a video file**.
- 2 Press ► **Play URL / Play** to start the video.
- 3 Use **New video** to switch to a different one.

✓ **Key Points**

- The video plays on the other person's screen too.
- For sound-heavy material, earphones help you hear better.

💡 **Tip** Prepare the video link in advance so you can play it instantly in class.

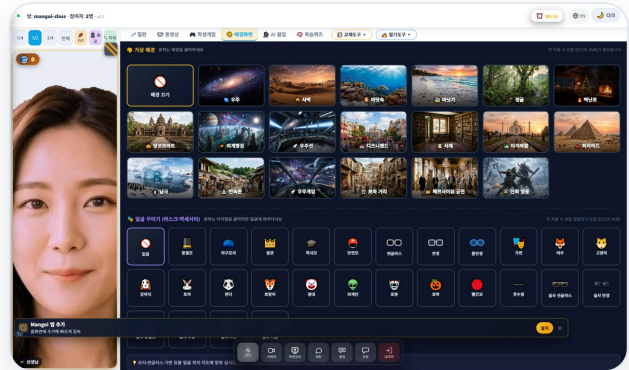

11

Background & Face Decorations

Change backdrop · masks · accessories

In the 🧐 **Background** tab you can change the backdrop behind your face and add fun decorations. Just click what you want in the grid.

- 1 In the **background grid**, tap a backdrop (space, desert, forest, cherry blossom, beach, pyramids...).
- 2 Tap **Background off** to return to your normal camera view.
- 3 Below, in **Face Decorations (masks/accessories)**, pick glasses, hats, animals and more.
- 4 Don't like it? Tap again to turn it off.

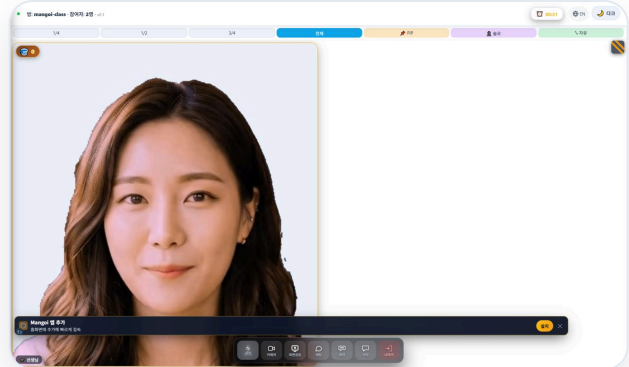

✓ Key Points

- Changing the background keeps your face visible.
- Very flashy decorations can distract from the lesson.

💡 **Tip** Use a clean background for class and fun decorations for break time.

The size bar above the video lets you change the size and layout of your face-video window. The current size is shown in blue.

- 1 **1/4 · 1/2 · 3/4 · Full**: make the video window 1/4 up to full-screen.
- 2  **PIP**: float the video as a small overlay on top of the board/materials.
- 3  **Solo**: hide others and see only your own screen larger.
- 4  **Free**: drag the title bar to move it, drag the bottom-right corner to resize freely.

Key Points

- Make the video small (1/4) when reading materials, large (Full) when presenting.
-  PIP is great when you want to see the textbook and faces at once.

 **Tip** On a small screen, shrink the video to 1/4 and view the textbook large.

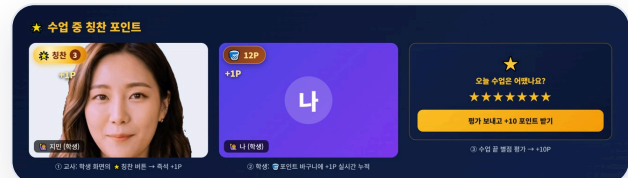

13

★ Praise Points During Class

Teacher gives → +1P in student's basket

When you do well, the teacher can give praise points on the spot. When the teacher taps the ★ 'Praise' star button on your video, that student instantly gets +1P, and it piles up in real time in the 🧺 point basket on the student's screen.

- 1 **Teacher:** tap the ★ 'Praise' button at the top-left of a student's video → that student gets +1P. (the count builds up next to the star)
- 2 With several students, you can also pick a student from the 'Give Praise' bar.
- 3 **Student:** +1P flies into the 🧺 point basket at the top-left of your screen in real time.
- 4 **When class ends,** the student leaves a **star rating** to get an extra +10P.
- 5 Collected points are spent as rewards in the **point shop, roulette, etc.**

✓ Key Points

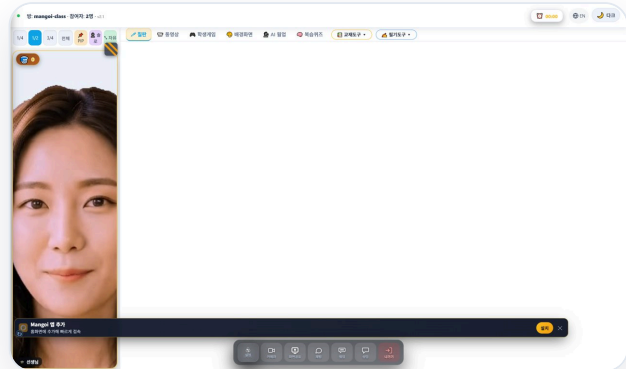

- The more praise you get, the faster points pile up.
- The praise star has an anti-spam cooldown, so it may briefly turn gray.
- The basket shows points earned this class; your total P (top bar) is the running sum.

⚠ **Good to know** Praise points are given by the teacher — students can't add them by themselves.

💡 **Tip** Teachers: praise ★ the moment a student does well — instant rewards motivate best.

The control dock at the bottom-center holds the buttons you use most during class. Let's also look at the small  praise basket at the top-left.

- 1  **Settings:** pick camera/mic devices and check their status.
- 2  **Camera** /  **Mic:** turn your face and sound on/off.
- 3  **Screen Share:** show your computer screen to the other person.
- 4  **Chat:** talk in text (great for words and links).
- 5  **Native:** call the native-speaker helper / interpreter feature.
- 6  **Leave:** end the lesson and exit the room.
- 7  **Praise Basket** (top-left): the praise (stars/stickers) you receive during class collects here.

Key Points

- Before leaving () , make sure you saved the board / notes.
- No sound? Check the mic/speaker devices in  Settings.

 **Good to know** Screen share asks the browser which window to share — pick the screen and allow it.

 **Tip** When your praise basket fills up, it means you're doing great!

15

Pre-upload Materials

Prepare lesson files in advance

Pre-upload lesson files to the materials uploader so you can share them instantly in class. Being prepared makes the lesson far smoother.

- 1 Drag files into or select them in the **materials uploader** to upload.
- 2 Review uploaded materials in the **materials viewer**.
- 3 In class, bring them up instantly via **materials-tab sharing**.

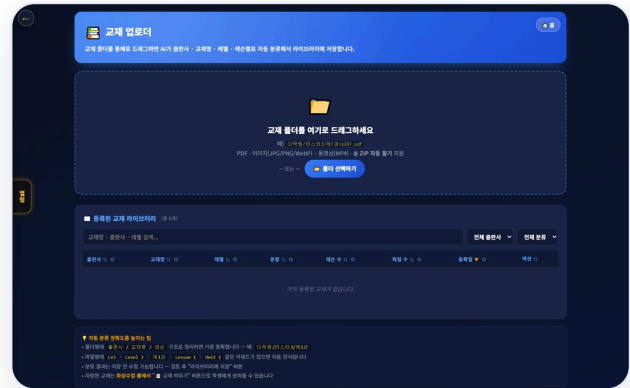

Key Points

- Uploading before class saves time.
- Both PDFs and images are supported.

Tip Naming files by lesson number makes them easy to find.

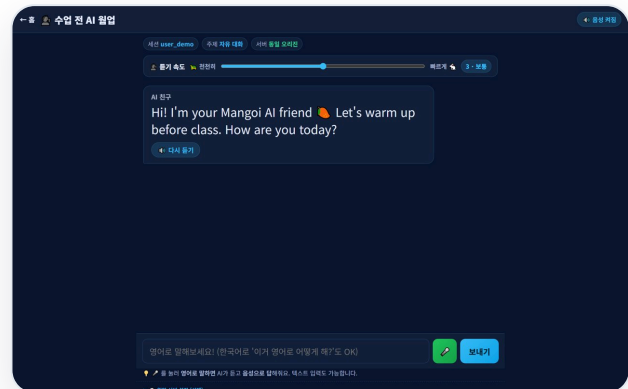

Use the student's pre-class AI warm-up to open the conversation naturally. The warm-up is tied to today's textbook, so it leads straight into the main lesson.

- 1 Open the conversation using the student's **AI warm-up content**.
- 2 Carry the warm-up questions into the **main lesson topic**.
- 3 For students who skipped it, ease in with **1–2 light questions**.

Key Points

- Mentioning the warm-up raises student engagement.
- A smooth intro improves the lesson rhythm.

Tip 'You said ... in the warm-up, right?' instantly breaks the ice.

17

Use the Pronunciation Coach

Correct with the AI voice coach

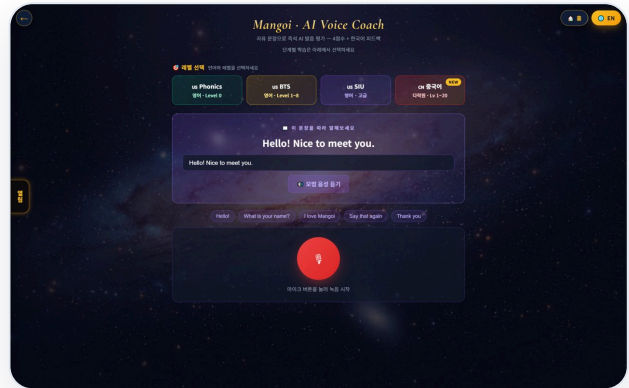

Practice AI voice-coach sentences with students who struggle with pronunciation. Guide them to self-correct through record → score → replay.

- 1 Pick **voice-coach sentences** at the student's level together.
- 2 Have them self-correct via **record** → **score** → **replay**.
- 3 Link the lesson sentences to **voice-coach homework**.

✓ Key Points

- The 'lesson sentence → voice-coach repeat' routine is effective.
- Scores give a sense of achievement to keep going.

💡 Tip For tough sounds (r, th), repeat with short words first.

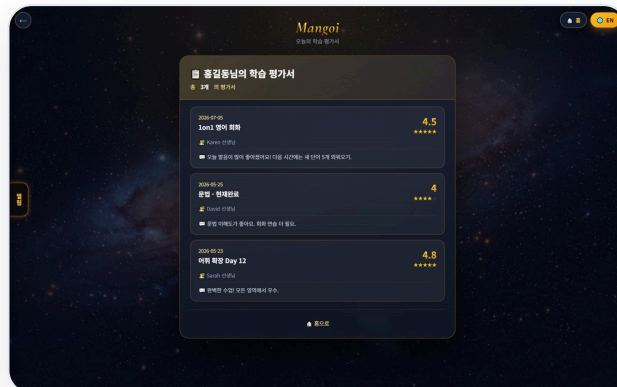

After class, record today's lesson in the review. Leave per-item stars and comments on strengths and areas to improve; it's reflected in the parent my-page and reports.

- 1 Record today's lesson on the **review** screen.
- 2 Leave **per-item stars and comments**.
- 3 Once saved, it's reflected in the **report/parent page**.

Key Points

- One praise + one improvement, short and specific.
- Writing right after class is most accurate.

Tip Adding a concrete example ('today's r sound was great') builds trust.

19

★ Leave Student Praise

Stars · stickers · comments

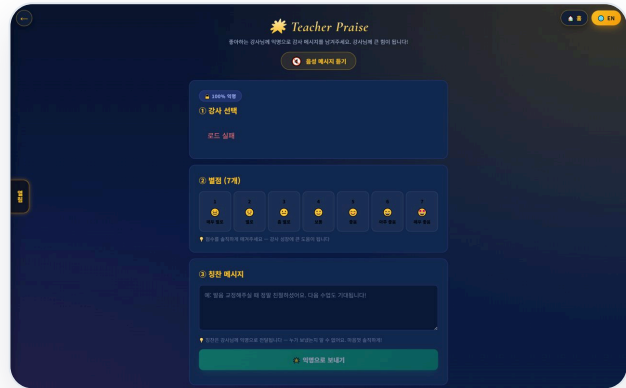

On the Teacher Praise screen, pick the student and items and leave stars, stickers and comments. It shows to the student and parents and motivates them.

- 1 Pick the student and items in **Teacher Praise**.
- 2 Leave **stars (7 items)** and stickers/comments.
- 3 Once saved, it shows to the student and parents.

✓ Key Points

- Leaving it right after class is most effective.
- Specific praise beats vague praise.

💡 **Tip** Praising even small wins improves participation next lesson.

20

🧠 Game Learning Report

Check a student's weak words

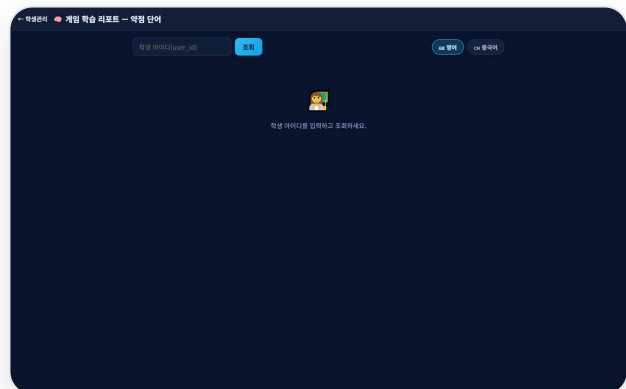

Look up by student ID to see the words most often missed in games. Adding those words to the next lesson's intro for review is effective.

- 1 Enter the student ID in the **game learning report** and look up.
- 2 Check the **weak words** (often missed).
- 3 Review them intensively in the next lesson.

✓ Key Points

- Pinpoints weaknesses with data.
- Even 3 words gives a clear review effect.

💡 **Tip** Put weak words on the chat/board and repeat them.

21

Reports · Lesson Management

Check progress & performance

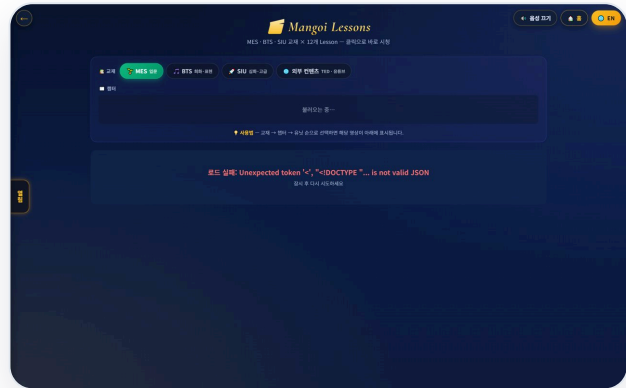

Check a student's learning progress and performance in reports, and organize past/upcoming lessons and progress in lesson management. Use it to set the next lesson's goal.

- 1 Check learning progress/performance in **reports**.
- 2 Organize past/upcoming lessons in **lesson management**.
- 3 Set the next lesson **goal in one line**.

✓ Key Points

- Progress continuity improves.
- Writing goals makes lesson direction clear.

💡 **Tip** Noting the next goal at the end of each lesson makes handover easy too.

22

Handle Lesson Postpones

Respond to student requests

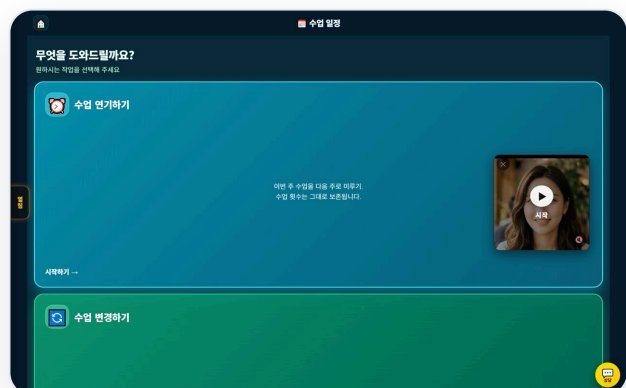

Review students' postpone/change requests and adjust the schedule per policy. Changes are auto-announced to both sides.

- 1 Check students' **postpone/change requests**.
- 2 If within policy, **adjust the schedule**.
- 3 Confirm the change is **auto-announced**.

✓ Key Points

- Guide out-of-policy last-minute requests per policy.
- Postponing preserves the student's lesson count.

💡 **Tip** Tell students the postpone cutoff in advance.

23

Support · Inquiries

When something goes wrong

If there's a technical issue or a question during class, contact support channels. Knowing common issues in advance lets you respond quickly.

- 1 Use phone, email, Kakao and remote support in **Support**.
- 2 For urgent issues, get direct help via **remote support**.
- 3 **Note the fix** for repeat issues.

Key Points

- 'No sound/video' — check permissions and browser first.
- Inquiries within business hours are faster.

Tip Keeping notes of common issues and fixes reduces lesson loss.

24

Korea-Philippines Dual Clock

Two countries' time on screen

A clock on screen shows KR Korea time and PH Philippines (local) time together. Students use Korea time, you use Philippines time — seeing both lets you match lesson times exactly.

- 1 On the on-screen **dual clock**, see KR Korea and PH Philippines time at once.
- 2 **Drag** the clock to move it anywhere you like.
- 3 **Tap (click)** the clock to go to the home screen.

Key Points

- The Philippines is **1 hour behind** Korea (-1 hour).
- You can check booking/entry times in both countries' time.

Tip When a lesson time is confusing due to the time difference, this clock clears it up instantly.

25

cn Chinese Pronunciation Coach

Darakwon Chinese Master Lv1–20

If a student also learns Chinese, guide them to the **Chinese pronunciation coach**. They read Darakwon Chinese Master (Lv 1–20) sentences and compare with a native speaker to fix pronunciation and tones.

- 1 In the AI voice coach, pick the **CN Chinese** level (or go to the Chinese pronunciation coach).
- 2 Choose a **Master series (1–6, HSK 1–6)** and a unit.
- 3 Read the sentence (**characters + pinyin**) and compare with 'Play native audio'.
- 4 Practice hard sounds/tones with **repeat and slow (0.85x)**.

✓ **Key Points**

- Characters and pinyin appear together, so it's easy to read.
- The AI recognizes your voice and compares it to a native speaker.
- The learning games hub supports Chinese too.

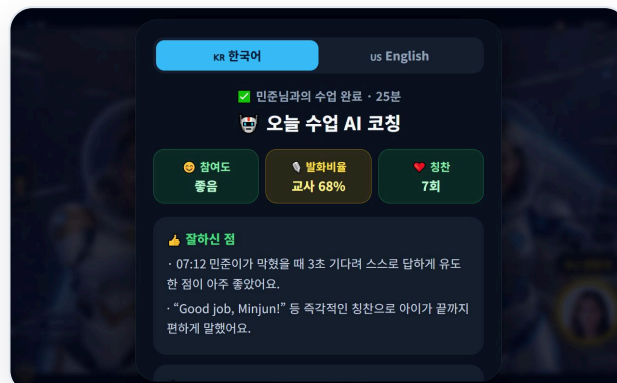

💡 **Tip** Listen slowly and repeat clearly to nail the four tones.

When you finish and leave a class, the AI analyzes it and shows a coaching card with **'What you did well / Areas to improve / One action for today'** in **both Korean and English**. Based on **real class signals** — talk ratio, engagement, praise count — it helps in a **warm coaching tone**, not surveillance.

- 1 End the video class with **'Leave'** and the coaching card appears automatically.
- 2 Toggle **KR Korean / us English** to read it in the language you prefer.
- 3 Check the **engagement · talk-ratio · praise-count** summary and the **strengths · improvements · one action**.
- 4 Press **'Full report'** to see class details plus recent coaching history (quality score · summary).

✓ Key Points

- **English is the default** for native-speaker teachers, with Korean provided alongside.
- A **class-quality score (0–100)** and a **detailed summary** help you find your own growth points.
- Even if the AI is briefly slow, **baseline coaching in both languages** is always provided.

⚠ **Good to know** Coaching is meant to support your own growth. Admins only receive a monthly rollup.

💡 **Tip** Trying just the 'one action for today' in your next class visibly improves how you draw out student speech.

Tools by Lesson Stage

Stage	Screen used	What you do	Tip
Before class	Detailed check	Check devices·lighting	5–10 min early
Entry	Classroom	Enter name·allow	Enter early
Toolbar	Board·materials·video	Switch·control screen	Guide tabs
Prep	Materials uploader	Upload·share files	Pre-upload
Intro	AI warm-up	Icebreaker	Mention warm-up
Main	Materials·board·chat	Explain together	Same page
Practice	AI voice coach	Record·fix pronunciation	Link homework
Wrap-up	Review·praise	Feedback·stars	1 praise + 1 fix
After	Game report·reports	Check weak points·progress	Next goal

Pre-check Items (example scores)

Elements of a Good Lesson

? Frequently Asked Questions (FAQ)

Q. How do I enter a lesson?

A. On the classroom entry screen, enter your name, press 'Enter', then allow camera and mic.

Q. How do I share materials?

A. In the materials tab, upload PDF/JPEG/PNG to share with all participants. Use prev/next and fit-to-screen to view larger.

Q. How do I use the board?

A. In the board tab, write with pen/shapes/color/thickness, and save the board as an image if needed.

Q. A student can't enter.

A. Often a browser permission issue. Advise reconnecting in Chrome/Edge and allowing camera/mic.

Q. When do I write the review?

A. Writing right after class is most accurate. Leave stars and a short comment and it's reflected in the report.

Q. How do I know a student's weak points?

A. Look up by student ID in the game learning report to see often-missed weak words.

✅ Lesson Checklist

- ☐ Did you run the detailed check 5–10 min before class?
- ☐ Did you pre-upload the materials?
- ☐ Did you check camera framing and sound?
- ☐ Did you check the student's AI warm-up?
- ☐ Did you prepare the materials/board/chat tools?
- ☐ Did you write the lesson review after class?
- ☐ Did you leave praise (stars/comment)?
- ☐ Did you check weak words in the game report?

 Conclusion

Conclusion · A Practical Guide to Great Lessons

You've now learned how to use the Mangoi site 'along the real lesson flow.' Finally, here's one page summarizing how a single lesson unfolds and the principles to keep every time. Keep just this page nearby and your lessons will run far more smoothly and reliably.

 The Flow at a Glance

Before class (5–10 min)

My Page →  Pre-check camera, mic, network, lighting; pre-upload the textbook

Enter

 Enter Class → confirm name → allow camera/mic → check background/sound while waiting

Intro (2–3 min)

Open lightly by mentioning the student's AI warm-up; state today's goal in one line

Main lesson

Share the same page via materials tools · write on the board · key words in chat; draw out plenty of student speech

Praise

The moment they do well, tap the  Praise button (+1P) → piles up live in the  basket

Practice

Link weak-pronunciation sentences to AI voice-coach homework for repetition

Wrap-up (3 min)

Summarize today → prompt the review quiz & rating (+10P) → leave the next goal in one line

After class

Write the review (1 praise + 1 improvement) · leave praise · check weak words in the game report

★ Key Principles

- 1 **Preparation is half the battle** — pre-check and pre-upload keep the lesson from stalling.
- 2 **Make them speak a lot** — students should speak more than the teacher to improve.
- 3 **Praise instantly** — the moment they do well,  praise! Instant rewards are the strongest motivator.
- 4 **Keep records** — the review and 'next goal in one line' power the next lesson and handovers.
- 5 **Reinforce with data** — put the game report's weak words into the next lesson's intro.

Remember

- No sound/video → check **Chrome/Edge + camera-mic permission** first (KakaoTalk in-app → external browser)
- **Praise points are given by the teacher**; the student's star rating earns **+10P**
- Handle **postpone requests** after checking policy; guide out-of-policy last-minute requests per policy
- Run every lesson in the rhythm of '**Check → Engage → Praise → Record**'!

A teacher's warm words and instant praise build a child's confidence in English. Keep this guide beside you and lead every lesson with it. Praise even the small wins and students will look forward to the next class. Questions? Contact support anytime — cheering you on for lessons that grow together! 🍊
